

FINAL STEPS—With trimming and sanding, the plyboards are ready to be shipped from the plant. These pictures show: (9) Operation of panel trim saws, and (10) sanding machines. These scenes are typical of the operations of the Associated Plywood Mills, Inc., at its plants in Eugene and Willamina.

We cordially join in extending our best wishes and congratulations to Associated Plywood Mills, Inc., new lumber plant. This Roseburg operation is another link in a chain of successful enterprises that are building for the future.
