

Battleship New York, Vet Of Two Wars, Radioactive, to Be Target for New 'Bat' Bombs

PEARL HARBOR, July 7.—(AP)—The tough old veteran of the United States fleet, the Battleship New York, turns her armor-plated hide today to the Navy's weird new "bat bombs"—the first weapon to be used in her sinking.

The 30,000-ton warship, which emerged unscathed from two wars and survived two atomic blasts at Bikini, has been towed to a point 50 miles south of here to test the strength of Task Force 38.

Rear Adm. Marshall R. Greer, Task Force commander, said the radar-guided "bats" were used against the Japanese late in the war but—by that time—Nippon had no major ships left for targets. He said this evening's assault will be the first use of the "bats" against a ship of the New York's size.

"Bat" attacks also will be launched tomorrow morning. They will be followed by air, surface and underwater arms tests until the 34-year-old vessel is sunk. The New York is still radioactive from the Bikini tests.

The Navy said the "bat" bombs are the first fully automatic guided missiles used in combat. They are regulation 1,000-pound bombs, rigged with glider-like wings and tail. They have a radar directional mechanism which can be fixed on the target by the plane launching the bat. Radar apparatus then guides the bat into the target regardless of evasive action of the target ship.

Some 300 carrier and land-based bombers, dive bombers and torpedo planes will work the New York over with weapons ranging from high velocity rockets to 2,000-pound bombs. But the experts say it will take submarine torpedoes to sink the battleship.

"She will take an awful whipping," said Chief Storekeeper Daniel Connor of Pawtucket, R.I., who served on the New York when she was commissioned in 1914.

Connor is aboard the Carrier Boxer, flagship of the Task Force, to witness the end of "Old Christmas Ship"—a name acquired because of Yuletide parties given for orphans beginning in 1915 when she was in the Brooklyn Navy Yard.

"SUPER-DELUXE" HOTEL
WARSAW, Poland.—(AP)—Poles plan to build a super-deluxe hotel in Warsaw.

Construction is scheduled to start early next year on a 500-room, up-to-date hostelry—twice as big as any ever built in Poland. It will be 14 stories high. Formal opening is slated for early in 1951. Total cost is estimated at about \$1,500,000.

FIRE DRILL—High above Seine River at Paris, firemen show how they help guard the French capital.

Six hundred years before the spoke of an evil that "consumeth the birth of Christ The Book of Job as a garment that is moth eaten."

Financial Trouble Blamed Partly For Actress' Suicide

HOLLYWOOD, July 7.—(AP)—Speculation continued today on what caused screen glamor girl Carole Landis to commit suicide.

Friends and relatives blame an unhappy married life and financial troubles, at least in part. But her fourth husband, W. Horace Schmidlapp, flew in from Chicago yesterday to say he could see no reason for her to take her own life. He claimed she was "all right" financially.

The 29-year-old actress filed suit for divorce against Schmidlapp last March 22, charging extreme mental cruelty.

Actor Rex Harrison, who dined with the actress Sunday and found her body slumped in the bathroom of her home Monday, said she had indicated to him she

was in financial difficulties. Her mother, Mrs. Clara Landis, said "Carole was deep in financial trouble. She had sold her house, her car—but things still piled up. She told me no long ago and with bitterness: 'Marry a rich man and support yourself.'"

Meantime, authorities were attempting to learn where she obtained the sleeping pills which ended her life. Her physician, Dr. Maynard D. Brandma, said he had never prescribed any for her.

Harrison denied there was any romantic interest between himself and the actress. "Carole Landis was not in love with me," he declared.

Funeral arrangements must await results of coroner's tests and inquest plans.

X-RAYS LEAD TO JAIL
LE HAVRE.—(AP)—A doctor has been sent to jail for a year for x-raying patients with a machine that wasn't working.

They became suspicious when they received bills for radiography, but no x-ray photographs. They enlisted the help of another

doctor, who sent his assistant in the guise of a patient. He discovered a broken filament.

In addition to the year in prison the Havre Criminal Court sentenced the first doctor to pay 225,000 francs (about 750 dollars) damages to his duped clients.
