

Busy O. S. C. Graduation In June Set

OREGON STATE COLLEGE—Commencement weekend events this year, June 5, 6 and 7, will begin Saturday with what is expected to be the largest alumni reunion in history and will end Monday with the largest graduation ever held here. Approximately 1175 degrees are to be conferred, some 300 more than

the highest previous number. Alumni registration will start Saturday, June 5, at 10:30 o'clock, featuring the Silver Jubilee class of 1923 and the Golden Jubilee class of 1898. Mrs. Francis Benson Roosen of Corvallis is heading the reunion committee for the "war class" which entered college the fall of 1919. It set a new high record of 522 graduates when it finished. Dr. W. J. Gilstrap, Portland, is heading the '38 class that had about 25 members in the graduation ceremonies. Reunion luncheons are scheduled at noon Saturday followed by a reception for alumni and faculty members at 4:30. Business affairs of the alumni association will start with a board of directors meeting at 10 o'clock and the annual general business meet-

QUITS HIGH COURT—William L. Hillier, 80-year-old lawyer, poses in his Washington home after resigning the right to practice before the Supreme Court in protest against what he termed a growing tendency for the court to write its own law. He told a reporter he believes he is the only person to quit the high court bar. (AP Wirephoto)

ing at 3 o'clock. The newly organized O.S.C. Foundation will hold its annual meeting at a dinner given by President A. L. Strand.

Baccalaureate services will be at 11 o'clock Sunday with commencement at 10 o'clock Monday. Both of these events will be broadcast over the state station, KOAC.

Norway, Denmark Ask U.S. Arms for Defense

WASHINGTON, May 20.—(AP)—Norway and Denmark have appealed to the United States for arms and ammunition to bolster their defenses, government officials announce.

The officials reported the administration is giving these requests "sympathetic consideration."

Both countries, the targets of repeated attacks by Radio Moscow recently, have expressed keen interest in American machineguns, rifles, anti-tank and anti-aircraft weapons and ammunition of all kinds.

This is the first disclosure that any member of the Scandinavian block is turning to the American government for military help in the present tense world situation.

Atomic Plant Scientists Facing Loyalty Check

OAK RIDGE, Tenn., May 20.—(AP)—Two Oak Ridge scientists have been suspended from access to restricted atomic information pending clarification of their loyalty status.

(An atomic energy commission official in Washington said the investigation "involves character and associations" as well as the regular loyalty check made of all Atomic Commission employees).

This was disclosed yesterday by an Atomic Energy Commission official who withheld use of his name.

The official said the scientists still were employed in atomic research and that their status had not been changed "except that they no longer have access to restricted data."

House Votes \$4,000 For Victim of Vaccination

WASHINGTON, May 20.—(AP)—An Army doctor's vaccination of Miss Sylvia M. Missetch of Portland, Ore., will cost the government \$4,000 if a House-approved bill becomes law.

Miss Missetch, a civilian employee of the Army, asked for \$7,500. Saying she was unable to use her left leg for a year as a result of an infection which developed from the smallpox vaccination. The House reduced the amount to \$4,000 in sending the bill to the Senate.

Budworm To Be Attacked With DDT

PENDLETON, Ore.—(AP)—Another forest killer is to get a taste of DDT.

Supervisor Carl Ewing announced today that about 5,000 acres of Umatilla National Forest near Heppner will be sprayed this spring to test the killing power of DDT on spruce budworm.

He said a budworm infestation was threatening about 710,000 acres of Eastern Oregon and Eastern Washington fir forests. Not many trees have died yet but the outbreak has reached a "critical stage," he said.

Spraying with airplanes and helicopters will start about June 15.

The experimental area 6,720 acres, will be divided into 15 420-acre plots. Twelve of these will be sprayed and the other three left as checks, Ewing said.

Tussock moth virtually was wiped out in 14,000 acres of forest near Troy, Ore., last year by DDT sprays from planes but its effectiveness against budworm has not been verified fully he said.

The experiment in the Heppner district will attempt to test the lethal powers of various solutions of DDT.

The budworm, a pale green caterpillar less than half an inch long, eats the needle buds of fir, pine and other trees when they begin to swell in the spring. This stops the tree from "breathing." The tree dies if most of its needles are destroyed.

John B. Woods, Jr., assistant state forester, will boss the project. Ewing said. Ground surveys will be made to determine status of the infestation in each plot prior to treatment. A temporary landing field will be built in the area and headquarters will be established June 1 at Tupper Guard Station.

Ewing said cost of the project would be about \$10,000. It should be completed by Aug. 1.

Son Flees with \$6,000, Grandma's Life Savings

CLEVELAND, May 20.—(AP)—Lakewood police were informed today by a worried mother that her 12-year-old son had run away from home with \$6,000. Possibly three other boys are with him, police said.

Mrs. Laverne Boyer of Lakewood said her son, Kenneth, disappeared with the money—his grandfather's life savings—late yesterday. Lt. Robert Corbin reported.

She could offer no reason for his behavior, Corbin said, since there had "been no trouble at home."

Al Fiegel Meets Old Friend Unexpectedly

When Mayor Albert G. Fiegel said farewell to the party of Harold E. Stassen, Republican presidential aspirant, at the Umoqua Hotel Wednesday morning, one of the press correspondents told him, "I know you. You're Al Fiegel. Who am I?"

Fiegel, somewhat taken aback, said, "Wait a minute. Your name is Davies. Lawrence Davies. I knew you at Willamette University in 1920."

Davies, now San Francisco correspondent for the New York Times, was an outstanding athlete at Willamette in his student days, Fiegel recalled. He and Davies had not seen each other since then, but Davies knew one of Fiegel's brothers in San Francisco. He remembered the name, when it was announced here.

Bad-Breath Pupil May Be Whipped, Board Holds

BECKLEY, W. Va., May 20.—(AP)—The Raleigh County Board of Education has upheld a school principal's right to whip children who come to class exhaling the odor of "rams."

The ramp is a particularly powerful branch of the wild onion family, which children hereabouts sometimes nibble on the way to school.

Fred C. Roberts, principal of the Trap Hill High School, testified the smell "could be likened to that of a polecat," and said some of his pupils were made ill by the breaths of offending classmates.

Milk Distributors' Head Quits Over Price Policy

PORTLAND, May 20.—(AP)—J. L. Sinner, Portland milk distributor who resigned the presidency of the Oregon Milk Distributors association, has broken from an association policy opposing a

lower retail price for milk in stores.

Sinner said he had resigned because he has come to agree with the argument of a major chain store that store outlets should be permitted to sell milk one cent below the price for home delivered milk. He explained he wanted to be free to speak as an individual on the milk issue.

Sinner said home delivery costs are higher, because of bottle breakage, credits and door-to-door service, and should be higher.
