

Cleveland Stages Record Welcome For Baseball Club

CLEVELAND, Oct. 12.—(AP)—Baseball happy Clevelanders staged the biggest and loudest demonstration in the city's history today as the world Champion Indians were welcomed back from Boston.

The entire city let go with a bombardment of music, flowers, cheers and applause as the Indians were driven up historic Euclid Avenue from the terminal in Public Square to University Circle, a 10-mile route.

The avenue was strewn with roses and confetti, early morning traffic was tied in a happy, howling mob of humanity.

Traffic Commissioner John R. Sammon said it was the biggest celebration he could remember. He estimated the crowd that jammed into Public Square at 100,000 and said at least another 50,000 lined the street as the motorcade moved out the Avenue.

WHEN HENRY WAS COURTING EFFIE, HE HAD A LITTLE TROUBLE WITH HIS VISION

Pleas and Science Fail

(NEA Telephoto) Mrs. Walter Cornhauser (kneeling) pleads with her husband to "wake up" after inhalant squad worked unsuccessfully for 30 minutes to revive him. The 62-year-old man suffered a heart attack in the elevator of his Chicago apartment while taking his dog out for a walk.

Manager Lou Boudreau and his wife, Della, and Club President Bill Veeck were seated in the first open car and drew the loudest cheer.

Sport-shirted Veeck gave his flashiest, widest grin as he ducked confetti, candy kisses and flowers.

"It was never like this in Milwaukee," Veeck laughed. "This is terrific."

Boudreau drew the attention of women and bobby soxers. Shouts of "There's Lou!" sprang up all along the line and everybody strained their vocal chords to the limit.

One woman carried a sign: "Boudreau for President and

(Gene) Bearden for Vice-President."

People literally hung out the windows of office buildings and thousands of balloons floated down from many of the taller structures.

One woman ran out and presented Mrs. Boudreau with a bouquet of a dozen American Beauty roses and other spectators showered packages of gifts on the Boudreaus and Veeck as they rode out the Avenue.

Business was at a standstill and school children forgot their studies and classrooms. Parochial school children had the day off in observance of Columbus Day and took full advantage of it.

Public schools were not closed officially but teachers and principals didn't interfere with any pupils who wanted to see the parade.

Leftover cooked veal may be made into a cold loaf for sandwiches. Grind the meat with a little sweet mustard pickle; add salt and pepper to taste and a little melted butter or margarine. Pack the mixture into a small loaf pan that has been lined with waxed paper and chill overnight in the refrigerator.

When the first U. S. census was taken in 1840, only 40 per cent of the total population was found to be literate.

Conservation Plan Checking Sources Of Soil Depletion

Forces that destroy the soil—erosion, depletion, and just plain wearing out—are being met by other forces that are controlling and checking them. More than three million farmers participated in the Agricultural Conservation Program in 1947.

This means that this many farmers each carried out at least one soil or water conservation practice. The farms of these more than three million farmers contain about two-thirds of the nation's farmland. These farms were improved by the conservation carried out. They produced substantially more than two-thirds of the nation's supply of food.

In making this statement, E. Harvey Miller, chairman of the Oregon State PMA Committee, said that few people realize the work that is being done under the AC program. The program operates in every agricultural county in the United States. It has been in operation for 12 years.

Many of the practices carried out in the first years of the program are still doing their part to conserve and protect the nation's soil. Practices we now need to be thinking about in Douglas County to further expand our program are sod waterways and drainage ditches.

Other practices such as application of lime and phosphate, and nitrogen on new seedlings of permanent pastures still are serving to protect the land in the increased growth of grasses and legumes.

The chairman states, "Through their elected committees, farmers backed and supported by the nation as a whole are organized in this fight to protect the soil and water resources of the country. Much has been done but far more remains—the battle is never-ending."

Pep up tomato juice, for a first course, by adding a little chopped onion, parsley, sugar, lemon juice and celery salt; strain after chilling, add salt and freshly ground pepper to taste and serve in small glasses. Pass thin whole wheat crackers with the juice.

