Poultry Picture**

No, our chickens aren't shrinking in size but they are in number. There are over 1 million less chickens on Oregon and Washington farms now than last year. At the same time Oregon and Washington population has increased 28% in the last few years, resulting in a critical shortage of poultry and eggs in this area. Poultry growers are urged to increase their flocks and help alleviate this situation. See your local Triangle dealer and let him help you plan.
