U. S. Again Protests Occupancy of Korea

(Continued from page 1) U. S. military governor, told a news conference that any Russian protest against raising the level of industry in Western Germany would be without foundation because the Russians have declined to treat Germany as an economic unit as provided in the Potsdam pact.)

Molotov Ignores Note In the case of Korea, Foreign Minister Molotov thus far has failed even to acknowledge Secretary of State Marshall's proposal for a re-examination of the deadlocked efforts to set up a unified government for that country.

Marshall set today as the deadline for a report from the state-missioned Soviet-American joint commission at Seoul. He told Molotov in a note last week that if this showed the two powers could not agree on a provisional regime to take the place of the separate occupation zones it was time to decide whether to call off the negotiations which started three months ago.

"Stalling" at Vienna Meanwhile the chief American representative on the four-power treaty commission which has been trying even longer to settle disputes over a peace treaty for Austria was due to leave Vienna today for consultations in Washington.

Robert A. Lovett, Undersecretary of State, used diplomatic language to say in effect that Joseph M. Dodge had been recalled because the Russians were stalling at Vienna.

Demand As to Japan Fails The State Department also reported today that nine nations which will participate in Japanese peace talks have agreed generally with a United States suggestion that a two-thirds vote should govern the conference decisions.

The other participants would be Australia, Canada, China, France, India, The Netherlands, New Zealand, The Philippines, and Great Britain.

LAKE SUCCESS, Aug. 21.—(AP)—Russia today used the veto twice in rapid succession to block action on the applications of Italy and Austria for membership in the United Nations.

These were the sixth and seventh Soviet vetoes cast this week and they ran the Russian string to a total of 18 against majority decisions in the Security Council.

The vote on Austria was 8 to 1, with France and Poland abstaining.

The vote on Italy was 9 to 1, with Poland abstaining.

The action came after the United Nations Security Council had rejected Hungary's application for U. N. membership by a vote of 1 to 1, with nine abstentions.

Most delegates, including Russia, had contended that no action would be taken on the admission of any of the ex-enemy states until after the peace treaties entered into force.

the chief executive's estimate that Congress saved only \$1,500,000,000 in its economy drive is a "political" stroke, evidently "an attempt to delude the nation into believing that Republicans are incompetent of carrying out an economy program."

Rep. Taber (R-N. Y.), chairman of the House Appropriations Committee, declared that the American people are "entitled to tax relief," as a means to avoid a choking off of production and resultant inflation.

Nation's Chief Danger Cited by General Hale

(Continued From Page 1) forces the best weapon first" were about one-fifth the half billion dollars a year which he said was needed.

Would Hit First Blows "We believe that the only salvation in any future emergency will be to destroy the enemy's storehouse of atomic weapons immediately after he exposes his hand, and thereafter to destroy his industrial capacity," he said.

To accomplish this, the general said, America's armed forces should stress military intelligence and technical progress in weapons.

He said the Germans and Japanese could have been stopped before World War II broke out if the United States had provided "a small, highly mobile military force with courageous leadership and the national determination to use it in time."

Budget Report Points To New Tax Cut Fight

(Continued from Page 1) the spending figure at \$37,528,000,000 and the surplus at only \$202,000,000.

His new bright budgetary outlook was tinged on an expectation of continued high prices, taxes, incomes and employment—thus indicating he sees no depression clouds on the horizon.

The President's summation of the government's current financial position was issued against a backdrop of sharp controversy over how near the controlled Congress came to hitting its goal of slashing his 1948 budget by up to \$6,000,000,000.

'Politics' Charged Bridges and other GOP leaders immediately challenged the President, crying "politics." Senator Young (R-N. D.) said
