REFORESTATION BEGUN

Tillamook Burn Reforestation Launches State's 15-Year, \$10 Million Timber Plan

The money was voted by the people last November to start the most ambitious reforestation program in the country.

About 300,000 acres of that land is in the Tillamook burn, which was ravaged by fire in 1933, 1939 and 1945.

The other 450,000 acres are burnt-over and cut-over lands in other sections of the state.

Vatican Edict Battled By Red Leaders

Catholics, Communists Can Toil Together, Cry In Italy And France

(By the Associated Press) Communist leaders in Italy and France are attempting to persuade their followers that communism and Catholicism can exist side by side despite the Vatican's recent excommunication decree.

It is a different story behind the iron curtain, where communists in some countries are exerting heavy pressure on the church. Roman Catholic priests in Czechoslovakia have spurred orders from the communist government there to desert Archbishop Joseph Beran and the Vatican in the church-state war.

Pope Pius XII has told German Catholics, and through them Catholics everywhere, that no government that denies God can survive.

Palmito Togliatti, Italy's leading communist, told 2,500 of his followers in Rome yesterday that they could be communists and good Catholics at the same time.

The Vatican says not. An edict issued Wednesday by the Vatican informed Catholics throughout the world that they subject themselves to excommunication by supporting communism and thus deprive themselves of the church's sacraments and association with the faithful.

Togliatti referred to the Vatican action as a tactic "dragged from the darkest ages of humanity's history." He declared excommunication would never destroy communism.

French communist leaders followed the line that Catholics and communists could work together on the political and labor fronts. Maurice Thorez, France's

Greece Puts Ban On U. S. Observers

ATHENS, July 18.—(AP)—The Greek general staff today banned American and other foreign correspondents here from territory comprising half the total land area of Greece.

The Greek army commander said the order was issued because reporters had violated censorship regulations.

American reporters here told the U. S. embassy and the U. S. military mission the order apparently violated the American aid agreement under which correspondents are supposed to have freedom to report how aid funds and material are used.

Police in Athens, meanwhile, arrested a communist organization headed by a woman doctor, has been shattered. Police said Maria Nikolettou, 35, headed a band which operated in terrorist groups of three persons each.

A Kozanes military court today sentenced 19 persons to death on charges of crimes committed while members of a communist underground in western Macedonia, dispatches said.

Operation In Red Idea Faces GOP Attack

Truman Proposal Also Opposed By Two Top Democratic Senators

By JACK BELL WASHINGTON, July 18.—(AP)—Republicans intend to bear down on President Truman's approval of operating the government in the red, Senator Brewster (R-Me.) said today.

Brewster, who heads the Republican senatorial campaign committee, viewed it as possibly a major issue in 1950 elections.

The voters aren't going to be allowed to forget, he told a reporter, that Mr. Truman spoke out against cutting spending and in support of a program that temporarily would leave the government pay out more than it takes in.

Mr. Truman said in his economic report last week that "we cannot expect a budget surplus in a declining national economy."

He also said a big cut in government programs would hold back recovery.

"The administration has nothing but the old pump priming answer to any recession in business," was Brewster's sum-up.

"The country tried that in the 30s and after \$40,000,000,000 had been spent there still were 8,000,000 unemployed.

The Republicans are going to fight to cut expenses and keep the budget balanced. We think a ma-

Army Contract Case Inquiry Still Underway

WASHINGTON, July 18.—(AP)—An investigation of army contract handling was still under way today. It has led thus far to the suspension of two major generals and a congressman's demand that President Truman send his military aide to the sidelines.

The inspector general's office has orders from Secretary of the Army Gordon Gray to continue its probe of Maj. Gen. Herman Feldman, the quartermaster general, and Alden H. Waite, chief of the chemical corps.

Both were relieved of duty Saturday after a senate investigating committee produced evidence which Gray said indicated they exhibited "a lack of judgment and sense of propriety."

On the heels of this development Rep. Shafer (R-Mich.) demanded that the President suspend Maj. Gen. Harry H. Vaughn, White House aide.

A member of the house armed services committee, Shafer said in a statement that Vaughn was "implicated in the same case" with Feldman and Waite. He gave no details but said the aid's conduct "has been, to put it mildly, in the poorest taste."

Their names were mentioned in a recent newspaper story telling of agents who allegedly used their influence to obtain government contracts for fees of five per cent.

Mob Balked In Try For Negroes

GRYVELAND, Fla., July 18.—(AP)—Tension gradually eased today after a tough weekend which saw an armed mob try to take two Negroes out of jail. National Guard troops moved in to maintain order in this central Florida town, but left early today.

A touch of the Ku Klux Klan was here too. Pamphlets titled "Ideals of the Ku Klux Klan" were tossed from a group of about 20 cars which passed through.

Residents said three or four men were in each car; none wore the traditional Klan hoods and robes.

