Four Plans For Government Reorganization OK'd

WASHINGTON, July 15.—(AP)—The Senate expenditures committee yesterday in effect approved four of President Truman's plans for reorganizing government agencies.

- 1. Strengthening the top management of the post office department.
- 2. Transferring the National Security Council and the National Resources Board to the executive office of the President.
- 3. Making the chairman of the Civil Service Commission responsible for the operation of the civil service programs, within regulations made by the commission.
- 4. Revamping the operating activities of the Maritime Commission by vesting executive authority in the chairman.

The plans will go into effect August 19 unless the Senate or House votes disapproval before then.

Proposed Loan To Spain Opposed By Truman

WASHINGTON, July 15.—(AP)—President Truman said today he is opposed to a \$50,000,000 loan to Spain.

He was asked at a news conference what the thought of a provision in the ECA appropriation bill allowing \$50,000,000 to be used as a loan to Spain. The provision was put in by the Senate Appropriations Committee.

Mr. Truman said he was not in favor of this amendment, but he would not go so far as to say he would veto a bill carrying such a provision.

Mr. Truman made it plain he feels that if Spain is to come into the Marshall Plan it should be by invitation of the other European countries.

Here's a lucky girl—she has a place to spread out her books and papers and go to work. She must have one of the children's metal table and chair sets like those at JOSSE'S. They are made of welded structural steel by Durham, manufacturers of grown-ups' card table sets. The steel is enameled in a soft grey, and the removable table tops are covered with plastic leatherette in red or green, with chair seats to match. The two chairs are big enough for children up to fourteen years, and have rubber guards on the front legs to prevent marring your floors. The folding table legs have metal glides. So seldom do you find children's furniture of adequate size or sturdy construction. We were so enthusiastic about these that we bought a set (table and two chairs). Now Sis has a place to draw or play tea-party, and a study table for later years, too.

Beat the heat with icy drinks in Perma Hue tumblers from LESTER'S GIFT SHOP. Made of colored aluminum—the color is in the metal and won't chip or fade—they keep your drinks ice cold to the last sip. They are unbreakable, lightweight, and won't dent easily. Tall ones (14-oz.) in sets of 6 or squatties (6-oz.) in sets of 8 are packed in boxes of assorted colors—the rich wines or subtle greys of your other modern furnishings. Read about them in House Beautiful and other home magazines.

Another heat-beater—get out of town! Plan to spend your vacation in the air-conditioned out-of-doors, the cool fastnesses of the Cascade range. J. V. SPORTING GOODS has the camping equipment you need—tents, sleeping bags, Coleman stoves and lanterns, water canteens. Take along a "Sportsman" aluminum camp cooking kit, by Dura Wear. It contains deep and shallow skillets with removable handles for frying or stewing, a coffee pot, cups, and plates, all packed inside a kettle with lid and bail-type handle. You'll need a camp ice box, too, to keep supplies fresh. This one uses either ice or dry ice, to store food safely. Here's a tip for frying the trout you'll be catching—salt them, dip in corn meal, and fry quickly in hot bacon fat. Larger trout should be browned in hot fat and then cooked slowly.
