

### Regulations To Curb Credit Get Final Touches

WASHINGTON, Aug. 20 (AP)—The Federal Reserve Board yesterday put the finishing touches on new regulations to curtail installment buying. The credit controls will be issued tonight and go into effect in 30 days. They were provided under the Republican antiinflation bill passed by the special session of Congress. The board is expected to require one-third down payments, with a 15-month limit on payment of the balance, on most retail items costing more than \$50. Meantime, the board said approximately 13,500,000 families—or about one out of every four—were "disasters" last year. A "disaster" is a person who spends more than he takes in, the board noted in a report. However it did not manifest any alarm over the trend not to save for a rainy day. It said: "The ability to dissave presumes

a certain degree of financial well being, for to spend more than one's income, a person must either have sufficient income or collateral to be an acceptable risk for credits, or have past savings to draw upon."

### School Dist. 7 Elects Director, Sets Opening

Olalla-Tenmile School District No. 7, elected Virgil Vance to fill the unexpired term of L. D. Lockwood, who resigned as director at the special school meeting Thursday. It was decided to open the school year September 7. The Teacher-Parent Recreation club will hold its first meeting October 1, at which time election of officers will be held. A movie film will be shown at that time. The committee for the meeting will be Mr. and Mrs. Byron Birdwell, Mr. and Mrs. Theodore Peterson and Mr. and Mrs. Charles Hafer. The school board has requested first grade pupils to have their birth certificates and health certificates with them on the opening day of school.

**LODGE OPENS**—Jorgen's Lodge, above, located seven miles south of Roseburg on Highway 99 at Winston (Coos Junction), has been opened for approximately one month and is now operating on full scale, according to the owner, J. R. Jorgensen. The court contains 16 fully furnished modern units, all with garages, accommodating at full capacity, about 25 people.

### States of West Coast Will Gain 14 Congressmen

ABERDEEN, Aug. 20 (AP)—West Coast states will gain at least 14 members in Congress in 1952 as a result of population growth, Representative Russell V. Mack of Hoquiam predicted yesterday. Mack said that Washington and Oregon will add two members of Congress each, with California to add another 10. The three Pacific coast states now have 33 Congressmen. California has 23, Oregon, four, and Washington six. The 1952 apportionment will give California 33, Oregon, six, and Washington, eight, Mack predicted.

The increased number of congressmen, Mack said, will give the three Western States much greater congressional influence and will aid the west in securing additional funds for faster development of electric power and reclamation projects. Mack also predicted that Oregon and Washington will grow at a much faster pace in the decade ahead than in the last 10 years. "Development of additional low cost power on the Columbia river," Mack said, "certainly will bring new power-using industries to make Washington and Oregon continue as the fastest growing region of the nation. "With our natural resources, Washington and Oregon should, in the next 25 years, have combined population of between 8,000,000 and 12,000,000 people."

### Charge Saves Man's Life

DES MOINES, IA., Aug. 19—(AP)—A drunken driving charge probably saved the life of Dale W. Flora, 31.

Flora was arrested and so charged following a minor accident yesterday. A routine blood test at the hospital proved he was not intoxicated.

But when police returned him to municipal court to reduce the charge to one of reckless driving, the hospital called. "Give Flora a candy bar or soft drink before he dies," the officers were advised.

Doctors explained that Flora suffered from an acute lack of sugar in the blood, a condition much like insulin shock sustained by diabetic patients. The symptoms are similar to those of intoxication and the condition frequently is fatal.

### Bids for Alcohol Plant, Springfield, To Be Opened Today

War Assets Administration will open bids today at 3 p. m. on the sale or lease of the alcohol plant at Springfield, reported Congressman Harris Ellsworth, who arrived in Roseburg Wednesday from Washington, D. C.

Assurance that the plant will be put into production, if any of the bids are accepted, is given in the stipulation that the purchaser or lessee must operate the plant. However, he said, if no bids are accepted, the War Assets Administration has given assurance further opportunity will be given to discuss and to re-advertise the property for sale or lease.

Two bidders are known to have submitted offers, he said, but as yet there is no knowledge of their proposals or whether they will be accepted.

The plant must be used for the production of alcohol, or similar products, which would not materially affect the operation of the plant, according to requirements laid down by the Department of Defense. Minor changes could be made, but no major change over would be permissible. The operator would be amply protected if the plant were requisitioned by the government in case of an emergency, said Ellsworth.

Victoria lake in Africa is so large that Massachusetts, Connecticut and Rhode Island, if placed in its center, could not be seen from its shores.

### China Adopts New Gold Standard

NANKING, Aug. 19 (AP)—China today adopted a new gold standard currency and ordered all banks closed for the next two days to permit an orderly conversion.

Government Spokesman Hollington Tong said the currency will be called "gold yuan" and that it will be backed by 100 per cent reserves. He said that it would be convertible to foreign exchange under control.

The official announcement did not disclose rates for which the new currency will be exchanged for the old, inflated paper money. But official sources said the rates would be one gold yuan for 3,000,000 Chinese dollars of the national currency now in use, four gold yuans for each U. S. dollar and two gold yuans for each Chinese silver dollar.

On this basis it was estimated that the government must issue at least half a billion gold yuans to cover the 150 millions in national currency outstanding.

Some factories in Sweden which were moved to caves during the war continue to operate there because expenses for heat and maintenance are small.

### Lutheran Church Has New Pastor

The Rev. Willis Erickson, above, graduate of the Augustana Seminary at Rock Island, Ill., has assumed the pastorate of the Elgarose Lutheran Church about 12 miles west of Roseburg. He announced plans of the congregation for organization of a new Lutheran church in the city. Nucleus of the new church will be the Roseburg circle of the Elgarose church, which is part of the Augustana Synod of the National Lutheran Council. Services will start in October.

The Rev. Mr. Erickson, who has lived most of his life in Michigan and Minnesota, is a graduate of Gustavus Adolphus College at St. Peter, Minn. His father is the Rev. Charles W. Erickson, now at Burnside, Ia. He is living here at 242 N. Rose St.

### Sawmill Workers At Toledo Picket Plant

TOLEDO, Ore., Aug. 19—(AP)—AFL Sawmill Workers picketed the C. D. Johnson Lumber Mill here yesterday, idling one of the largest Western Oregon mills.

Ray Boone, business agent for Local No. 2720 of the AFL Sawmill and Lumber Workers, said the union and management had failed to agree in contract negotiations underway since March. He said the union no longer felt bound by a contract which expired April 1. Wood workers, members of the CIO union, are not involved in the dispute. About 900 men are employed at the mill.

The normal temperature of most birds is between 104 and 108 degrees.

### Avoid Punctures!

If you try to jam your feet into footwear that is too small you'll find that your feet will suffer. But if fire destroys your home and you are under-insured—then the shoe really pinches. Ask this agency to check up on all your insurance.
