

Motorists Warned To Look Out For Children at Play

"Watch out for children at play" is the special plea issued to motorists today by Superintendent of Schools Paul S. Elliott, as part of a campaign to reduce traffic accidents in Oregon this summer.

FUNNY BUSINESS

By Hershberger

"I can't back out straight, so I had the driveway made accordingly!"

children playing in the street increase during the summer vacation, the superintendent said. "Nearly all of these accidents could be avoided if motorists are alert for danger signs and drive at reduced speeds in areas where children are to be expected," he declared. "A ball rolling in the street is an example of a danger signal. A wise motorist will reduce speed immediately — not waiting until he sees the child in show that accidents involving

pursuit. By that time it may be too late." He pointed out that 536 school and pre-school age children were killed or injured in Oregon last year while on foot, characterizing this record as a blot on the driving habits of adults who have failed to accept their responsibility for safe handling of their automobiles in situations which should be expected and anticipated. "In the schools, we emphasize the importance of playing in safe places and of caution in traffic," Superintendent Elliott said. "If we are to be successful in preventing these accidents, however, parents must supplement this instruction by encouraging safe walking and playing habits, and motorists must abandon carelessness and speed in favor of watchfulness and proper caution."

Science Obtains 'Seeds' for Vaccine Against Polio

MINNEAPOLIS, May 11.—(AP)—A New York bacteriologist said today science now has the means of developing good "seeds" for a vaccine against infantile paralysis—but lacks a proper "garden" in which to grow them.

Dr. Herald Cox of the Lederle Laboratories division, American Cyanamid Co., Pearl River, N.Y., said that a technique is in hand for purifying strains of infantile paralysis virus to the point where they could conceivably be used to produce a protective vaccine—but no satisfactory laboratory means has yet been found to grow the viruses in quantity.

He said monkeys offered the best bet to date for growing "polio" virus, but that the quantities produced were relatively small compared with those of influenza virus produced in fluids within a hatching hen's egg. So far, it has been impossible to grow polio virus in a hatching egg.

"Our solution to polio will

come," he told a reporter, "when we can grow the polio virus in sufficient quantity in animals other than the monkey—possibly in the chick embryo within the hatching egg."

"(The principle of any vaccine is to inject either a dose of living, modified active virus or a dose of completely killed virus so that the body will build up resistance against a subsequent attack of the usual form of the disease.)

SHUCKS! LEGION WINS CAMPBELL, Neb. — (AP) — A farmer who needed help and an American Legion post which

needed money got together here. The Legion needed money to buy oak flooring for its new quonset hut building. Winter caught farmer Carol Lindgren with his corn still in the field. He needed harvest help and offered the Legion a fifth of the crop to shuck it. Approximately 45 men with horses and wagons went to work on the field. The Legion Auxiliary served lunch. Value of the Legion's share of the harvested corn was estimated at \$1,000.

Women in the United States own nearly \$40 billion of life insurance.

Race Segregation Will Of God, Church Declares

COLUMBUS, S. C., May 13.—(AP)—Total race segregation is "the will of God" and must be maintained, the general conference of the Southern Methodist Church declared yesterday.

Delegates from six southern states adopted a resolution outlining the view, making it "part and parcel of the discipline of the church."

The Church is composed of congregations that refused to join in the union of Northern and Southern Methodist Churches several years ago.

GIANT MUSHROOM SYDNEY, Australia — (AP) — A mushroom gathered recently at Mullengandra (New South Wales) in the Riverina, that big expanse of Australian sheep country enclosed between the Murray and Darling Rivers, measured 75 inches in diameter. Its trunk was four inches thick.

Good mushrooms, though not, of course, of this size, invariably are found in sheep country. The animals not only manure the ground in which the mushroom spore thrives, but their sharp hooves cultivate it.

The three largest cities in Palestine are Jerusalem, Tel Aviv and Haifa.

LEVIS...

We Have 'Em

We have Levis in sizes 30 to 38, so come and get them as they won't last long.

WESTERN CLOTHES FOR BOYS

We have Cowboy Boots for boys in all sizes... Also Western jeans.

Western Palm Straw Hats

Western Palm Straw Hats. We have a new shipment of men's Palm Straws. 129

Time to get ready for the annual Sheriff's Posse Rodeo June 19 and 20. Don't forget the date, as Leo Carillo, famous western movie actor will be here.

EVERYTHING FOR THE HORSEMAN!

● SADDLES

We have a big selection of Saddles by two world famous makers... TEX-TAN and BAIRD.

● BOOTS

We feature Cowboy Boots by Acme, Nacoma and Stewart-Romero.

● RIDING CLOTHES

We have H. & C. CALIFORNIA RANCHWEAR... Also Riding Clothes by LEE and LEVI!

AND . . .

We have many other items of clothes and equipment such as RESISTOL HATS, spurs by KELLY and CROCKETT, Western shirts, ropes, bits, bridles, etc.
