BRITISH BOLSTER HONGKONG FORCES—British troops disembark from the troopship Empire Haliadale to bolster land forces in Hongkong. Most of the troops were of the First Battalion, Royal Leicestershire Regiment. The colony is busily building defenses against possible invasion of Chinese Communists.

KRNR DIAL-LOG

A penny postcard can give you and your mother-in-law a ten day vacation. It's all embodied in the new "Mother-in-Law-Queen" accolade that the "Queen for a Day" program will inaugurate starting with its Monday, June 27, broadcast. Your mother-in-law goes to Hollywood. You, who nominate her by post-card, stay home. A vacation for both. "Queen" producers have decided that a ten-day holiday in Hollywood, San Diego, Tijuana, Mexico, Catalina Islands and San Francisco, complete with hotel accommodations, sightseeing and transportation, would be desirable to all concerned. A wardrobe valued at one thousand dollars and a new automobile will also be presented to the fortunate mother-in-law, to make her holiday a completely enjoyable one. Jack Bailey will select one possible winner from the royal chest on each broadcast beginning Monday, June 27, and will follow this procedure through Thursday, July 28. Then, on Friday, July 29, the "Mother-in-Law-Queen" herself will be chosen.

Program notes for tonight: Miss Mildren Christiansen, a radio attendant to the Queen in Roseburg's recent radio celebration, and Jody De Marsh will divulge marriage plans, courtship happenings and miscellaneous anecdotes on a personal interview for tonight's "Here Comes the Bride" program at 7:30. At 8, the "Hopalong Cassidy" series makes its debut over KRNR. Bill "Hopalong" Boyd, by the way, is the most popular personality in show business these days. He receives hundreds of requests a month to attend various public functions.

Timely sportsman's tips, fun with the experts, and valuable prizes feature tonight's "Fishing and Hunting Club of the Air" broadcast at 8:30. By all means catch tonight's 9:30 broadcast—originating from the Shalimar Room—featuring Roseburg's most popular musical ensemble—The Gene Meigs Trio—in an all-too-short fifteen minute session. Fulton Lewis, Jr. brings you the latest Washington scoops at 9:45... and there's mystery on "The Adventures of the Falcon" at 10.

Defense Counsel In James Trial Held In Contempt

SEATTLE, June 23.—(AP)—The defense attorney in the trial of Mrs. Florence Bean James was adjudged guilty of contempt of court by Superior Judge Donald A. McDonald in a heated session here Wednesday. The judge said he would impose the penalty after the James trial is over.

The action came as John Caughlan attempted to hang political motives on the Legislature's Un-American Activities Committee which held Mrs. James in contempt when she refused to state whether she had been a member of the Communist Party.

Caughlan was quizzing former Rep. Sydney A. Stevens, a member of the Legislative Committee, on motives of the group in an attempt to prove that Mrs. James had been discriminated against.

"Don't you know I've ruled on this?" the judge asked sharply. "I gave you warning repeatedly."

"That's deliberately prejudicial to myself and my client," Caughlan replied hotly.

At this point the judge dismissed the jury and lowered the boom by judging the attorney in contempt of court.

Britain Buys U. S.-Canned Salmon With ECA Funds

ASTORIA, June 23.—(AP)—The British government has bought 35,000 cases of canned salmon from three Astoria firms—considerably aiding the packers in clearing out their 1943 stock.

The shipment, bought with ECA funds, is the largest canned fish shipment out of the Columbia River since 1939.

The sale was made by Columbia River Packers Association, Union Fishermen's Cooperative Packing Company, and Point Adams Packing Company.

Dead, Missing In Typhoon Mount To Large Total

TOKYO, June 23.—(AP)—The welfare ministry today counted 137 dead and 1,086 missing in the furious typhoon that swept Southern Japan.

Figures differed on the death toll, however. Police said 93 perished.

Property and shipping damage soared into the millions of dollars.

