Boost Offset By Anticipated New Revenue

Salaries Upped, Road Needs Heavy; Tax Levy Not To Leap 6 Pct. Limit

Not To Leap 6 Pct. Limit Douglas County's o p e r a t i n g budget for the 1949-50 fiscal year, as fixed by the budget committee, will approximate \$2,000,000, but the amount to be raised by taxa-tion, which is 3369,329.13, has been kept within the six precent limi-tation. However, an additional \$200,000, voted by the people last November for construction of a new county home, will be raised by a special four-mill levy. While the budget will be con-siderably higher than that of last year, because of general salary adjustment, needed expansion in some departments and the urgent need for an extensive road build-ing and repair program, the in-crease has been largely offset by increases in anticipated revenue. Also, the county has tapped for the first time a county road de-partment sinking fund to obtain money for the much needed road building program. From this fund, now totaling \$1,019,372, has been taken \$243,160 to balance the bud-get and still accomplish the re-quired work. The fund, it was explained by County Recorder Roy Agee, has been accumulated during the war years and since, when materials and equipment were unavailable for major im-provements.

when materials and equipment were unavailable for major im-provements. Items Compared The general county fund re-quest is \$733,470,53; the county school request, \$136,860, and coun-ty school library request, \$1,368, 60, making a total of \$871,699,13, compared to a total of \$877,125,-41 last year. Estimated receipts for the coming year total \$753,-580, which includes an expected budget balance of \$400,000, com-pared with estimated receipts last year of only \$592,650. The amount in this fund to be raised by tax-ation is \$115,119,13. The county school request, based upon \$10 per capita school census, last year was paid by the state from income tax funds, and may be paid cgain this year, but information on that item is not definite. If the state again assumes the obligation, the tax levy will be reduced by that amount. The county road fund this year

assumes the obligation, the tax levy will be reduced by that amount. The county road fund this year has been increased from S968.705 to \$1.280.495, but estimated re-ceipts also have been increased from S868.355 to \$1.026,255, leav-ing a balance of \$154,210 in this fund to be raised by tax, Salaries increased A general yearly salary in-crease of \$400, authorized by the
