

MAY THE BEST MAN WIN!

The National Administration has long been promising to solve problems that vex the nation. Yet our situation is now more desperate than ever. The government is in the hands of ineffective men—while the need is for men who get things done.

The National Administration has repeatedly promised to mend its ways in money matters. Yet it has consistently failed to increase its efficiency and cut wasteful spending.

The National Administration has promised to improve labor conditions but has bullied both labor and management with attempts at political control. One day it blasts employers, the next day it tries to draft strikers into the armed forces.

The National Administration has promised to fight inflation, but lost through its own indecision. It hampered reconversion by demanding price control, then calling it a "police state method", then demanding it again.

The National Administration promised to rid itself of Communists, asked for \$25 million to investigate Communism in the government. It failed to get results, then called the Congressional investigation a "red herring."

The National Administration has battled with business, with labor, and with the farmer—has antagonized Congress and the states. As a result, our country is not presenting a united front to the world as it should in these troubled times.

BUT Thomas E. Dewey, as governor of New York State, has cut taxes, built up surpluses, increased state aid to local government, and reduced debts. Dewey gets things done.

BUT Under Dewey's leadership, real teamwork in New York State has brought labor a shorter work week with higher net earnings and the lowest strike record of all industrial states. Dewey gets things done.

BUT In New York State, Governor Dewey effected speedy reconversion and stimulated production by working with business, agriculture and labor, cutting taxes on individuals and on business. Dewey gets things done.

BUT Governor Dewey has a simple formula to protect our government from Communist infiltration. Why spend \$25 million? He says: "I've got a better idea. Don't appoint them in the first place."

BUT Governor Dewey has sounded the keynote of unity. In New York State he has created a team of all elements of the people working together. He knows how to work with legislatures and will get cooperation from Congress. Dewey gets things done.

It's time for less talk and more do... time to elect an effective government under the leadership of a man who gets things done.

*Vote for the best man
and you, too, will
Vote Republican!*
