River Test Satisfactory, Swim Class Continues

The South Umpqua River at Roseburg has been tested and from a safety standpoint is holding up very well, according to a report from Ray Brown, swimming instructor at Templin Beach. Since the tests prove the water safe at present, the swimming program will continue until Aug. 15, unless further tests deem it advisable to stop the classes sooner, said Brown. The water condition is holding up better than expected, as the river has frequently been condemned at an earlier date, he reported.

munist, and Victor Perlo. Perlo, a former member of the War Production Board, was named in Washington testimony last week as the leader of one of several espionage groups. The charge was made by Chambers who told the House committee he had served as a courier for the group. Although declining to disclose Koral's connection with the New York phase of the investigation, Nixon said the new witness is "as important a witness as any questioned by the committee."

MONEY SUIT FILED

The Douglas Creditors Association has filed a complaint against E. R. Lacy on two counts. One is to collect on a claim of the Saw Service and Supply Company for saw filing and repair for \$40, and the other to collect on a promissory note for \$250 held by the Douglas County State

Bank of Roseburg. The complaint states both claims were assigned over to the plaintiff prior to this action.

Russians the stuff they wanted. This man no longer is in the government."

McDowell said he is not sure whether the second man still works for the government. Among the sources he mentioned for the uranium sent to the Soviets were the S. W. Shattuck Co. in Denver and the Canadian Radium and Uranium Corp. He drew an affirmation from one and a denial from the other.

"Canada has sent neither uranium nitrate nor uranium oxide or any other uranium compound to Russia," declared a spokesman of the Canadian Trade Department in Ottawa.

But Seward Potter, manager of the Denver firm, said his company has sent shipments of both uranium metals to the Soviet Union five years ago—and that the Army and Navy knew all about it.

Wants Wallace Subpoenaed
Rep. Rankin (D-Miss) said today he will insist that the House Un-American Activities Committee subpoena Henry A. Wallace for testimony regarding "the shipment of atomic materials to Russia."

Rankin said in a statement he also wants the committee to invite Lt. Gen. Leslie Groves, retired, to testify. Wallace, the Progressive Party presidential candidate, is a former secretary of commerce and former wartime head of the board of economic warfare.

Groves was in charge of the atomic bomb project. "The American people," Rankin said, "have a right to know what is going on now relative to the secrets of the atomic bomb and the material with which it is made."

"There is something extremely sinister about this spy ring operating in this country for the purpose of securing the secret of the atomic bomb as well as the materials with which it is made and transmitting them to a potential enemy."

"It would require some pretty high level action."

Diplomatic maneuvering continued in Moscow. It seemed likely the talks American, British and French envoys have had with Soviet officials will continue into next week. Diplomatic observers in London said the western envoys probably will see Prime Minister Stalin again in the next day or two to discuss the possibility of

The informant said that, while it is apparent some progress is being made in the Moscow negotiations, Russia has raised objections to "certain concrete proposals" made to Soviet Foreign Minister Molotov yesterday by representatives of the United States, Britain and France.

the Truman proposals.

It involves authority to fix maximum prices and even control wages as well as power to allocate scarce materials.

Mr. Truman's friends said he probably will accept the housing measure, objecting meanwhile to government-financed low-rent and slum clearance projects as he requested.

If the final version of the GOP anti-inflation bill raises gold reserve requirements for Federal Reserve banks, the president's friends think he will veto it in blistering language.

After sending the housing bill on its way to the president's desk, the House unanimously passed an appropriation bill to finance it.

sistance to high prices.

The announcement was made by Philip Melnick, secretary of the Meat Dealers' Assn. of Southern California, who said he expects more of the smaller shops to shut down. He added the 25 dealers plan to suspend operations for one or two months.

Melnick said an organized telephone campaign among housewives against purchasing meat at present high prices undoubtedly had some effect in the closings.

House Cash Outlay \$600, Most of Material Stolen

CHICAGO, Aug. 7. — (AP)—Arthur A. Havin built himself an eight-room house for about \$600.

Then he told a federal judge how he did it. He pleaded guilty to charges of stealing a little of this and that while he was in charge of the Great Lakes Naval Training Station's reclamation yard. He was a civilian storekeeper there from 1943 to 1947.

Prosecutor Robert C. Eardley said Havin admitted taking 233 different types of materials—including nails, used lumber, hinges, screws, fittings, conduit, tools, electrical equipment, etc. Eardley said Havin's only cash outlay for the house was about \$600 for lumber.

Judge Philip L. Sullivan set Sept. 24 for disposition and released Havin on \$500 bond yesterday.

Dog Leads Searchers To Wire Fence-Trapped Boy

ZANESVILLE, O., Aug. 6. — (AP)—Three-year-old Jerry Lee Huffman, missing all night, was found at 7 A. M. today, trapped in a wire fence, after his collie dog led searchers to the area.

The child was naked and almost unconscious from exposure. His foot was caught in the fence and a wild grapevine was twisted about his neck.

The boy was found at the edge of a cornfield, a mile and a half from his home near Philo, from which he had disappeared between 6 and 7 P. M., yesterday. He had left his clothes in his yard. The dog, Laddie, came home
