

LOGGING OPERATIONS INSPECTED—High officials of the Associated Plywood Mills, Inc., are pictured at top, inspecting logging operations in the Little River area. They are, left to right, John Gragg, general manager; Leonard Nystrom, president; M. E. Batchelor, treasurer; H. G. Champeaux, logging manager; Orval Reese, camp superintendent, and Roy Hall, mill foreman, Eugene. Next picture shows visitors during inspection tour last Friday, as they viewed logging operations and loading of trucks on Wolf Creek drainage as pictured in third view. Picture below shows yarder and loader at spar pole at Nigger Creek drainage on Little River operations. (Picture by Photo Lab)

IDEAL CONCRETE . . .

Extends its hearty congratulations to the Associated Plywood Mills, Inc. on the completion of their new, modern saw-mill.

It has been our pleasure to furnish our product in the construction of this modern plant. Your confidence in our product has been very gratifying.

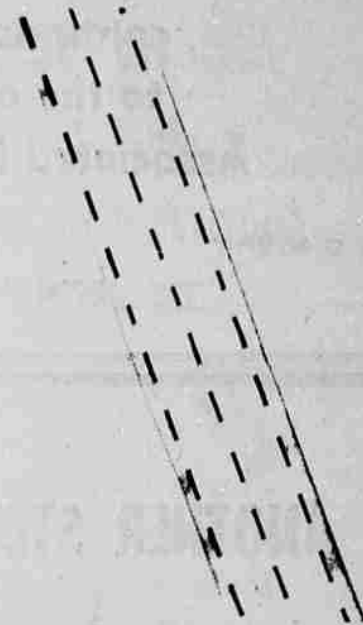

We are happy to join in extending best wishes for the future to a valued and friendly customer.
