The girls who run these check-writing machines are mighty important people... not only in the lives of our 67,000 employees... but in your life, too. For they write thousands of checks each month. And all these checks, as they go into circulation, add to the total prosperity of everyone living in the communities we serve in the Pacific West.

New Working Dollars... Millions of new dollars needed to build buildings and buy new equipment to meet the public demand for more telephones and more service do not

come from telephone bills. New dollars come from people who are willing to put their savings into the business. We must earn enough to attract these new working dollars.

The monthly paycheck to our employees has been getting bigger all the time. In a year's time it has grown from nearly \$13,500,000 to about \$16,000,000. Thousands of new people have come with us to help with the big job we must do to meet the West's tremendous growth... and our employees are getting the best pay rates ever.

About 60 cents of each dollar you pay for service is for employees... almost all the rest goes for taxes and other operating expenses. A few cents of each dollar go to more than 700,000 people, many of them Westerners, whose savings built the telephone system. Yes, your telephone dollar serves you, the butcher, the baker and the whole community.
