Marshall Plan Grants Sans Loan Agreements Halt

WASHINGTON, Oct. 28 — (P) — The Economic Cooperation Administration announced yesterday it will make no new Marshall Plan grants to European countries unless they have signed loan agreements. Only Britain and Iceland now have such agreements.

The action temporarily cuts off new grants, or outright gifts, of recovery aid to France, Italy, Denmark, Norway, Sweden, Belgium, Ireland, the Netherlands and Turkey.

These are the countries eligible for ECA aid on a repayable loan basis, with whom negotiations have been in progress for months.

Exempted from the cut-off order are nations whose economic condition is such that ECA is not requiring them to sign up for

loans. These include Austria, Greece, Trieste and the allied zones of Germany.

The halt in new grants will not stop shipments under grants already made.

The British yesterday signed a loan agreement for \$310,000,000 (M) and Iceland also is exempt from the sweeping ECA decree because she concluded a \$2,300,000 (M) fisheries credit in the summer.

ECA is obliged under the foreign assistance act, to use \$1,000,000,000 of its Marshall Plan appropriation in making loans which are repayable and which will finance specific industrial recovery projects.

While approximately \$2,500,000,000 (B) already has been handed out in grants, the loan program is behind schedule.

The Marshall plan agency described its action as a "move to balance the ratio of loans and grants."
