

HISTORIC CANYONVILLE CHURCH—The Methodist Church at Canyonville, almost 90 years old, is said to be second to the Jacksonville church in age of edifices relatively unaltered in structure and appearance since erection, according to the Rev. H. E. Taylor, pastor. The church has received a \$3,000 gift from Mrs. Charles Barnhardt, daughter of the late Mr. and Mrs. Parsley, who helped build the church around 1860, to be used to repair and beautify the structure as a memorial to her parents. The bell of this church, not visible here, was hung in the tower around 1865. (Picture by Paul Jenkins.)

Commencement Program Held At Camas Valley

Thursday evening, June 21, commencement exercises were held at the Camas Valley school. Those graduating from the High School were Janet Munch, Doris Wakefield, Betty Diedrich, Dorine Thrush, Pearl Edwards, Jean Dick, Doyle Ellis, Dick Diedrich, Wayne Wheeler and Arthur Papp. The eighth grade graduation class included Diane Perry, Mary Lou Matthews, Luella Stinnett, Judy Counts, Irvin Thrush, Rosalind Balvill, Joan Burke, Delores Parret, Shirley Harmsen, Robert Grant, Ova Water, Thomas Fisher, Donald Parret, Nora Robbins, Faye Shepherd and Rachel Thrush.

The program consisted of: Processional, Mrs. Elmer Boyer; invocation, G. R. Moore; salutory, Wayne Wheeler; "All Through The Night" girls' quartet; class will, Judy Counts; "Serenade" girls' chorus; valedictory, Dorine Thrush; piano solo, Mrs. Elmer Boyer; poem, "If," Nora Mae Robbins; "The Rose Of Tralee," Norma White; class address, Robert G. Davis; presentation of diplomas, D. K. Duhamel; presentation of award, G. R. Moore; song, "Of A Perfect Day," Mrs. Dorothy Meek; benediction, G. R. Moore; recessional, Mrs. Elmer Boyer.

PLANE OF TOMORROW—Consolidated Vultee built this jet-powered Air Force research plane to prove the design superiority of the triangle-shaped Delta wing over conventional sweptback wing styles. Designated the Model 7002, it is being tested at Muroc Air Force Base. Engineers say that the triangular wing offers less drag and therefore gives better performance in the transonic and supersonic speed ranges. The plane has "elevons" at the wings' trailing edge for aileron and elevator action. Directional control and stability are achieved by a vertical stabilizer and rudder, also of triangular shape. Father Suspected In Child's Disappearance

GRANT'S PASS, June 9.—(P)—Disappearance Monday from City Park here of a 6-year-old girl, Freda Buck Brock, caused local authorities and an FBI operative to investigate a wide spread search. The child disappeared while her stepfather and mother, Mrs. Volney Brock, were in a dressing room after a swim. Witnesses said they saw the girl led from the park by a young man who drove away in a black Ford sedan. Chief of Police Carl Dallas said he is checking the possibility that the child may have been taken by its father, L. D. Buck, Ardmore, Okla. He quoted Mrs. Brock as saying she removed Freda from Oklahoma on the advice of her

attorney and has had no official notice as to who was awarded custody of the child when the parents were divorced.

Diamond Lake Highway From K-Falls Opened

KLAMATH FALLS, June 9.—(P)—The State Highway Department officially opened the Diamond Lake Highway Tuesday, following a lengthy winter closure due to deep snow. The road extends from a junction with U. S. 97 to Diamond Lake. The west road from the Rogue River Valley is also open. Fishing season opens at the lake June 15. Summer homes at the lake are still blocked by snow. Animal hoofs, whether one-toed as in the horse, two-toed as in cows, pigs and sheep, or four-toed as in the hippopotamus, are modifications of a five-toed arrangement.