Corn Crop Posts New High; Wheat Under '47 Output

WASHINGTON, Oct. 12.—(AP)—The Agriculture Department, in a harvest-time report, yesterday estimated this year's corn crop at 3,567,955,000 bushels, a new record.

This figure is 39,140,000 bushels more than the 3,528,815,000 bushels forecast a month ago. It compares also with last year's very small crop of only 2,400,952,000 bushels and with a ten-year (1937-46) average of 2,813,329,000.

The previous record corn crop was 3,249,950,000 in 1946.

The wheat crop was put at 1,283,770,000 bushels. This is 1,225,000 less than the 1,284,995,000 forecast a month earlier. Last year's crop was 1,364,819,000 bushels, the largest of record. The ten-year average is 942,623,000.

The indicated production of other crops as of Oct. 1, compared with a month ago, last year, and the ten-year average, respectively, included:

Oats 1,492,957,000 bushels Oct. 1; 1,493,407,000 last month; 1,215,970,000 last year and 1,231,814,000 for the ten-year average.

Barley 317,240,000; 317,229,000; 279,182,000 and 298,811,000.

Rye 26,664,000; 26,664,000; 25,977,000 and 27,398,000.

Hay 99,094,000 tons; 98,494,000; 102,500,000 and 97,563,000.

Dry beans, 19,238,000 bags of 100 pounds; 19,411,000; 17,164,000 and 16,617,000.

Dry peas 3,536,000 bags; 3,536,000; 6,513,000 and 5,278,000.

Potatoes 417,355,000 bushels; 408,366,000; 384,407,000 and 392,143,000.

Apples (commercial crop) 96,319,000 bushels; 100,478,000; 113,041,000 and 115,058,000.

Peaches 67,467,000; 69,358,000; 82,603,000 and 66,725,000.

Pears 26,358,000; 26,372,000; 33,213,000 and 30,222,000.

Grapes 2,950,000 tons; 3,015,000; 3,072,000 and 2,701,000.

Cherries 201,000 tons; 201,000; 173,000 and 170,000.

Apricots 205,000 tons; 250,000; 198,000 and 240,000.

The production of milk in September was reported at 9,160,000,000 pounds, compared with 10,537,000,000 in August, 9,259,000,000 in September last year and 8,987,000,000 for the ten-year September average.

Egg production in September was reported at 3,536,000,000, compared with 3,922,000,000 in

LINCOLN TRACTORS

A Garden Tractor You Don't Have to Push.
One You Ride and Watch It Do All the Work.

"POWER-PLUS" SPECIFICATIONS

FUEL CONSUMPTION: Approx. 2 1/2 gallons per normal day.

BEARINGS: Oversize, standard automotive, throughout.

FRAME: One piece, all steel, electric welded.

POWER TAKE OFF: Two shafts front and rear.

DRAWBAR PULL: Exceeds 800 lbs.

BRAKES: Individual rear wheel—operate equally as well in forward or reverse.

TURNING RADIUS: 4 feet.

STEERING: Rack and pinion (center point).

AXLES: Oversized alloy.

LUBRICATION: Motor oil—SAE 20-30, depending on temperature. Transmission and differential SAE 140 gear oil. Alemite where required.

WEIGHT: Approx. 800 lbs.

WIDTH: 40 in. HEIGHT: 42 in. LENGTH: 72 in. WHEELBASE: 40 in.

TIRE SIZES: 7.50" x 16.00" (Rubber) Rear.

4.00" x 12.00" (Rubber) Front.

TRANSMISSION: Standard Shift, three speeds forward and reverse.

SPEED: 0-10 M. P. H.

DIFFERENTIAL: Full automotive type.

DRIVE: Fully enclosed hardened and polished worm, gunmetal bronze worm wheel.

CLUTCH: Fully automatic (foot clutch eliminated).

ENGINE: 6 H. P. heavy duty aircooled.

AIR CLEANER: Heavy duty oil-bath.

● Comfortable Seat

● One-Piece Frame

● Foot Clutch Eliminated

● Shockproof Steering

● Full Floating Drawbar

● Heavy Duty Engine
