## In the Day's News

(Continued from page 1)

menace was before the war.  
So, you see, it isn't too hard to  
understand why Europe is apathetic  
on the second anniversary  
of V-E Day.

Fascism took root and grew in  
the soil of discontented and frus-  
trated Germany and Italy. Com-  
munism takes root and grows in  
the soil of discontented and frus-  
trated Europe.

All these firms are the last re-  
sort of hungry, discontented,  
frustrated people.

THE communist party is out-  
lawed in Brazil, where fed-  
eral police and troops start crack-  
ing down on it.

That may be all right for  
Brazil. It wouldn't be all right  
for us. The best way to combat  
communism in the United States  
is to force it out into the open.  
In this country, communism can  
flourish only in the dark and  
hidden spots. It can't stand the  
light of day.

If we should outlaw it, and  
drive it into the back alleys, away  
from sight, it might get some-  
where. Kept out in the open,  
where people can see it for what  
it is, it can't get anywhere much  
in America.

COMMUNISM, as practiced in  
Europe, can't stand fair com-  
parison with the free way of life,  
as practiced here.

For example:  
The average American can  
earn an average pair of shoes  
with six hours of labor. It takes  
the average European TWENTY  
DAYS. It takes the average  
RUSSIAN thirty DAYS of labor  
to earn an average pair of shoes.

WE are improving. Back in  
1900, it took us 24 hours of  
labor to earn a pair of shoes. In  
1920, it took us 12 hours. We  
now do it in six hours. Why  
swap a system in which we can  
earn a pair of shoes in six hours  
of labor for one in which it  
would take us THIRTY DAYS?

That is the American argument  
against communism. It is a good  
argument.

HERE is good news:

Shipments of lumber from  
Portland in the first four months  
of 1947 almost equalled the total  
lumber cargo moved from there  
in ALL OF LAST YEAR.

It is good news because it  
means that a lot of lumber is be-  
ing produced. When ENOUGH  
lumber is produced, we can have  
enough houses at a fair price.

HERE is some news that sounds  
good at first, but isn't so  
good when you take it apart to  
see what makes it tick:

Department store sales in Port-  
land in the week ending April 26  
were 11 per cent higher than in  
the corresponding week of last  
year. In the first 17 weeks of  
1947, sales in Portland were 14  
per cent above the same number  
of weeks at the beginning of  
1946.

If these sales were measured in  
PHYSICAL VOLUME, it would be  
wonderful, for it would mean  
that the people of the Portland  
area are enjoying and benefiting  
from MORE THINGS this year  
than last.

But the sales are MEASURED  
IN DOLLARS. So it probably  
means that people are merely  
paying more for what they get.  
That isn't so good.

## PLEASANT DISCOVERY

SALINA, Kas., May 8. (AP)—A  
letter with four cents postage due  
arrived at Kansas Wesleyan Uni-  
versity.

School officials busy conduct-  
ing a drive for \$10,000 to help  
build a memorial library in honor  
of war dead, opened it to find  
\$270 in cash—the gift of an anon-  
ymous donor.

## THE SCHOOL BUDGET

By CHARLES V. STANTON

Starting on the front page of today's News-Review is an item in which we have attempted to outline in broad detail the principal provisions of the Roseburg School District budget, which comes before taxpayers of the district at a special school election to be held next Wednesday. We realize that budgets and statistics make for dry reading, and it is much easier to scan headlines of general news, and then skip quickly to sports and comics. We would urge, however, that taxpayers make special effort to analyze the proposed school budget carefully. It calls for a lot of money from our pockets.

We should keep in mind that the City of Roseburg also is seeking a special tax levy this year, and that if both pass the burden will be materially increased.

It is within our province to pass both proposed budgets, or reject either or both. The decision rests entirely with voters.

Only taxpayers may vote at the school election. A taxpayer is a person who pays taxes on any real estate, stock of goods, personal property, etc., or who owns stock in any corporation doing business and paying taxes within the district. At the city election, May 27, any qualified resident of the city—a person who has lived in the state six months, city 30 days and ward 10 days—will be privileged to vote.

In considering these budget matters, several salient facts should be kept firmly in mind to guide our decisions.

We should realize, first, the tremendous growth made in the past and projected for the future. The rate of this growth is apt to increase rather than diminish as the housing problem eases. Larger population means more children attending school.

The Roseburg School District, 18th in size in Oregon prior to the war, promises to be in 9th spot next year. It now is in 12th. Thus, while we have doubled our school enrollment since 1941, we have been able to add only 6 per cent annually in dollars to our budget, except last year, when taxpayers approved the first special budget levy to be submitted by the district.

In addition to the abnormal population increase, we are faced with generally higher salaries, higher costs of supplies and materials, while at the same time we must provide more facilities for transportation and in buildings, classrooms, desks, furniture, etc., just at a time when all these things are at the highest price levels in history.

