In the Day's News

Doctrine, as it applies to Greece and Turkey.

It is a DISTURBING challenge. Our state department people recognize that fact quite clearly.

An "authoritative source" in Washington says: "The United States is reviewing the WHOLE AMERICAN POLICY in south-eastern Europe to determine what lines of future action might be more effective than the LONG SERIES OF FUTILE PROTESTS sent to Moscow and other communist capitals in the past few years."

THE shape these "lines of future action" may take is hinted by Secretary of State Marshall—a man in whom we all have great confidence.

He "discloses" to reporters at his news conference that Churchill's urging of a United States of Europe had influenced his developing the idea (in his speech at Harvard University a week ago) that the "Europeans should work out their own economic recovery plans and that the United States should EXTEND FINANCIAL HELP to put them through."

The Washington dispatch carrying this information adds that Marshall made no estimate of how much financial assistance might be required but that other state department officials have been "talking in terms of billions of dollars a year over the next several years."

HERE is a bit of personal advice: Don't permit yourself to become too cynical about this business of billions of dollars to reconstruct the rest of the world and get it back into shape to support itself.

Much of the world today is hopeless and starving. Hopelessness and starvation WORK ON THE SIDE OF COMMUNISM. If the world stays hopeless and hungry, communism will sweep over it as a prairie fire sweeps through dry grass.

Our real hope of stopping communism lies in getting the world back on an even economic keel.

WORLD-WIDE hopelessness and hunger are the enemy we have to fight. Winning against such an enemy will take a lot of money and a lot of common sense. But it is better to fight with dollars and food and sound plans for economic rehabilitation than to FIGHT WITH LIVES.

Besides, fighting with lives as the expendable raw material gets us nowhere—it merely raises the lid of a Pandora box and releases a new flight of stinging pests. The aftermath of the last war has taught us that.

IN the European showdown, watch Italy and France. What is going on in the Balkans is curtain-raising stuff. The real struggle for control of Europe will come in Italy and France—especially France.

THE Sinking "incident" is the outstanding showdown development at the moment in Asia. Watch it.

It appears (according to dispatches from Nanking, in China) that Russia has trained and equipped a modern army in Outer Mongolia, including a small but surprisingly efficient air force. The markings on these Mongolian planes are almost indistinguishable from the Russian insignia; so the planes mentioned as supporting the Mongolian cavalrymen were probably Mongolian.

SCHOOL BUDGET VOTE

By CHARLES V. STANTON

Voters in the Roseburg school district are called upon Monday, June 16, to attend a double election. In one election voters will select one director from among four candidates to serve a five-year term.

The new budget calls for \$29,369.30 less in taxes exceeding the 6 per cent limitation than the budget previously submitted and rejected. The earlier budget specified total taxes of \$268,890.06, with \$176,428.48 outside the 6 per cent limitation, while the budget to be submitted at Monday's election proposes a total tax of \$239,520.76, with \$147,059.18 in excess tax.

The committee responsible for the tentative school budget was, and is, faced with many difficult decisions.

The original budget, in the opinion of the committee, was as near an absolute minimum as could be reached without impairment of efficiency. After the original budget was rejected the board was required to make reductions. It called a public meeting in which critics were requested to advise the committee what changes were desired.

The board after several sessions, in which all possible reductions were considered, decided to make changes involving the least damage to the educational program and resubmit the budget. The committee had no way of knowing the wishes of those in opposition nor the amount which would prove acceptable.

Obviously the budget to be submitted at Monday's election will lower efficiency. Less funds are included for supervision, administration, teaching personnel, textbooks, supplies, etc. Each of these items is of considerable importance.

The committee in its second appraisal had the advantage of more information concerning income. More accurate estimates became available on the prospective number of tuition pupils. The state announced funds to pay the full amount due per census child, etc., making it possible to anticipate approximately \$4,000 additional revenue.

Changes in the operating budget include a reduction of \$3,000 in general control, through cut of \$300 in salary increase for the superintendent, and elimination of a clerical item amounting to \$2,700. This is partially offset, however, by supervisory expense, increased \$1,828.

It had been planned to add 10 teachers to the staff to care for anticipated increased enrollment, expected to be 300 pupils. The committee decided to cut the number of new teachers to seven, saving \$8,000, together with a cut of \$1,000 in supervision.

