Americans Urged To Cut Down Diet To Beat Inflation

WASHINGTON, Nov. 20.—(AP)—Rep. Horan (R-Wash) said yesterday that if Americans, who eat more per capita than any other peoples, will voluntarily reduce food consumption they can do much to combat inflation.

"If Americans will refrain from bidding up prices on shortage commodities, from exacting speculative profits out of critical goods, from using scarce materials for non-essential purposes—if they will do these things voluntarily, we can do the job with a minimum of government controls and still not suffer a severe dislocation of our domestic economy.

"If Americans fail to face up to these tests we may witness in our time the end of economy and society based on liberty, individual initiative and personal responsibility.

Horan said there was no assurance that even the fullest program of aid to Europe will be successful.

He said the foreign aid program must follow through to a final conclusion and should not be started unless the nation is willing to finish it.

Agricultural production may be approaching a crisis, he said, and even if next year's crops are high, Americans will have to eat less "if Europeans are to eat at all."

"At present levels," he said, "we must eat 13 per cent less meat, 15 per cent less milk and 18 per cent fewer eggs."

Federal Ruling Favors New Portal Pay Act

WASHINGTON, — (AP) — The federal wage-hour administrator has ruled that under the new portal pay act workers still may collect for "any work of consequence performed by an employee for an employer, no matter when the work is performed."

Administrator William R. McComb issued an interpretation of the act setting forth that it only relieves employers of liability for non-productive time "for which payment is not provided by contract, custom or practice."

Education Week Draws Visitors To Rose School

Two hundred twenty-five parents visited in the classrooms of Rose School during the past school month, most of them last week during "American Education Week," said E. S. Hall, principal.

In addition the education committee of the Roseburg Chamber of Commerce paid the school an official visit. Members of the committee are Paul Keith, Ray Simms, Dave McCarroll, Ormand Feldcamp, Earl Flegel, and E. S. Hall. The committee, together with Harold Hickerson, secretary of the chamber, spent considerable time visiting the classrooms and inspecting the two buildings housing the Rose School pupils. The committee and Paul S. Elliott, superintendent of schools, were guests of Mr. Hall at lunch served by the school cafeteria.

Other special visitors were Mrs. Fred Hargis, Mrs. J. M. Boyles, Mrs. Clifford Smith, Mrs. Alvin Bruden, Mrs. Sam Warg, and Mrs. L. M. Dunn, a committee from the Parent-Teachers Associations of the City of Roseburg.

The two committees were especially interested in making a survey of the classrooms, buildings, and the playgrounds to determine what equipment, repairs, and additions were necessary to bring the school up to the level of the requirements for standardization as outlined by the State Department of Education.

Lumber Industry Unhurt By Canada Restrictions

PORTLAND, Nov. 21.—(AP)—Lumber sources here said yesterday that Canada's restriction on imports—resulting in some lumber order cancellations here—would have no appreciable effect on the lumber industry.

One wholesaler said a 2,500,000 board-foot order had been canceled but it could be placed elsewhere readily.

Wset Coast Lumbermen's Association officials were not available for comment, but trade sources pointed out that Canada as a lumber producing country has little need for this region's product and accordingly imports little.

Meet some folks whose savings paid for your telephone

Your telephone, and the vast service facilities it represents, was actually bought and paid for by someone like this lady . . . someone with faith enough in the telephone business to invest savings in it. Each telephone requires an investment of about $245 in equipment . . . buildings, cables, poles, switchboards and the like.

Who are they . . . the people who own the Bell telephone companies? Among them are families saving for their children's education, widows, young men investing for their future. Some of your friends are probably among our owners, for there are now more than 715,000 . . . Bell has more shareholders than employees, in fact.

Many employees are Bell System shareholders, too, combining their work and their savings in our program to bring service to all who want it. And this year alone our Pacific Coast construction program amounts to $200,000,000 . . . bringing us still closer to our goal of the finest telephone service for the West.

It takes new Working Dollars . . . millions of them . . . to build the buildings and buy the equipment needed to meet the demand for more service. Millions of dollars for growth do not come from telephone bills—but from people who are willing to put their savings into the business. To attract these savings we must sell our services at fair prices which allow us to pay reasonably for the use of needed working dollars.
