

# Prevent FOREST FIRE!

The weekend is just ahead, we hope everyone enjoys their picnic, their outing, their fishing trip. We know you will want to return next year. So do this: invest a little time and a little effort to be **ABSOLUTELY CERTAIN** your campfire is **OUT**—that you have not dropped cigarette butts where a fanning breeze may spread that enemy of every one of us—**FIRE!**

## KEEP OREGON GREEN

- 1—Never toss away a burning cigarette.
- 2—Never leave a campfire without knowing not a spark remains.
- 3—Only one match, carelessly tossed away, may result in the destruction of thousands of acres of growing trees.
