Germans Oppose Plan To Break Up Ruhr Cartels

HAMBURG, Germany, Oct. 1 (AP)—Delegates representing 670,000 German metal workers today voted their dissatisfaction with the progress of the program to break up the cartels of the Ruhr steel industry.

Meeting at Lippstadt, the delegates also attacked dismantling of German plans for reparations. They declared themselves opposed to removal of any plant which had peacetime value to the German economy.

Wilhelm Petersen, chairman of the metal workers charged in an interview that decartelization had been stopped by the Allies half-way. He said the union favors socialization of German coal mines, heavy industries and chemical trusts.

Funeral Services Set For A. S. McMahan
Funeral services for Alexander Simpson McMahan, 88, well known resident of Roseburg who died Sept. 29, will be held in the chapel of the Long & Orr Mortuary Saturday at 2 p. m. Dr. L. L. Dunn will officiate. Concluding services and interment will be in Civil Bend Cemetery.

NLRB Testing Its Power Under Taft-Hartley Act

WASHINGTON, Sept. 30 (AP)—The National Labor Relations Board today tested for the first time its new power under the Taft-Hartley Law to umpire scraps between unions.

The board called for arguments on a dispute between two unions for the right to represent ship repair and construction machinists in the San Francisco bay area.

The case is the first of its kind to reach the five-man NLRB itself. Others filed with NLRB regional offices have been settled by negotiation.

The San Francisco bay case was brought by the Moore Dry Dock Co. against Lodge 68 of the International Association of Machinists, an independent union formerly with the AFL.

The company contends it has consistently employed workers affiliated with the East Bay Union of Machinists, a local of the CIO Steelworkers Union.

The Moore Company said that

while it signed closed shop agreements with both the IAM and CIO Steelworkers locals over a period of years, it hired only CIO members and the IAM put up no objection.

Now both unions seek the right to represent Moore's machinists. Both unions have contracts with other shipyard firms in the bay area.

The NLRB can either give jurisdiction to one of the two unions or order an election held to determine which of them Moore's workers prefer.

Whatever the NLRB decides the two unions must accept or become subject to charges of unfair labor practices, a procedure that could lead eventually to a court order to comply.

Culprit Gives Up, Says He's 'Tired of Running'

ELLENSBURG, Wash., Sept. 30.—(AP)—"Tired of running," Ernest McGuire, 30, walked into the Ellensburg Police Station yesterday and gave himself up.

He told officers he is wanted in Richmond and Rathford, Va., for passing more than \$300 in forged checks.

"My conscience is hurting and I'm tired of running," he said. He was booked for investigation.

AFL Parade Protests Non-Union Racketeering

NEW YORK, Sept. 30 (AP)—Thousands of AFL garment workers left their jobs yesterday to parade in protest against alleged racketeering in non-union shops in the industry.

A police detail handled about 25,000 marchers in the garment district who carried placards denouncing mobsters and non-union workers.

The union has called strikes against about 30 of the non-union open shop jobbing firms in the past week.

Boeing Stratocruiser Chalks up Speed Mark

SEATTLE, Sept. 30.—(AP)—The new Boeing stratocruiser airliner,

in tests, has pulled out of a full-power dive at a speed of 498 miles per hour.

The Boeing Airplane Company said this was faster than any other airplane of its size has ever flown.

N. D. Showalter, Boeing assistant chief engineer, said the test was carried out last week, the big ship diving from 21,000 feet to 12,000.

"This was the final test," he said. "In a series of high speed dives, designed to test thoroughly the ability of the airplane to with-

stand speeds and airloads well in excess of any which could be attained even under the most severe of airline operation conditions."

The plane's normal cruising speed is from 300 to 350 miles per hour.

A book of fine aristo-tex Arrived the other day. And such a cloth would make kings drool, And to each other say—"I think I'll buy a dozen suits When I can raise the hay." But with regret I'll send it back. There's no one here who'd pay. The natives here would take one look, And push the book away. For even though a king may drool He doesn't have to weigh Each obligation that he meets, For all he does is play.
