

Reported Manifestations Of Evil Spirit In Home Being Investigated

LIVELY GROVE, Ill., June 29. —(AP)— Reports of a spirit with a temper are being investigated by a parish priest with the consent of his bishop.

Tony Greten and his wife, parents of ten children, reported a "spirit" has made itself known at their farm home near this village nearly every night since May 1.

The investigation is being made by the Rev. Edward Dahmus, pastor of the Catholic Church at nearby St. Libory, who said he personally has "seen and heard unusual occurrences" at the Greten home. The priest declined to describe what he has observed.

For Sunday morning breakfast serve an omelet filled with creamed chipped beef. Sprinkle the omelet with a little grated yellow cheese, if you like, and garnish with a parsley sprig. A delicious hot bread accompaniment for this main dish would be muffins and marmalade.

Dry mustard and celery salt, as well as salt and freshly ground pepper, are excellent seasonings for stuffed eggs. After mashing the yolks with these seasonings, moisten with a little mayonnaise. These eggs are good served with salad greens and sliced tomato, as a first course.

spirit." Greten said, "we laid down a pencil and a piece of paper and asked in writing, 'what do you want?'—the pencil just flew across the room.

"We got out pen and ink," Greten continued. "The bottle of ink moved over the floor and spilled on the rug. Father Dahmus told us to try an indelible pencil. That night the pencil wrote out the word 'mass.'"

"Father Dahmus then wrote, 'are you a good or evil spirit?' The pencil was hurled at him. Then he said it must be an evil spirit."

Greten expressed belief there is some connection between the "spirit" and his son, Jerome, 11. The nighttime manifestations never begin until the boy goes to bed, Greten said.

At Belleville, a secretary to

Bishop Albert R. Zuroweste of the Southern Illinois Diocese of the Catholic Church confirmed that Father Dahmus has made an incomplete report on his findings to the bishop.

"We haven't had time to evaluate the facts," the secretary said. "We haven't made up our minds about anything as to its credibility. Of course there's always a chance that it may have been a prank."

Experimental Fishing In Alaska Planned By U. S.

ASTORIA, June 29. —(AP)— Experimental fishing by the federal government in Alaskan waters will get underway shortly, continuing a study started last year.

Word received here from the Fish and Wildlife service said the plan is to locate new fishing areas to sustain commercial operations. One of the objectives is to locate king crabs and devise a means of making profitable catches.

Initial dragging for fish will be in the vicinity of St. Mathews Island, with the major work planned for the waters between St. Lawrence Island and Nome.

"DRIVE-IN" SERVICE RISING SUN, Ind. —(AP)— The Rising Sun Baptist Church collapsed in April while being repaired. So the congregation arranged for drive-in services each Sunday evening during the summer in the town park.

The first service was attended by about 200 persons who sat in their parked cars while the Rev. Louis L. Day conducted services with a refreshment stand as a pulpit.

"Now we are all in church," he told his parishioners. "Let us respect it as if we were in one of the world's most costly cathedrals."

"Let there be no smoking for the next hour and if you have a chew of tobacco in your mouth please park it on a stump somewhere. Nothing will disturb it, not even a billy goat. After the service is over you can go back and get it."

A small white turnip, peeled and diced, gives a tangy flavor to an ordinary vegetable soup. Add a bouquet of herbs to the soup, too; you can make it by tying a bay leaf, a celery top, a sprig of parsley, and one of thyme together. Remove the "bouquet" before serving.

For folks who have been eyeing the new \$20 bills with a dubious squint, the bankers say there's nothing to worry about. The new bills have Pres. Truman's new balcony added to the White House, the shrubbery is a little higher, four chimneys replace the two old ones and the flag now hangs at an angle. Apart from that they're as good as gold . . . or, well, anyway they're all right. So you have nothing to worry about if you get a double saw-buck that brings the Washington scenery up to date. The only worry now is how to get a wallet full. And that's not new.
