Russia's Insistence On Return To Four-Power Control Gets Flat 'No'

PARIS, May 26. —(AP)—The three Western Powers Wednesday demanded the political unification of Germany as a condition for German economic unity, French sources reported.

The American, British and French foreign ministers took this position in replying to Soviet Foreign Minister Vishinsky, who Tuesday insisted upon reestablishment of the Four-Power Allied Control Council for Germany. The Council has not functioned since the Russians walked out of it almost a year ago. The Western ministers contend the Council had been greatly hampered by Soviet vetoes.

Why not make one more attempt to reestablish the Council if the Three-Power organization in the Western zones was such a success? Vishinsky asked, according to American sources.

Vishinsky was referring to the statements made by the Western ministers that a return to the status of the Potsdam Declaration now would be disastrous for Germany. The Allied Control Council was set up by the Potsdam Declaration.

The Soviet minister challenged a statement of U. S. Secretary of State Acheson that the new West German state was a Democratic regime. Vishinsky said the suggestion to extend the Bonn constitution to all Germany was an attempt on the part of the Western Powers to take over all Germany.

The Western Powers indicated they were standing firm against a Soviet move to replace the West German state with Four-Power control over all Germany. The American informant said Vishinsky pictured the Soviet government as dissatisfied with Western claims about progress being made in the joined Western zones of Germany.

The Russians are not convinced, he added, that the demilitarization and demilitarization in the West are completed.

"If we are not able to unify Germany, then what shall we do with the Potsdam agreement?" Vishinsky asked. "Why discuss unity? Why are we here?"

American sources commenting on this said it appeared to throw the conference back almost to where it was in London in 1946, because Vishinsky appeared to be demanding just the kind of control the Western Powers have refused to reinstate.

Acheson and Foreign Ministers Schuman of France and Bevin of Britain, in turn, declared the clock must not be turned back to

**HITS THE TRAIL**—Armed to the hilt with his toy pistols, Jack Grant, Jr., 5, started a back-to-the-farm movement, but it didn't work. Visiting Chicago with his mother, Mrs. Edna Williams, Jack decided he didn't like the big city, packed up and headed back to his grandmother's farm. A stranger saw him on a street car five hours later and took him to police. Now Jack's back with his mother—and still in the big city.

## Lewis Warns Of Shutdown July 1 Of Coal Mines

BLUEFIELD, W. Va., May 25. —(AP)—John L. Lewis served warning Wednesday on coal interests which withdrew from bargaining talks here with the United Mine Workers that they face a shutdown July 1.

The notice came about at the opening of negotiations between Lewis and the Southern Coal Producers Association. On the eve of these talks the Virginia and West Virginia Coal Association, two big member groups in the SCA with 18,000,000 tons of annual production, pulled out.

The Lewis warning was aimed at these Associations and other companies which are members of the SPCA but not participating in the negotiating conference.

Most of the coal operators said they did not regard Lewis' remarks as a threat to break up the conference itself.

Lewis said the mine workers "had no alternative but to accept" the Moody invitation "unless we wanted to sustain the pain and let gal sanctions if we did not attend."

The notice of SPCA that the contract terminates June 30, "amounts to a declaration that there will be no contract between the SPCA and the Mine Workers as of June 30," Lewis said.

## Chinese Driver Snoozes During Shanghai Battle

SHANGHAI, May 25. —(AP)—A Chinese driver edged his truck full of oil drums as close to the Garden Bridge over Soochow Creek as he could.

An hour later he still slumbered. The battle went on. Whoever wins will get the bridge—and the truck and oil drums.

## Chairman Lilienthal, Under Fire, Demands Full Probe Of Atomic Energy Commission

WASHINGTON, May 26. —(AP)—Chairman David E. Lilienthal of the Atomic Energy Commission Wednesday demanded a "full, complete and speedy" report on congressional charges that the atomic program "is virtually a failure."

Lilienthal made the request in a letter to Chairman McMahon (D.Conn.) of the Senate House Atomic Energy Committee.

McMahon gave the letter to newsmen and announced that public hearings into the charges will start today.

Lilienthal wrote that he welcomes the investigation, adding: "A full, complete and speedy report on the charges that the United States Atomic Energy Program is virtually a failure is matter urgently necessary."

Senator Hickenlooper (R-Iowa), former chairman of the Joint Committee, has called for Lilienthal's ouster on grounds of "gross" mismanagement and Sen-

ator McCarran (D.Nev.), chairman of the Senate Judiciary Committee, said that he hopes Lilienthal will be asked to step down as chairman because "he is unworthy of the place."

McMahon, in announcing the start of what he predicted would be lengthy hearings, said "the time has come for an overall appraisal of the work of the Commission."

He also announced the appointment of Dr. Ernest Thiele, Whiting, Ind., to trail the reported loss of some uranium-235 from the Argonne National Laboratory, Chicago. Thiele is assistant director of research of the Standard Oil Co. of Indiana.

Lilienthal's letter to McMahon said Hickenlooper's charges of "incredible mismanagement, misplaced emphasis and maladministration." In the AEC "involve nothing less than the security of this nation and the peace of the world."
