

**CIO Attorney Ejected
From Court at Probe**

JACKSON, Mich., Aug. 27.—(AP)—Rep. Clare Hoffman (R-Mich.) yesterday angrily ordered a CIO attorney thrown out of his hearing on strike disorders at the Aeroquip Corp.

Climaxing a sharp, fist-shaking exchange, the congressional investigator ordered out Nicholas Rothe, associate legal counsel of

the CIO United Auto Workers. At Hoffman's command to "Take that man out of here," two state troopers escorted Rothe out of the hearing room. He went peacefully.

The exchange was prompted when Webb Magnor, UAW international representative, jumped to his feet and shouted at a company witness, "It's a lie, just like a lot of this other stuff."

Hoffman rose from his chair, shook his fist at Magnor and said, "You can't do that in here. These days of intimidation are over. You have no course except when you're surrounded by your own gang."

**Supports of Farm
Price May Be Cut,
Washington Hears**

WASHINGTON, Aug. 27.—(AP)—Talk of possible cuts in farm price supports was heard in government circles today. It stemmed from the prospect that the Agriculture Department may have to put up around \$1,500,000,000 to keep prices on 1948 crops

from falling below levels fixed by law.

Any changes would have to be made by Congress, however, and the lawmakers are not due back until January.

Discussion of the price support problem was heard anew at the Agriculture Department where officials are mapping out a 1949 farm production program. Its goal is to get farmers to start cutting back from high wartime levels in some crops—particularly wheat, potatoes, oilseeds, and possibly corn.

A proposal that 8 per cent

less land be planted to wheat already has been announced. But reports from the field indicate that growers plan to ignore the Department's recommendations and plant another big acreage.

The action of Congress in June

in extending the wartime price supports for basic crops another year was said to be influencing the farmers' wheat plans.

Canada is larger than the United States.
