Site for New School Selected at Dillard

It is hoped, said Barneburg, that state or federal resources will be available to relieve the situation by the time additional classrooms are needed.

The board recommended that an option on a building site at Winston be secured as soon as possible with the view toward a future structure there.

Dillard now has an enrollment of 328, which is almost double that of last year. The playshed has been converted into two classrooms to accommodate the load.

There are 60 first graders, 34 second, 41 third, 54 fourth, 31 fifth, 44 sixth and 31 in each of the seventh and eighth grades. Since there are so many students living in the Winston area, a site in that district would probably have been recommended by the board, were it not for the limiting financial factors, Barneburg said.

2. Cancellation of the constitution.

3. Calendar years to be counted from Anno Domini and not from the Republic of China's founding.

4. Elimination of "reactionaries" from the Government and Army.

Senator Taft (R-Ohio)—"I'm opposed to any increase in taxes." Chairman George (D-Ga.) of the Senate Finance Committee—

"It's obvious that if we are to raise \$4,000,000,000 in taxes, about half of that amount will have to come out of corporation levies and about half out of personal income taxes. To get \$2,000,000,000 more in personal income taxes, we will have to go down to incomes of \$6,000 or even less."

Chairman Doughton (D-N.C.) of the tax-originating House Ways and Means Committee—"I hope we won't need to raise taxes as much as the President thinks is necessary."

Rep. Dingell (D-Mich.)—"The President was and is my leader. But if we are going to get anything at all from corporations that are loaded with big profits we won't have to go that low in new personal income taxes."
