Don't throw your pari-mutuel tickets away-those race track characters known as "stoopers" might pick them up and collect on the bets that are rightfully yours.

That was a bit of advice given by W. H. (Doc) Carter, member of the county racing commission, in a talk at the Roseburg Rotary club luncheon Thursday noon.

He described the preparitions being made for the race meet to be held at the fairgrounds Aug. 17-27, the last three days of which will coincide with the first annual Douglas county fair. Uncle Sam Nearing Time When He Must Tighten Up On Foreign Aid

both? From the political standpoint America of course isn't going to tear up her declaration of 1776. That was rather well implement-ed at the time—and it stands. Empires On Way Out As a matter of fact, this column believes that empires, in the gen-erally accepted sense of the term, are on their way out. We may have commonwealths and other liberal forms of association, but empires—no. However, we needn't labor on this point, but assume that Mr. Baxter was thinking largely in terms of non-political association which would be of mutual advan-tage economically and in the way of military security. That is, an extension of the association which already exists and which the much debated Atlantic pact would further strengthen in the defen-sive sense. Uncle Sam Muat Tighten

Uncle Sam Must Tighten

Certainly there is much to be done in the way of improving in-ternational relations. We may even be working toward the ideal-ist's dream of "one world" in which a real United Nations will one as information and the second se which a real United Nations will serve as a universal parliament. The United States has given full evidence that she wants to play her part in this transformation. However, my observation is that it will be a mistake if for-eign countries believe there is no limit to which the United States will go. We hope that we have given generously of our moral support and our material wealth. We expect to give more.
