

### Grain Purchase Certificates May Again Be Used

WASHINGTON, Nov. 13. —(AP)—M. W. Thatcher, head of the National Federation of Grain Cooperatives, said yesterday that President Truman will consider the use of purchase certificates as a means of getting grain to the market.

Thatcher told White House reporters after calling on Mr. Truman that he and some of his associates had recommended the purchase certificate method as one way of releasing stored wheat.

The president, he said, "told us he would look into it."

Thatcher said the chief executive recalled the successful use of such a plan a year ago last spring in connection with the European famine relief program.

Under the plan the government would issue certificates for wheat which the farmer could redeem at the prevailing market price either during the current year or the following year.

Thatcher said that by making the plan effective January 1, or the beginning of the tax calendar year, the wheat farmer could redeem his certificates for cash whenever he chose for income tax purposes.

Thatcher said use of the certificate program not only would help get wheat out of the hands of the growers and on to the market but might also tend to hold down prices.

### Lumber Orders Up During October

PORTLAND, Ore., Nov. 13. —(AP)—Orders for Douglas fir lumber increased last month and H. V. Simpson, executive vice-president of the West Coast Lumbermen's Association, said it indicated heavier than usual winter construction is in prospect.

Orders averaged 146,201,000 board feet per week in October compared with 132,091,000 in September, Simpson said, and added that the cumulative orders for the first 44 weeks of this year were more than a half billion feet greater than for the same period last year.

The high inventory continues, Simpson said, due to a critical shortage of boxcars, principally south of Portland, although the month-end report shows 539,756, 000 board feet on hand at the end of October as compared with 579,808,000 a month earlier.

This leveling off still leaves the inventory nearly 100,000,000 feet above that of last year at this time and western Oregon mill operators report no easing in the boxcar situation, Simpson said.

Production last month averaged 148,322,000 feet weekly, up slightly from the 146,264,000 weekly average of September.

### Annual Carnival Stated By Yoncalla High School

YONCALLA — Yoncalla High School will hold its annual carnival in the gymnasium Friday at 8 P. M. The general public is in vited.

Festivities will include crowning of the queen, one-act play mock wedding and concessions. Proceeds are to be used for the athletic program. Those taking part in the play are Alice Case, Louise Merk, Wanda Long, Donna Lloyd, Mrs. Schoenberger, Beryl McCord and Martha Laman.

### INDIAN SOON! LINDA DARNELL

For her role of Amber in Twentieth Century-Fox's Technicolor production of "Forever Amber," Miss Darnell dyed her hair an ash "Amber" blonde and changed herself drastically. But, she says, it was worth it to get the most sought after role in screen history. Virtually every actress in the United States and Great Britain was considered for the part, and many of them were tested before Miss Darnell was selected by Darryl F. Zanuck for the coveted role.

### Education Committee Of C. of C. Appointed

Appointment of a committee on education to promote the standing of the schools in the community was announced today by Kenneth Ford, president of the Roseburg Chamber of Commerce. The committee includes Paul Geith, David J. McCarroll, E. S. Fall, Ray Sims, O. J. Feldkamp and Earl Fiegel.

### Cattlemen Wary Of Present Prices

WASHINGTON, Nov. 12. —(AP)—Reports being received by the Agriculture Department indicate that not all cattlemen are pleased with the present high price of beef cattle.

Some cattlemen are skittish about buying young cattle to fatten for future markets. They are afraid that by the time the cattle are ready for market, prices may be down and they will lose money.

In the case of young cattle put on grass, it takes two to three years for the animal to reach market weight and condition. Most cattle feeders in the mid-west do not raise their own cattle, but depend upon the western ranges for supplies.

A feeder has no way of knowing whether the \$25 per hundred pounds he might pay for young cattle will be a safe investment for a market two or three years away.

Even farmers who engage in "short-term" feeding operations are skeptical of the future. The department reported recently that there has been a 16 per cent decline from last year in the number of cattle being bought for feeding for next spring's slaughter market.

"Cattle feeders view with caution the size of the investment required for feeding operations at current price levels," the department said. Not only are prices of young cattle high but so too are feed grain prices. This concern over the possi-

### billity of a drop in farm prices within a year or so is causing the nation's cattle numbers to decline.

### Bang's Disease Losses Cut by New Vaccine

EAST LANSING, Mich.—(AP)—A new vaccine for cattle developed by Dr. I. Forest Huddleson, Michigan State College bacteriologist, shows good promise of preventing the spread of Bang's disease in cattle herds, and thus lessening the danger of undulant fever in humans.

The brucella vaccine will be used in widespread tests on Michigan dairy herds. In experiments on private herds during the last two years, the vaccine limited the spread of the costly Bang's disease to four per cent of the susceptible animals.

Undulant fever in humans is spread by contact with infectious material from animals.

### Mother, 19, Baby Found Dead of Gun Wounds

CORVALLIS, Ore., Nov. 12. —(AP)—Investigation of the deaths of Mrs. Letha Francis Hayden, 19, and her eight-month-old son, Terry Russell, is being conducted by Benton County Sheriff C. M. Lilly following discovery of the bodies at their small home near Alsea.

It is believed the mother shot her son with a .22 caliber revolver and then turned the gun on herself, Lilly said. The bodies were discovered by Myron Hayden, husband of the woman and father of the child, when he returned from doing farm chores.

### M. M. Nelson Heads New Officers of Kiwanis

M. M. Nelson, Umpqua National Forest official, was elected president of Roseburg's Kiwanis Club at yesterday's noon luncheon.

Other officers elected for the coming fiscal year were Earl Plummer, first vice-president; Dave McCarroll, second vice-president; and George Luoma, treasurer. New directors elected included James Slattery, W. C. Holmes, Homer Grow, Ray Sims,

### Roy Catching, Maurice Newland and Dr. Roy Hanford.

Following the business meeting, Jack Newby and Luoma presented members with a resume of the coming high school basketball season, urging the support of the community in purchase of season tickets.

About 8,200,000 people in the United States are employed in the motor vehicle industry and its auxiliary services.

From where I sit ... by Joe Marsh

### Prissy's Got a Man! (Maybe)

Yesterday Sis Martin, our librarian, found an article cut from their file copy of the *Clarion*. When she compared it with another copy that I gave her she found it was my column on "How to Keep a Husband Happy."

Nothing unusual about that. Except the last person seen reading the paper was Prissy Hoakins (our town's proverbial Old Maid)!

Well, if Prissy has finally got a man, more power to her. And more tolerance to both of them ... because that's what my column was

about: Tolerance of a husband's taste for old hats, old pipes, old friends, and mellow beer. And tolerance on the husband's part of a wife's tastes and habits.

From where I sit, nobody begrudges Prissy taking that clipping from the *Clarion*. But I'd like to hint that if she'd just subscribe, she'd get my thoughts on tolerance firsthand. And in return I'll treat her to a glass of beer.

Joe Marsh
