INSURANCE IS ALMOST AS PERSONAL AS DOCTORIN'

by Don Herold

There are two times when I want my insurance agent nearby and nearby—

- When I buy my insurance and need somebody smart who can size up my situation and prescribe tailor-made insurance to fit my needs perfectly.
- When I have a claim—am in trouble—and need a friend to help me out.

Insurance of all kinds has improved so much in recent years that it takes an expert to keep up with it. Insurance of today can be fitted to individual needs better than ever before. A good local insurance agent can suggest the right insurance just as a good doctor can diagnose your case and write the right prescription for what ails you.

The local insurance man can perhaps suggest combination policies that will cover you like a tent, safeguard you scientifically and still save you money on premiums.

I'm talking of Fire Insurance, of Accident Insurance, Liability Insurance, Theft Insurance and all other kinds of insurance protection.

For expert advice on any of your insurance problems, just phone or stop in at our agency TODAY.
