Revolution Controlled By Colombian Govt.

(Continued from Page One)

munique accusing Communists of inciting the uprising. (Diplomatic dispatches reaching the State Department in Washington reported Communists appeared to be abetting the revolution and helping attempts to provoke a strike.)

(Washington diplomatic authorities said the Communist party in Colombia has about 8,000 members.)

Revolutionary leaders claimed the revolution was spreading throughout the country. Earlier in the day the liberals proclaimed their own government.

Last night the conservatives reoccupied a radio station the insurgents had held. Other government forces firing from the towers of the cathedral killed 14 persons on one street.

Delegates to the ninth Pan-American Conference in the capital building left the building when the rioting started. Newspapermen still inside were endangered when parts of the structure were set afire.

Henry Bessemer, an English metallurgist, invented a revolutionary steel-making process in 1856, and the Bessemer method opened the doors to mass production of steel.

Russian Move to Sway Italian Vote Expected

(Continued from Page One)

reparations claims when the pact was drafted. Moscow has given no advance hint if such a strike has been decided on. But in seeking to open negotiations for a trade agreement with Italy last week Russia insisted the reparations question be taken up.

State Department officials said the Italian treaty could be revised by agreement of the Big Four allies—including Russia and Italy.

Yugoslavia, a Soviet satellite, is bitterly opposed to giving up its share of the Trieste territory, but presumably would follow a Moscow order to fall in line.

LAKE SUCCESS, April 10.—(AP)—Russia charged today the United States was using the coming elections in Italy.

Soviet Delegate Gromyko told the Security Council the U. S. was trying to force a Russian veto of Italy's bid for U. N. membership in order to win votes for the Rightist Parties April 18.

The American move for action on Italy's application at this time is a "tactical maneuver," Gromyko said. He repeated recent Soviet charges that the United States resorts to "direct blackmail" and other forms of pressure on Italy's internal affairs.

He said those moves would not fool the Italian people.

U. S. Delegate Warren R. Austin told the Security Council that another Russian veto of the application could be interpreted by the world only as an expression of the Soviet Union's lack of friendship for the Italian people.

The United States, Britain and France jointly reopened the Italian application in the Council, where Russia twice vetoed it in 1947. The move was timed with

TIMBER—SAWMILLS

this month's Italian election, where the Communists are fighting for power.

Cool Strike Settlement Impends From Parley

(Continued from Page One)

Asked whether he expects any difficulties in reaching an understanding on the pension, Van Horn said: "We will have to take that up when we get to it."

The surprise turn in the coal strike came as the government called for surveys of fuel stocks at power plants in the light of rapidly dwindling supplies.

ACTOR SUED BY WIFE
LOS ANGELES, April 10.—(AP)—Mrs. Barbara B. McLean charged her husband, Douglas McLean, 30-year-old film veteran as an actor, writer and producer, with cruelty in suing for divorce yesterday.

HERE'S THE MOST
UNUSUAL OFFER EVER MADE
IN THE TIRE BUSINESS!

YOUR MONEY BACK
If Super-Cushion Tires Don't Give You
The Softest Ride You've Ever Had!

YOU RIDE....THEN YOU DECIDE!

We mean every word we say—we'll put a set of Super-Cushion tires and tubes on your car. Drive it for one week. Then, if you don't agree they give you a softer ride than any tire you've ever owned, we'll replace them with your old tires and give you money back!

Super-Cushion is a remarkable new kind of tire. Bigger, softer than conventional tires, it runs on only 24 pounds air pressure. It is so superior that we make this amazing trial offer... for a very limited time only due to the great demand for Super-Cushions.

Super-Cushions give you a remarkable new ease in car handling. Your car hugs the road, seems to float through traffic, to flow around curves.

Super-Cushions soak up crosswise jolts, soak up vibration. Results: less driving fatigue, less wear and tear on your car.

Super-Cushions consistently average more mileage than the best standard tires. More—they make small cars ride like big ones... make big cars ride better.

Super-Cushions run cooler; and because they're softer they "roll with the punch", are harder to cut, bruise or blow out. Arrange now for a Super-Cushion test run on your car.

MILLIONS OF SUPER-CUSHIONS ARE NOW IN USE ON NEW AND OLDER CARS