Certain people object to a public servant being paid a wage permitting average standard of living. They would keep wages low, hiring what help they could get without thought of competence, experience and general qualifications. One reason we have strikes is that many such people are employers. But we do not believe parents desire to send their children to incompetent school teachers. Consequently, if we are to have the type of instructors we desire in our schools, we must pay the "going" wage. The scale set for Roseburg schools in the proposed budget is very close to the state average.

It might be possible to point out a few "extravagances" in the budget. Our own opinion is that such items are few, and even should all of them be canceled out of the list of tentative expenditures, it would make almost no deduction in the tax rate.

We admire the stand of City Superintendent Paul Elliott. "As long as I am principal of the Roseburg schools I intend to advocate the very best schools we can possibly maintain within reason," Elliott told us recently.

We believe the general public joins the city superintendent in desiring the best school system we can afford. The question is whether or not we can afford the amount of money called for in the school budget. It is obvious that educational opportunity will suffer if we force a budget reduction. Our schools cannot be operated as efficiently with less money.

The decision is a tough one and every taxpayer should give it his earnest consideration. Many wild rumors are flying. These should be disregarded. If there is a question in any taxpayer's mind concerning any item of the budget, he will find the city superintendent, or any member of the budget committee, more than willing, we are sure, to provide information necessary to clarify the issue.

## W. F. Yorke, Ex-Resident Of Roseburg, Passes On

W. F. (Fred) Yorke, former resident of Roseburg, died suddenly at Medford April 30.

Mr. Yorke, with his wife, the former Mabel Walter, had moved to Medford two months ago from Seattle, where they had made their home for a number of years. They were living temporarily with their nephew and niece, Mr. and Mrs. D. E. Groat.

Mr. Yorke was a member of the Roseburg Odd Fellows lodge and several of its members assisted in the burial services, which were held at Pleasant Valley Cemetery, north of Grants Pass, Saturday afternoon.

Mrs. Wilbur Culp, a sister of Mrs. Yorke, visiting at the Groat home at the time of her brother-in-law's death, has returned to her home here.

## Eagles Bid Public to Mother's Day Program

Annual Mother's Day will be observed by Aerie No. 1497, Fraternal Order of Eagles, at its quarters in Roseburg tomorrow at 2 P. M. The public is cordially invited to participate in the program, which will include speaker Jack Henry of Klamath Falls.

It was the Eagles order accord-  
ing to Dr. H. B. Scofield, that first  
exposed Mother's Day in making  
its inclusion on the national cal-  
endar.

The earliest known plea for a  
nation-wide tribute to mothers  
was made February 7, 1904, in  
English's Opera House, Indian-  
apolis, Ind., by the late Frank E.  
Hering, then a young professor of  
Notre Dame and active Eagle.  
On Mother's Day, May 10, 1931,  
the Indiana State Aerie erected a  
memorial tablet on the spot of

his home here.

Nazi Woman Leader of  
Spawn Creed Faces Trial

STUTTGART, Germany, May  
12. (AP)—A German denazifica-  
tion court has decided to summon  
Dr. Jutta Ruediger for trial as a  
"major offender."

The 45-year-old woman is ac-  
cused of being a ringleader in the  
program which taught German  
girls to have babies for the  
"fatherland and the reich," regard-  
less of their marital status or the  
lack of it.

Dr. Ruediger held the title of  
Reichserfuerer (lady reich ex-  
pert) under Youth Leader Baldur  
von Schirach, who got a 20-year  
sentence from the International  
Military Tribunal at Nuremberg.

One of the primary creeds  
taught the German girls was that  
illegitimate child-bearing was a  
"honorable" — if a German sol-  
dier enrolled in Hitler's war-mak-  
ing plans was the father.

Chilly Weather Spreads  
South Into Tennessee

(By the Associated Press)

The war is a white coat of frost  
over the verdant lands in most  
of the Eastern and Central sec-  
tions of the country today as un-  
seasonably chilly weather lingered  
to put some zing into spring.  
Temperatures in some parts of  
the Midwest dipped to around the  
15 above mark and snow flurries  
continued in New York state,  
Pennsylvania and Northern New  
England. The Federal Weather  
Bureau at Chicago reported two  
inches of snow at Syracuse, N. Y.  
The cool belt extended from  
Minnesota south into Tennessee.

Oregon Baptists Name  
First Woman President

OREGON CITY, Ore., May 9. (AP)—The Oregon Baptist State  
convention today had its first  
woman president in history —  
Mrs. Maurice Hodge, Portland.

She was named at the close of  
the annual meeting yesterday.  
Eugene was named for next  
year's convention.

In resolutions delegates criti-  
cized the Northern Baptist con-  
vention for affiliating with the  
Federal Council of Churches, in-  
stituted an initiative and referen-  
dum system that will allow year-  
round ballots by mail; and called  
for local option votes to prohibit  
liquor.

Sale of Copco Shares  
Gets Official Approval

PHILADELPHIA, May 9. (AP)—  
The sale of 60,000 shares of  
\$100 par cumulative preferred  
and 18,000 shares of \$30 par com-  
mon stock by the California Ore-  
gon Power Company received  
Securities and Exchange Commis-  
sion approval yesterday.

