Regulate your own hot water with Fowler Economy Temperature Control

Hot water flows from your faucet at just the temperature you desire! Not only automatic, the Fowler Economy Temperature Control is adjustable.

How handy just to turn the dial to any temperature, ranging from about 125° to 175°, depending upon your special demand for hot water. Perhaps a heavy washday, coupled with a round of showers would call for a peak-hot supply. Again lower temperatures would suit other needs.
