DAILY DEVOTIONAL (Dr. Charles A. Edwards)

Christmas is just around the corner. Already the stores are displaying color and cheer. Christmas is a time of light—lights on trees, lights in homes and the light of joy in human hearts. No darkness has ever been able to eclipse the Christmas light. It was the light of the Christmas Star that brought the wise men to Bethlehem. There was light in Bethlehem's inn, but it was not the Christmas Light. There was light in Herod's palace, but it was not that light.

If we are to have the Christmas Light in our hearts and homes today, we must really know the Christ child. We may behold the brilliant lights without ever seeing the Christmas light. For Christmas is not just a day on the calendar, it is a divine event. It is God speaking to mankind in one full and final way. What a different outlook will come to us in these restless days if we get what John meant "This was the true light which lighteth every man that cometh into the world." "Yet in thy dark street shineth the everlasting light. The hopes and fears of all the years are met in thee tonight."—Amen.

Table Decorations Augment Cheer Of Christmas Feast

Decorations on the table add much to the atmosphere of the Christmas season. They can be made from many things which are to be found around the house. A good centerpiece is colorful, not too large for the table, and low enough to see over easily. Listed are several suggestions for a centerpiece decoration for the Christmas dinner table:

Low bowl of holly or mistletoe or combination.

Poinsettia plant, cyclamen plant or other flowering plant if not too tall.

Bowl of rose berries and snow-berries.

Bowl or pile of red apples with fringe of evergreen twigs.

Pair of red candles. Candle holders may be made of apples connected by skewers, largest apple on bottom.

Christmas tree colored lights set in insulated holder which is covered by evergreen twigs.

Tiny Christmas tree trimmed or untrimmed.

Figure of Santa Claus wearing red suit in sleigh surrounded by cotton snow.

Vase or pot of wandering Jew vine.

Wherever candles are used as part of the table or house decorations, extreme care should be taken not to place them near dried evergreens, cotton, or other burnable material.

Inexpensive Christmas stickers may be pasted on the top of or sides of food gift glasses or jars, or may be used on the outside of packages as a seal.

An attractive effect is obtained by using white tissue paper over red tissue paper with a border of the red projecting beyond the white across the center top of parcel. Turn in paper evenly at corners and ends of packages.

A single glass of jelly may be placed in the center of a white paper napkin and the middle of each side brought to the center and fastened with a sticker, leaving the four corners projecting jauntily.

Three white paper napkins may be formed into a rosette in similar fashion, one inside the other, the points extending in 12 different directions. The rosette may be used as decoration on top of a

glass or jar wrapped in paper napkins.

A glass may be placed in the center of a square of colored cellophane, the paper may be gathered together and tied at the top, leaving the ends projecting gayly above the point where tied.
