

Odd Requests Pour In On Red Cross

By JANE EADS
WASHINGTON — Some unusual requests are received from sister societies all over the world by the American Red Cross during the course of a year. The Danes have asked for 2,000 pounds of sodium bicarbonate. Not for indigestion. They expect to use it in preparing serum for the tuberculosis inoculation program the Danish Red Cross is now carrying out in European countries.

In addition, The American Red Cross is rounding up 1,000 pairs

of galoshes, in large sizes, for Finnish nurses and \$4,500 worth of iron roofing material for a child health center. Two hundred bicycle tires have already been shipped to that country to equip bikes the American outfit previously supplied so that nurses could get around in their districts. Some 20 electric refrigerators are needed by the Belgian Red Cross for its blood collection program. The Greek Red Cross wants 500 gallons of white paint to use on hospital furniture and rooms.

The Austrian Red Cross recently received 50 old-fashioned treadle sewing machines to use in making children's clothes. This society has also asked for such items as 200,000 buttons, 13,000

British Say Russian Fighter Dived on Transport

Fourteen persons aboard a twin-engined British Viking plane were killed when a Russian fighter reportedly dived on a British transport over Berlin. Both planes crashed. Pilot of the Russian plane also was killed. Shown here is wreckage of both planes. Photo by Acme-NEA photographer Al Cocking.

Accident Board Probes Sawmill Death of F. Orr

Circumstances involved in the accident which resulted in the death of Frank Orr of Sutherlin were investigated in a hearing conducted by the State Industrial Accident Commission in Roseburg April 1.

Orr, employed at a local sawmill, stepped off a platform on which he had been working and thrust his leg into the drive belts of a large electric motor. It was necessary to amputate his leg and he died shortly afterwards, reportedly from shock.

Examination of the site of the accident showed that the point at which the accident occurred was not adequately guarded and it apparently was felt that the belts and pulleys were far enough under the platform as not to be a hazard, the commission says in a formal report. The opening has since been completely covered to remove the hazard.

Commenting upon this and similar accidents, Chairman Burke of the commission stated: "Many hazardous places in mills and factories are left unguarded because they are apparently in remote or out-of-the-way places, where no one is supposed to go."

"What many people fail to realize is that the safeguard is designed to protect the workman from the extraordinary situation. Under normal conditions he can avoid the hazard but, as in the case of Mr. Orr, the accidental circumstances change all this and the presence of an adequate safeguard is the only salvation."

Convicted Woman Never to See Son

LOS ANGELES, April 8.—(AP)—Mrs. Shirley Kinn, convicted slayer of her two-year-old daughter, was ordered barred today from ever again seeing her month-old son, born while she awaited trial.

The same bar, Superior Judge A. A. Scott ruled, applies to Mrs. Kinn's husband, Lawrence, a 27-year-old Beverly Hills salesman. The Juvenile Court judge ordered the baby, Steven Dale, made a ward of his court and sternly declared:

"This is an unfit home by reason of neglect, cruelty and depravity of the parents. This baby has the right to grow up and not be treated worse than a cur dog."

Mrs. Kinn and her husband were in tears at his words. The order was made after Deputy District Attorney Adolph Alexander, who prosecuted Mrs. Kinn, was asked if the husband had been linked with any mistreatment of their daughter.

"You can't make a bad cup of M.J.B."

says

VIRGINIA FIELD

co-starring in

"Dream Girl"

a Paramount Picture

Made extra mild or rich and strong,
The flavor's right...you can't go wrong

1. Each year we search the world to find the finest crops for M.J.B.'s richer blend. On each plantation, coffee quality varies from season to season—but only the top crops come to M.J.B.

2. "Individual roasting" coaxes out all the secret goodness locked in every bean of M.J.B.'s top-of-the-crop coffees. These subtle extra flavors are lost by most roasting methods.

3. Highest-vacuum pack seals in every whiff of M.J.B.'s fragrant goodness till it reaches your cup. Try it today and you'll agree—you can't make a bad cup of M.J.B.
