Shanghai Air Strafing Kills Two, Injures 100

SHANGHAI, June 29.—(AP)—Low flying Nationalist bombers blasted the crowded Chapel district of Shanghai today, killing at least two persons and injuring upwards of 100.

the injured out of blasted buildings hours after the planes completed their mission.

Machine guns blasted away at the leisurely flying bombers but had no effect. Reports of the number of raiders varied from two to six planes.

Chapel is a densely populated Chinese residential section.

New Steel-Hulled Towboat For Shallow Water Service Is Launched At Reedsport

By S. S. SMILEY
News-Review Correspondent
Launching Sunday afternoon of the Umpqua No. 3, steel-hulled towboat, from the Umpqua River Navigation Co.'s boatshop in Reedsport drew an interested crowd of spectators. The traditional bottle of champagne was broken across the bow of the new craft before it left the ways, by Miss Lois Ann Leach, daughter of Captain G. M. Leach of the Westport.

Miss Leach will be a senior in the Reedsport High School next year. Greatly thrilled at the honor of being asked to sponsor the launching of the new towboat, she was still further thrilled immediately following the launching, when O. H. Hinsdale, manager of the Company, presented her with a beautiful new wrist watch.

Aboard the boat when she was launched were Capt. Willis Koogler, former deckhand on the Tiger, who will now have charge of the Umpqua; his brother, Kenneth Koogler, who will serve as his deckhand; and C. H. Bennett, who had charge of installing the motor in the new craft. Bennett has long been interested in the use of steel hulls

for this type of boat and finally persuaded Mr. Hinsdale to have one built when he needed a replacement for the Adel, lost in an accident on the Umpqua River last spring during a freshet. The boat, entirely of welded steel plates, even to the pilot-house and engine room, was built at Hood River, Ore., in a shop specializing in such work, and shipped here by truck. The cat-errillar marine diesel motor was installed here.

The boat is 32 feet long, shallow draft and exceptionally wide beam. Her bow is reinforced with a piece of corrugated metal to prevent damage when striking logs. She has large fuel tanks, located so that the trim and draft of the boat can be adjusted by this method.

As soon as a few minor adjustments are made, the boat will be taken up-river for use in spotting boom-sticks and log rafts. Heavy rubber matting has been used to cover the decks.

The original Umpqua was a steam-powered craft, used for both freight and passenger work on the Umpqua and Smith Rivers, where water craft was the only means of transportation be-

POSTWAR PRODUCTION PEAKS

PRODUCTIVE HEIGHTS—Everybody thought that as soon as the war was over U. S. production would reach unprecedented heights. But it just didn't work out that way. This newschart shows when the postwar production peak of homes, automobiles, household appliances and steel was reached. Extremely heavy production of household items has substantially increased the U. S. standard of living, but production of homes and autos is lagging and has not come up to wartime predictions. Surpassing even their war mark, shipments of steel rose to record heights. The comparatively late peaks for cars and steel are the result of widespread strikes and shortages in those industries in 1948. (Data from the American Iron and Steel Institute.)

fore roads were constructed. The Umpqua No. 2 was a diesel-powered craft, used originally for fishing off this section of the Coast, and later taken to the Hawaiian Islands and used as a freight boat there.

The percentage of family income spent on meat ranges from 5.3 to 6.6.

The word "Bible" derives from Byblos, the name of a city which exported papyrus in ancient times.

Vancouver Area Combed In Reported Plane Crash

PORTLAND, June 29.—(AP)—An unverified report of an airplane crash started a search near Vancouver, Wash., today.

In flames crash 15 to 20 miles northeast of the city. He also reported that the pilot parachuted to earth. Officials said they had no reports of a missing plane.
