Use of Foreign Holdings to Cut Aid Costs Opposed

WASHINGTON, Jan. 15—(AP)—Secretary of the Treasury Snyder yesterday vigorously opposed requiring the 16 Marshall plan countries to use their dollar holdings in this country to help cover costs of the $6,800,000,000 European aid program.

"It would be folly" to force them to do so, the secretary told the Senate foreign relations committee.

Snyder said citizens of these countries had about $4,800,000,000 in dollar assets on last June 30, but he added:

It would be difficult to get cash readily on most of these assets as some are already pledged for loans; the Europeans need the funds to cover their normal trade and financial operations; and their holdings already are below a "safe" amount needed to keep their own currencies steady.

Snyder, explaining financial aspects of the Marshall plan for European recovery in testimony calling on Congress to approve it in the form and amount laid down by President Truman, also said:

Other Reasons Cited

1. Part of the United States money should be provided as "grants in aid"—meaning gifts—and part in loans. The amount required to be repaid should be held down to the "borrowing country's capacity to repay in dollars."

2. Five per cent of the program funds should be set aside to guarantee private American firms U. S. dollars in exchange for foreign currencies they earn through investment in those countries. Purpose is to attract private investment abroad.

3. Congress should permit the U. S. aid money to be spent on buying short supply goods for the Marshall plan countries in Canada, Latin America and elsewhere, or in one Marshall plan country to buy goods for another one.

4. Separate agreements will be required from each beneficiary country assuring steps will be taken to steady its currency.

This would be done through a balanced budget, tax law changes and, at the proper time, devaluing inflated currencies to a point in line with their true buying power.

5. Each beneficiary country also will be required to set aside local currency in an amount equal to dollar "grants in aid" given by the U. S. and use it for reduction of its public debt unless the U. S. authorizes use for reconstruction or development purposes.

6. The United States should lend gold and dollars later, possibly in this year and "probably" next, to furnish the European countries with hard money reserves to bolster the value of their own paper money and keep it steady.

TAFT VIA WALLACE

BOULDER, Colo. — (AP) — Students who called a Wallace-for-President rally on the University of Colorado campus received some help from an unexpected source.

The campus was littered with handbills listing a "Help Elect Taft Rally" at the same place and time as the Wallace meeting.

The circulars were signed by "the committee to elect Taft by voting for Wallace."

Freeze Blasts South, New Wave Hits Dakotas

By the Associated Press

Winter's icy blasts chilled the eastern half of the country today and as freezing weather lingered in the south the mercury dropped to 35 above in Miami, Fla., and to 10 above in Greensboro, N. C.

While the south shivered in the abnormal temperatures and many were faced with shortages of fuel, a fresh cold wave howled across the Dakotas and headed into other sections of the midwest. In the east, the mercury dropped to zero in New York state.

Los Angeles' 80 was high across the nation yesterday and temperatures generally in the Pacific Coast area were near or above normal.
