

LIKE U. S. COMICS
SHANGHAI (AP)—American comic books are flooding Shanghai. Few bookstores are without them. Their popularity, with children and adults alike, have fostered the rapid growth of the side-

walk vendor. It is generally understood that the comics are paid for abroad by means that have been outlawed today but which are likely to continue because their delivery is made through the post office.

Political Talks Limited By University of Oregon

EUGENE, Ore., Oct. 22 — (AP)—The University of Oregon said yesterday that McArthur court would be barred to all political speakers except presidential or vice-presidential candidates. The university's assembly committee rejected a request from Monroe Sweetland, Newport, Democratic national committee man, to permit a Democratic official to address a general assembly. The committee pointed out that at the opening of the school year it had invited presidential and vice-presidential candidates of all parties to speak at McArthur court. Lesser political speeches, said a university spokesman, can be delivered in city facilities rather than university ones.

MEXICO CITY, Oct. 21 — (AP)—The National Anti-Communist Committee today petitioned the government to expel 22 Soviet citizens it alleged are "fifth columnists." In a report to the Interior Department, the committee said the 22 arrived here during the past month in several groups. It said they have diplomatic passports permitting them to enter Mexico "for scientific study."

City Club Report Blasts Arguments AGAINST LIQUOR-BY-THE-GLASS!

For years the City Club of Portland has been noted for the thoroughness of its studies and the impartiality of its reports on candidates and political measures. A City Club report just submitted on the Oregon Liquor Dispensing Licensing Act (Knox Law Improvement) while making no specific voting recommendation, completely disposes of the arguments most commonly advanced against this measure.

Don't be fooled by the propaganda of the prohibitionists. Here are the facts, as reported by a City Club Committee composed of seven leading citizens, including a minister.

Arguments Against the Bill

1. It would increase drinking, drunkenness and alcoholism in Oregon.

The City Club report says this argument is an "opinion only, unfounded on provable fact."

2. The passage of this bill will lead to the return of wide open drinking throughout the state. A further possibility is the eventual breakdown of the Knox Law and complete revulsion by the public who would then hasten to dry up the state through local option elections.

The City Club report says this argument "is not based on fact. A careful search of the local option laws in the various states fails to show any correlation between the method of dispensing liquor and any trend toward dryness."

3. Liquor will be consumed in public places such as restaurants and hotels which are frequented by women and children.

The City Club report says "this argument is advanced by nearly all the dry forces. Its cogency depends on one's attitude toward drinking in public or semi-public places."

Actually, this argument is downright silly.

There will be plenty of restaurants to which women and children can go without being exposed to drinking in public places.

The argument of drinking by minors also fails to stand up. All provisions of the Knox Law covering this subject will continue in full force. Obviously, licensed establishments, operating in the open won't dare serve minors; the risk is too great.

4. If the bill passes and if the serving of liquor by-the-glass is as profitable as the proponents believe it will be, tremendous political pressure will be exerted on the Oregon Liquor Control Commission for issuing of new licenses.

The City Club report says this argument "depends upon the profits from selling liquor by the glass under this bill, and secondly upon the attitude and integrity of the Commission."

5. The bill is discriminatory because all establishments which would like to serve liquor by the drink will not be licensed.

The City Club report says this argument "is valid only depending upon one's point of view. It discriminates against the beer taverns which cannot be licensed under this bill. However, with 277 restaurants (81 in Portland) and 105 clubs (18 in Portland) being potentially eligible to hold dispensing licenses under this proposed bill, your committee feels that the general public will not be discriminated against."

The City Club report clarifies the entire issue when it says: "The proposed bill would modify the present Knox Law only to the extent that it substitutes the dispenser's bottle for that of the customer's."

Oregon has much to gain and nothing to lose by improving the Knox Law. Why require purchase of a bottle? Legalize liquor by-the-glass.
