O. M. KENT SHELL OIL CO., INC.
 ROSEBURG, OREGON

ANOTHER STEP FORWARD

The Associated Plywood Mills, Inc., deserves the compliments of the industry and the community for its foresight and progressive attitude in building their new lumber plant here in the timber capital of the nation.

This is an example of forward-looking industry that has made our country the leader in production of high-quality, low-cost goods.

We at Umpqua Plywood Corporation heartily join in extending best wishes for a long and successful future.

WOOD OPERATIONS SHOWN—Top picture, on "cat logging" shows, Associated Plywood uses Allis-Chalmers HD-19 tractor to yard logs after they are cut in the forest, top picture. Next view shows truck loading at spar pole site on Nigger Creek drainage in Little River area. The red fire engine stationed near logging operations is used for protection against possible forest fires. Little River camp superintendent, Orval Reese, and the logging manager of company, H. C. Champeaux of Eugene, are in picture. Below: Associated Plywood Mills, Inc., purchased this 3 for 8 Symons crusher (with Cedar Rapids feeder and 42-inch by 10-foot horizontal vibrating screen) to rock foundation of mill site at Green. Ten thousand cubic yards of rock were used.