By using some existing money in purchase of textbooks, and cutting down the number of textbooks to be purchased, which probably will require students to "double up" in using books, instead of each having an individual set, the budget was cut another \$5,304.

A minor change amounting to \$460 was made in items for plant operation, the hot lunch program amounting to \$45,000 was removed from the budget, with an offsetting cut in anticipated income; fixed charges, principally contributions to the retirement fund as required by state law, were reduced \$3,300, due to elimination of the lunch program and cut in number of new teachers, and the emergency fund was reduced from \$5,000 to \$3,000.

The combined reductions total \$21,396, which, with additional anticipated revenue of \$8,000, provide a total of \$29,369 less money to be raised by taxation.

Lumber Industry Jobs Not Plentiful

It will take from two to five years for the lumber industry to regain its loss during the recent war, according to R. T. (Dick) Gilman, Roseburg, hiring hall operator.

"During the past six weeks," he said, "we've had more than 100 men a day wanting to get into the lumber industry. During May, we placed about 200 persons, only 25 per cent of them experienced in the lumber industry."

"About 350 fallers and buckers were not able to find jobs. We placed only about 20 of them altogether."

Gilman said most applicants for work have come recently from the Southern states, Minnesota and Michigan, and the Midwest. Some have come from as far east as Pennsylvania.

Last year, the majority of workers seeking jobs in the lumber industry came from Outer Mongolia just for the fun of it.

Cardinals Blank Dodgers; Yankees Lose to Browns

By JACK HAND

(Associated Press Sports Writer)

One by one the proppy St. Louis Cardinals are dragging their selves off the floor and shaking the cobwebs out of their brains.

Brecheen and Slaughter never went down but the others have been rocking back on their heels since mid-April. The latest to recover is George (Red) Mungler who has bounced back from a wobbly bid to hobnob with the pitching leaders.

The New York Giants were idle but the league leaders contributed the biggest news of the day, a pitcher swap with Boston by which Voiselle and an unnamed sum of cash went to the Braves for Mort Cooper.

The Boston Braves' Barrett, like Mungler recovering from early difficulties, racked up his fifth straight win, throttling Pittsburgh, 6-2.

Chicago bowed into second place, a half game back of the Giants, by a 4-3 edge over Philadelphia.

With Detroit's night game in Washington rained out, the New York Yankees blew a chance to close in on the American League leaders when they lost to the St. Louis Browns, 4-3, in 10 innings.

Boston's Red Sox dedicated their new lighting system with a 5-3 victory over Chicago.

Feller took over the strikeout lead with 87 and posted his eighth win but required relief help from Killebrew in pitching Cleveland to a 5-4 night game decision over Philadelphia.

dusty came from Puget Sound, Grays Harbor and the Columbia River area.

Gilman attributed the lack of employment opportunities to the fact that "gyppo" operators are not able to sell green lumber, due to a greater demand for dry kiln lumber, and to the annual "4th of July slowdown."

Strike of Second Bee Causes Wreck of Auto

GRANTS PASS, Ore., June 13.—(AP)—"Driving an automobile when a bumble bee is buzzing around your head is no simple task," remarked Mrs. Dorothy Bellmore, Bell, Calif., to her mother, Mrs. J. A. Critchfield, as she showed away one of the buzzing insects while driving through northern California on her way to Seattle Wednesday.

"It was more than I could handle," Mrs. Bellmore remarked as she crawled out of the wreckage of her overturned car on Hayes Hill near here Thursday, after another bee had struck her in the face.

Mrs. Critchfield, 89 years old, was treated at Josephine General Hospital here for a wrenched knee and lacerations.

SECURITY AGENT DATED. Joseph W. Graman, a representative of the Eugene office of the Social Security Administration, will be in Roseburg Tuesday, June 17. He may be reached at the office of the Oregon State Employment Service from 8:30 A. M. to Noon.

Oakland Squeezes Into Coast League Lead

(By the Associated Press)

The Pacific Coast League race was as tight on points today as a housewife during wartime rationing.

Reading from the top down: Oakland 549, San Francisco 548, Los Angeles 547.

Oakland squeezed into the lead by walloping Seattle in a 12-10 slugfest last night while San Francisco was dropping a 4-2 verdict to San Diego. Los Angeles moved into what was virtually a triple tie by edging Hollywood, 8-6, in 10 innings.

Complicating matters, Sacramento moved to within a half game of fourth-place Portland by pulverizing the Beavers, 18-3.

