Many Never Suspect Cause of Backaches

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about a pint a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, dizziness, pain, leg pain, loss of sleep and ap-

erty, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives longer relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