Also included was approval for  
the sale by Copco's parent Stand-  
ard Gas and Electric of 390,000  
shares of Copco's \$20 par com-  
mon. The shares will be sold at  
competitive bidding and the com-  
mission granted the request of  
both companies to shorten to six  
days the usual ten-day period for  
making bids.

Four Peace Treaties Get  
Senate Committee O. K.

WASHINGTON, May 9. (AP)—  
The Senate Foreign Relations  
Committee today voted unanimous  
approval of peace treaties  
with Italy, Bulgaria, Hungary  
and Romania.

Opposition to the agreements  
has centered on the Italian pact,  
with critics contending that a  
clause demilitarizing that country  
would leave it open to the same  
sort of Communist infiltration  
Mr. Truman has said he wants  
to prevent in Greece and Turkey.

Vandal Deals \$30,000  
Damage to Windows

SAN DIEGO, Calif., May 8. (AP)—Dealers said today they  
doubt if there was enough glass  
in stock here to replace plate  
windows smashed by a vandal in  
the hardware district. Police esti-  
mated the damage at \$30,000.

The vandal apparently walked  
along the streets in the early  
morning Tuesday drawing a glass  
cutter against the windows as he  
passed.

Visitation Day Draws  
Rural School Students

Students of this vicinity's rural  
grammar schools attended Rose-  
burg Junior High's annual Spring  
Visitation Day yesterday, repre-  
senting 12 schools with 75 stu-  
dents taking part.

Part of a yearly program to in-

roduce graduating eighth-graders  
to Junior High, where they'll  
enter the freshman year of high  
school next fall from outlying dis-  
tricts, the students were guests  
of classes, activity groups and a  
special student body assembly.

The assembly program included  
musical selections by a string en-  
semble, girls sextette, vocal selec-  
tions by a chorus, and showing of  
motion pictures of the school.

Schools represented were St. Joseph's of Roseburg, Wilbur,  
Green, South Doer Creek, Ten-  
mile, Weston, Cleveland, Melrose,  
Glengary, Lookingglass, Dillard  
and Elgarose.

## THE MALE ANIMAL

PHILADELPHIA, May 8. (AP)—  
The president of the Philadel-  
phia Models Guild is organizing  
a campaign for charm classes for  
men.

And "why not?" asks the com-  
edy Violet Hale, "The fellows  
lived the Army life, among men,  
so long that they have forgotten  
the little things that women value  
so highly."

She suggests the course cover  
such fields as how to dress, pos-  
ture and carriage, manners and  
make-up.

"I hear they now have cos-  
metics that hide five-o'clock  
shadow," she said.

Round shot was invented in  
the early 19th century by Wil-  
liam Watts, an Englishman, who  
found that drops of molten lead  
falling from a great height into  
water hardened into a spherical  
form. Previously shot had been  
oblong in shape.

Russia Agrees to  
Give Koreans Voice  
In Form of Regime

LONDON, May 10. (AP)—  
The Moscow radio said today that  
Russia has accepted certain  
American proposals for consult-  
ing Korean representatives con-  
cerning the formation of a pro-  
visional government in Korea.

The broadcast said the accep-  
tance was contained in a letter  
from Soviet Foreign Minister  
Molotov to Secretary of State  
Marshall, who had hinted earlier  
that unless Russia specifically  
agreed to consult all Korean  
political elements on the question  
the United States might boycott  
a scheduled May 29 meeting of  
the joint U. S.-Soviet commission  
in Seoul.

Molotov's letter was the fourth  
in a series of letters between the  
two diplomats concerning the  
future of Korea, which is now  
occupied by Russian forces in the  
north and American forces in the  
south. Previous talks concerning  
Korean independence broke down  
a year ago over the question of  
what Korean groups and parties  
were to be consulted.

The Russians previously had  
refused to hear the views of anti-  
communist organizations in the  
American zone.

After saying that he was ready  
to accept the American amend-  
ments in order to expedite res-  
umption of the work of the  
joint commission and consequent  
formation of a provisional Korean  
government, Molotov declared:

"I hope that thus there no  
longer exists any reason for de-  
laying the convening of the joint  
commission."

German Farmers  
Remiss on Quotas

BERLIN, May 10. (AP)—The  
United States has shipped 1,850,  
000 metric tons of food into Ger-  
many since victory day to help  
support German ration scales, the  
monthly report of Gen. Lucius D.  
Clay declares. The report added  
that German farmers contin-  
ued reluctant to meet their  
food delivery quotas and that  
"continued large imports of food  
will be necessary."

In February, the last month  
which the military governor's re-  
port covered, 270,000 tons of food  
were imported for the British-  
American zone at a cost of ap-  
proximately \$33,000,000. It is  
roughly one dollar per non-farm  
consumer in the combined area.

"Failure to meet delivery  
quotas reflects continued serious  
reluctance on the part of farmers  
to deliver their products through  
legal channels for currency with  
which they can buy relatively  
few of the goods needed on  
farms," the report said. Instead,  
many prefer to sell their produce  
on the black market or barter it  
for goods otherwise unobtainable.
