Volunteers For Red Cross Service Asked by Chapter

The week of September 20 has been set aside by the Douglas County Chapter of the American Red Cross to issue a special call for volunteers in all nine of the volunteer services. The drive for workers is headed by Co-chairmen Mrs. E. R. Titcomb and Mrs. Roy Cornwell. Application may be made to Mrs. Titcomb or Mrs. Cornwell, or to Mr. Russell M. Stephens, executive secretary of Douglas County Chapter at his office on the second floor of the Army building.

Through its volunteers the American Red Cross has the obligation and the opportunity to provide many services to the community — to servicemen in camps and stations, to patients in army, navy, and Veterans Administration hospitals, to veterans and their families, to the Red Cross chapter, and to patients in civilian hospitals, homes, and institutions. Secretary Stephens says, "Volunteer Services has the further, special obligation to provide adequate volunteer assistance in disaster relief. To make possible rapid mobilization in an emergency, an adequate number of volunteers must be recruited, enrolled, and trained. This is a vast undertaking as well as a tremendous opportunity for far-reaching and purposeful service."

Volunteer Services provides the following specialized services, conducted by trained volunteers, that have been demonstrated as meeting recognized needs in camps and stations, in federal hospitals, in the chapter, and in civilian hospitals, institutions, and other agencies: Arts and skills service, canteen service, entertainment and instruction service, Gray Lady service, motor service, nurse's aide service, production and supply service, social welfare aide service, staff aide service.

Turkish Navy To Be Bolstered By U. S. Destroyers

WASHINGTON, Sept. 21. — (AP) — The Turkish fleet soon may be bolstered by several modern American destroyers, diplomatic officials said today. Negotiations for the transfer under this country's Greek-Turkish military aid program are in the final stage, they said. The destroyers would add considerable striking power to the generally outdated naval forces, with which Turkey guards the strategic Dardanelles. Last spring the U. S. Navy turned over four modern long range submarines, eight minesweepers, and other support vessels to the Turks. In addition, American aircraft carriers have been ferrying planes and other military equipment to help this key Middle Eastern country guard against any Communist aggression. The reported destroyer deal was disclosed to a reporter as top-level American government officials let it be known they believe military aid to Turkey and Greece may have to be continued for some time to insure Mediterranean stability. Congress appropriated \$225,000,000 last session for military supplies to these two countries but specified the program was to end June 30, 1949.
