Congress Sidelights

By Harris Ellsworth
Congressman, 4th District of Oregon

Some time ago I made mention of the fact that Alger Hiss, indicted by a New York grand jury shortly after the first of this year had not been brought to trial. I further stated that his trial was being postponed time after time and expressed the opinion that he would never be brought to trial unless the public demanded it. Just recently, Attorney General Tom Clark has issued another postponement. This is an outrageous situation. Tom Clark and high administration officials seem to be determined to prevent the trial of Al-

ger Hiss if possible. I believe my own opinion as to why I believe they are afraid to try Hiss and that opinion is not flattering to the present heads of the Executive Department of our government.

The House has been considering routine and minor legislation for the last several days. This constitutes a welcome "breather" after the strain of more than a week of debate on the Labor-Management bill.

One little incident which occurred while a bill was being read for amendment was as revealing as it was interesting. The bill had to do with granting authority to the Commodity Credit Corporation to provide warehouse space for grain. Congressman John Phillips of California offered a simple amendment the force of which was to allow the CCC to loan farmers the money they could build small storage bins for themselves—the loan to be repaid from current crop proceeds. The result would be a saving of many millions of dollars which would otherwise be spent by the government to buy or build warehouses. The further result would be to allow a farmer to have control of his own business rather than to have it controlled by the government. All Republicans voted "or the amendment and so did a few Democrat members. Administration members voted "no."

Jury Frees Priest Of Morals Accusation

GALLATIN, Mo., May 19.—(AP) A 70-year-old Catholic priest, the Rev. Patrick J. Sloan, was acquitted of a charge of sodomy last night. A Circuit Court jury deliberated less than two hours. The complaining witness, Robert Dale Johnson, 16, testified the alleged act occurred in the priest's home at Bethany, Mo., on April 10, 1948. Billy Wheatley, 16, testified he witnessed the act. The priest denied the charge, but admitted the Johnson boy visited the rectory 13 times and stayed overnight twice. A previous trial of the priest on a charge of contributing to the delinquency of a minor ended in a hung jury.

but the amendment was passed on a teller vote. Now here is the revealing part of this story. The opposition to the amendment (administration forces) DID NOT ask for a recorded roll call vote on that amendment. It seemed pretty obvious to me that they were willing and anxious to vote further control over the farmers if they could do it anonymously, but when it came to having their names printed in cold type in the Congressional Record as opposing the idea of a farmer building his own storage bin—that they did not want to do!

In these letters I have endeavored to avoid referring to the intent of the Truman administration as Socialistic. The pattern of legislation sponsored by prominent administration members and the pattern of statements by the President himself are becoming so clear in that direction, that I intend to devote a future letter to that subject.

"THERE'S NO DOUBT ABOUT IT" The EVERSMAN is

TOPS for DIRT MOVING for LAND LEVELING for SEED BED PREPARATION

Only one leveler, the EVERSMAN, has the eccentric (crank) axle—when wheels go on a high place the blade AUTOMATICALLY lowers to gather a load—when wheels go into a low place the blade raises to release enough dirt to fill. Front clod buster and rear smoother blade breaks clods, pulverizes the soil, smooths and packs the surface as the machine moves along, producing a fine seed bed while AUTOMATICALLY LEVELING. Also excellent DIRT MOVER with patented wheel lift which raises and lowers the whole machine and gathers or releases a big load of dirt wherever you wish. After dirt is moved with the EVERSMAN it can be graded down and AUTOMATICALLY LEVELED with the same machine. One inexperienced man driving your present tractor handles this ALL PURPOSE machine. Moves fast on rubber tired wheels. Inexpensive to buy.