Sheriff W. V. McCall, who quelled the mob of about 100 men that gathered at the county courthouse in Tavares Saturday night, said he wasn't around when the Klan literature was tossed.

The two Negroes had been moved to another jail before the mob arrived, McCall reported, because he expected trouble. They were arrested on an open charge in connection with the robbery of a white man and the kidnapping and subsequent rape of his wife early Saturday.

Sheriff McCall said the men who marched to the jail were armed "to the gills."

Returning here, the mob drove through the almost-deserted Negro section and fired several shots into a restaurant and a house.

Most of the town's 400 Negroes were moved to surrounding towns on trucks a few hours earlier.

Radio Guides Stricken Flier To Safe Landing

PORTLAND, July 18.—(AP)—National Air Guard Lt. John Haley landed an F-51 Mustang safely yesterday with radioed instructions after his head and neck were paralyzed while in the sky.

Although he fainted when he climbed out of the plane, Lt. Haley later returned to his group and flew formations during an air force reserve dedication ceremony.

Maj. Gordon Doolittle, Oregon air guard officer, said Lt. Haley's head was snapped violently backward in a stunning maneuver. He lost consciousness momentarily in trying to straighten his head.

Two other pilots in the formation detected the stricken airman held the awkward position, he landed perfectly from instructions radioed by another plane taking him into the air base.

Supervisor Judge J. M. Phillips set bail at \$3,000 each.

Stevedoring Companies Object; Sen. Morse Would Use T-H Law

WASHINGTON, July 18.—(AP)—Harry Bridges, head of the striking longshoremen in Hawaii, told the Senate labor committee today that the union will end its crippling shutdown of island ports if President Truman will appoint an arbitration board.

Stevedoring operations, on which the island's vital shipments of sugar, pineapples and other commodities depend, have been closed down by a 78-day strike of Bridges' International Longshoremen's and Warehousemen's union.

James P. Blaisdell, attorney for seven Hawaiian stevedoring companies, told the committee that Bridges is fighting for establishment of the principle of arbitration.

If that is won by the union, the attorney said, "collective bargaining is done in Hawaii."

"You have to realize the complete domination of the territory of Hawaii by Mr. Bridges' union," Blaisdell testified. He said the employers have been willing to accept a 14-cent hourly wage increase recommended by a fact-finding board appointed by Governor Stainback of Hawaii. The union has rejected it.

The Senate committee is considering a bill by two California senators—Knowland (R) and Downey (D)—to permit appointment of an arbitration board by President Truman.

Bridges objected to some details of the Knowland-Downey bill, but said:

"On behalf of the ILWU I am authorized to state that if a board of impartial citizens is established

Jehovahites, Vets Clash At Meeting

DUNCAN, Okla., July 18.—(AP)—A riot broke out here last night at a meeting of Jehovah's Witnesses, after 20 veterans marched down the aisle carrying two United States flags, Police Chief Raymond Webb reported.

Police said the paraders asked the audience of about 1,000 to join in singing the "Star Spangled Banner," and they countered by singing a religious hymn. They said a folding chair was tossed from the stage and the melee began.

Police Chief Webb summoned his entire force of 20, but failed to stop the brawl. Fire Chief H. Vernon Ray said he dispersed the rioters by turning a fire hose on them.

M. M. Downey, Brooklyn, N. Y., was speaking at Sunday's gathering climaxing a three-day meeting of the religious sect at the high school auditorium. The public was invited.

Police said about 20 persons were injured, none of them seriously.

Jim Whited, Duncan mayor and former commander of the Legion post, said a group of veterans tried to get an injunction Saturday to keep the Jehovah's Witnesses from meeting in the auditorium, but were refused.

Slayer Of Nine Drank Their Blood

LEWES, Eng., July 18.—(AP)—Handsome John George Haigh was quoted in court today as telling police he killed nine persons, drank some of their blood and then dissolved the bodies in acid.

Haigh pleaded innocent by reason of insanity to a charge of murdering Mrs. Olive Durand-Deacon, 69, a wealthy widow, last Feb. 18. The debonair 39-year-old businessman walked jauntily to the bench and answered "not guilty" in a clear, firm voice.

Sir David Maxwell-Fyfe, a prosecutor at the international Nuremberg war crimes trial, is Haigh's defense attorney. He read in court a statement he said Haigh gave to police admitting the killing of the widow and the others. He said Haigh was "insane so as not to be responsible for the act," and thus innocent of premeditated murder.

Attorney General Sir Hartley Shawcross told the jury of 11 men and one woman he would show the primary motive for the crime was financial gain.

IWA Outdoes T-H Law On Non-Communist Oath

SPOKANE, July 18.—(AP)—Delegates to the international woodworkers district convention, have carried the Taft-Hartley non-communist oath requirement a step farther.

The controversial labor law requires only that a union's officers sign the oath before the union may carry any problem before the National Labor Relations board.

IWA delegates voted yesterday, however, to require all candidates for office to file the signed oath before the union election.