Taft Accuses Democrats Of Playing Politics In Trying To Repeal T-H Labor Law

WASHINGTON, June 9.—(P) Senator Taft (R-Ohio) Wednesday accused Democrats on the Senate Labor Committee of playing politics in the handling of the Truman administration's bill to repeal the Taft-Hartley law. The Ohio Senator told the Senate the bill and proposed amendments "should be considered on their merits and not on the basis of politics." Taft expressed his views as the Senate resumed debate on the administration measure. He advocated instead his substitute bill, which would make more than a score of changes in the T-H law but retain its basic provisions. Taft's speech was a reply to Senator Elbert D. Thomas (D-Utah), chairman of the Labor Committee and sponsor of the administration bill to replace the present law with a slightly modified version of the old Wagner Act. In opening the labor law debate Monday, Thomas said the people decided at last fall's election that the T-H law was a "mistake" and that it should be repealed. He also reminded the Senate's Democrats that repeal was a "central" plank of the party's campaign platform. In his reply, Taft said Thomas has "stated frankly" that the move to repeal the T-H law "is based primarily on politics." Taft added: "That certainly has been the approach of the (Democratic) majority of the (Labor) Committee." He said that Thomas had argued that because President Truman called for repeal of the Taft-Hartley law in the campaign, "there is a mandate on Congress to repeal it." Challenging that, Taft said: "There may be a mandate on the President to request repeal, but there certainly is no mandate on Congress."

\$6 Million Voted For Buildings At Oregon Colleges

SALEM, June 8.—(P)—Oregon college building held a \$6,000,000 allocation today under a revised construction program approved by the State Emergency Board and the State Board of Control. The allocation late yesterday followed recommendations of the State Board of Higher Education. Biggest ultimate project is a teaching hospital at the University of Oregon Medical School. It will cost \$7,000,000. However, the immediate program calls only for \$1,500,000. The rest of the money will come in part from scientific and educational foundations. Other buildings and the amounts allocated: Science building at the University of Oregon, \$1,500,000. Animal science and dairy manufacturing building at Oregon State College, \$1,100,000. Food industries building at Oregon State College, \$1,000,000. Library and classroom building at Southern Oregon College of Education, \$360,000. Library and museum building at Eastern Oregon College of Education, \$260,000. Library at Oregon College of Education, \$280,000. The vote was 8 to 2. In opposition were State Treasurer Walter Pearson and Rep. Rudie Wilhelm, both of Portland, who said the Legislature set aside \$6,000,000 with the understanding that the Hospital would get \$2,500,000. They wanted the food industries building at OSC eliminated. However, Board of Higher Education members said the smaller sum would be enough for the Hospital as a starter, with reliance on getting aid from various foundations. The two boards also approved the Board of Control's earlier decision on building a replacement hospital at Fairview Home for the feeble-minded. Allocated was \$78,649 toward the \$256,057 structure to take the place of one which burned recently.

Service Station, Home, Cars Eaten By Flames

EVERETT, Wash., June 9.—(P) Fire at noon Wednesday destroyed the V. M. Conway service station and residence at the south city limits. The loss, including four automobiles in the shop for repairs, was estimated at between \$20,000 and \$30,000. The fire is believed to have started by a spark from a welding torch which ignited gasoline.

BODY SHIPPED HOME

Ed Mickel, owner of the Equipment Service Co. in Glendale, and his wife spent several days in Seattle recently when the body of their son, Donald, killed in the South Seas during the latter part of the war, was shipped home for burial. The Mickels also visited their son, Dick, and daughter, Mrs. "Bud" Beckett and her family in Seattle. They were accompanied to Seattle by Mrs. Jim Doyle, whose husband is manager of the United Petroleum Station at Glendale.

Greek geographers divided their known world into two portions, Europe and Asia and the parts of Africa known to them were designated as a part of Asia.

Professional Office Building Glendale Plan

Micheal and Rose, contractors, have purchased the property between the Glendale Variety Store and the Glendale Radio Shop from Mrs. Vera Kemp for the purpose of putting up a professional office building at Glendale. Micheal and Rose, who erected the addition to the Glendale Variety Store and put in the new restrooms at the United Petroleum station nearby, are members of the Chamber of Commerce and in sympathy with the drive to procure essential professional services for the large area of which Glendale is the shopping center. Construction will start as soon as definite arrangements can be made with a doctor, dentist, and lawyer or other professional men to rent space. Parking space will be provided behind the building. Asphalt is found in lakes or in rock-like outcroppings and is also made-in the process of refining petroleum.