Included in the missing were 131 Japanese who may have perished when the vessel Aboa Maru foundered off the Southern Honshu coast. An American and one Japanese were rescued from the ship. The others were feared lost in the turbulent seas and high winds.

Most of the missing are fishermen in the Bungo strait between Kyushu and Shikoku, both large southern islands.

The Japanese Marine Safety Board listed 161 fishing boats sunk and 678 wooden fishing boats missing.

Reports to the welfare ministry indicated approximately 2,000 homes were destroyed and 4,000 damaged severely by winds that reached 93 miles an hour.

No American have been reported injured in the typhoon which swept near the big American base on Okinawa Island.

Modern Man Will Destroy Himself Unless He Returns To Spiritual Ways, Student Of Modern Life Says

By HAL BOYLE

NEW YORK.—(AP)—Tired of eating the same old things? Want a new flavor thrill?

Then why not try some tasty marrow from a woolly mammoth aged for 10,000 years in nature's northern icebox? You'll never forget it.

Charles R. Knight has remembered the sensation for 25 years. He is an artist famous for his pioneering paintings of prehistoric life.

"About a quarter of a century ago the American Museum of Natural History got some bones and flesh from a woolly mammoth, trapped in the Alaskan ice perhaps 10,000 years before," he recalled.

"We were curious as to what it would taste like, so we tried some of the marrow. It tasted exactly like rancid grease."

Nobody asked for a second helping, Knight feels he was luckier than some Russian scientists who dined on the flesh of another woolly mammoth caught long ago in the Siberian deep freeze.

"They got awfully sick," he said.

All the world's a graveyard to this 74-year-old artist, who perhaps as much as any one man has helped the past come alive. Since 1894 he has specialized in painting prehistoric men and animals, and he was the first to do so scientifically—based on reconstructed fossils.

His large-scale murals hang in a dozen well-known natural history museums across the country, and his work was collected by such nature lovers as the late J. P. Morgan, Governor Pinchot of Pennsylvania, and Historian Charles A. Beard. His fifth book, "Prehistoric Man," soon will be published.

Cro-Magnon Our Equal

His 55-year study of the earth as it was in the days of the dinosaurs has convinced him modern man doesn't have too much to brag about.

"Ancestral man has existed for perhaps a million years," said Knight, "but he didn't assume his present manlike shape until the Cro-Magnon man of Europe, some 30,000 years ago."

"And the Cro-Magnon was just as good a man as we are, mentally and physically. The Cro-Magnons averaged 5 feet 9 inches tall, but some were 6 feet 3 or 4 inches."

"You could bring a Cro-Magnon man to New York City today and after you had shown him a few wonders, he'd be able to get along all right."

'Wholesale' Firecracker Sale Plea Is Failure

PORTLAND, June 23.—(AP)—Emery Bock, 45, sold two packages of firecrackers illegally on June 14, a Circuit Court jury decided Wednesday.

District Judge Frank Day decided Bock could continue to operate his fireworks stand, now that sales are legal, and will come in for sentencing after July 4. Retail sales became legal Monday.

Bock at his trial said his sales were at wholesale—which is legal at any time. He added that he was being "framed."

Any tire is a safer tire with a **LIFEGUARD SAFETY TUBE**

Here is Why...

1. Ordinary tubes have but one air chamber. When tire blows, tube blows too.
2. Instantly both tire and tube go flat, frequently throwing car out of control.
3. The Life-Guard Tube has two air chambers. In case of a blowout, only the outer chamber gives way.
4. Reserve of air in the strong cord fabric inner chamber supports the car long enough for a safe gradual stop.

COME IN AND SEE OUR LIFEGUARD DEMONSTRATION. LEARN HOW...

GOOD YEAR Makes Blowouts Harmless with **LIFEGUARD SAFETY TUBES**

LifeGuard Safety Tubes may someday save your life... they'll certainly save you money. For LifeGuards will outwear as many as three sets of tires... with every tire mile safe from blowout dangers. You can't get better protection to save your life.

Terms as low as **125** a week