Sacramento's sluggers pounded Salvo and Moore for 22 hits, including Zipay's home run and a single. A nine-run barrage in the fifth inning salvaged the game for Mann, Solon righthander, his sixth win in seven starts.

'Tiger Jack' Fox Slugs 4 Rounds With Joe Louis

SPOKANE, June 14.—(AP)—Aging "Tiger Jack" Fox of Spokane, who had vowed he would "tag" heavyweight champion Joe Louis, had a sore nose today as he fought the match with some slugging in the fourth. The champion weighed in at 212, Fox at 192.

LETTERS to the Editor

'Nominates' Roseburg Man for City Manager

I should like to place in nomination for the position of City Manager of Roseburg a man who has been a resident of this city for many years; a former member of our School Board and for several years a member of the City Council.

He is progressive, yet conservative in that he desires to obtain a dollar value for a dollar spent. Our City Council would be doing the citizens of this community a real service in considering this man for city manager before obtaining the services of an out-of-town man, for he fully understands the needs of this community.

I give you Mr. Jack Dent, for many years agent for the Railway Express Co. SAM. J. SHOEMAKER, Roseburg, Ore.

Explains Opposition to School Budget Levy

Just so there will be no confusion or remarks about those who may see fit to vote against the school budget at the election Monday, June 16, this writer wishes to make his reasons known to you and those who may read this letter, as to why I will and do oppose any increase above the lawful limitation of 6 per cent.

In my opposition to the school budget as proposed, I have two reasons for my opposition, and will state them to you here.

First: I am entirely opposed to making any increase above the present salary of \$4800 per year for the school superintendent, regardless of who it is. And this does not cover the extra amount, or, as I see it, the excessive amount asked for administrative purposes. I do not believe the granting of any such increases would be helping the present school setup so far as better education for the kids is concerned.

Here I will reaffirm my former stand that I would vote for an increase, if such is found necessary, provided such increase would be used to provide those who really teach with a decent living wage.

Second: Since it is common talk that there are many thousands of dollars of new, and under-construction property which has not yet reached the tax rolls for revenue purposes, and which, if such property was on the tax rolls would eliminate the necessity for any assessment above the lawful limitation ("this" would also apply to the City budget later), and until such time as this matter is clarified by those in power, this writer can do no more than oppose any increase in tax levies above those provided by law.

Thank you kindly for publishing my former letter. I remain, R. D. WILLIAMS, Roseburg, Ore.

Health Exams Slated for Days Creek Students

First and ninth grade students at Days Creek have been notified by the Douglas County Health Department that pre-school examinations, required by law before their admittance to classes in the autumn, are scheduled for Thursday, June 19, between the hours of 9:30 A. M. and 4:30 P. M.

It is estimated that about 300 million people throughout the world have malaria in some years.

Szasz, Davidson In Supporting Go Of Mat Program

Al Szasz, talented Hungarian grappler who was a favorite among Douglas County wrestling fans during his last appearance a year ago, returns to the local mat wars at the Roseburg Armory tonight.

The dynamic grappler will clash with Buck Davidson, the kidney-punching Texan, in the second half of a double main-event being presented by Matchmaker Don Owen.

Szasz is a master of the drop-kick and makes up what he lacks in size with fleet-footed action and agility. Davidson, popular with local fans despite his villainous tactics, is one of the low riders in the Northwest near the same size as Szasz. There match should be packed with action and color and rival the top-billed battle between Pierre LaBelle and Leo Karlinko.

LaBelle, who has been unbeatable of late, displayed real prowess here last Saturday when he defeated Lou Savoldi, highly-touted cousin of Joe Savoldi, in the Oklahoman's inaugural appearance here. The "Fighting Frenchman," who is capable of handing out as well as absorbing quantities of punishment, will be meeting a formidable foe in Karlinko. The so-called "Mad Russian" is not new to Oregon fans, but will be making his first local appearance Saturday.

Karlinko is a real villain as he will quickly demonstrate to Douglas County mat followers. He wears his hair long and has an evil glint in his eyes. Considered one of the best men in the division, the Russian has been headlining cards in the east for many months before coming to the Northwest recently. He possesses a well-founded technique and may employ any type of hold—legal or illegal.

The well-balanced program, starting at 8:30 P. M., promises to attract another capacity crowd. Elton Owen will referee both matches.
