

**Bandit Walks Casually From Bank After Holdup**

NEW BRITAIN, Conn., July 25.—(AP)—A bandit casually walked out of the Fidelity Industrial bank with between \$10,000 to \$12,000 in cash Friday after a daring armed holdup.

The bandit, about 30, followed Thomas J. Higgins, 36, the bank's credit manager, into the building when the latter opened the front door.

Forcing Higgins into the vault at the point of a gun, the bandit ordered the credit manager to dump the money into a white canvas bag provided by the intruder.

As the bandit left the building, he met Miss Geraldine Curtin, 16, a bank employee, at the front door.

She assumed he was a bank customer and greeted him with a "good morning."

The bandit replied with a "good

morning" of his own and casually walked out.

**Drain Lions Complete Teepee Handcraft Building**

A group of Drain Lions club members, their wives and children, recently finished construction of an outdoor assembly room and handicraft building for the Camp Fire Girls at Camp Teepee.

Termed Drain's contribution to the camp, all the construction work was done by the Lions club with materials donated by Drain merchants.

Camp Teepee is located on the Umpqua river and is situated in a Myrtlewood grove. At present, the camp will accommodate approximately 70 girls for each session.

**House Group Votes To Retain 52-20 Vets' Aid**

WASHINGTON, July 25.—(AP)—The Senate labor committee Friday voted unanimously to keep for another year the "52-20" program of unemployment benefits to veterans.

The present program expires next Monday, President Truman has asked that it be continued.

Under the program, unemployed veterans receive government payments of up to \$20 a week for 52 weeks. About 600,000 veterans now are getting them.

The committee's action sends on to the Senate a bill which would keep the program in force, both Senate and House must approve it for the program to continue.

Backers of a similar measure in the House are pessimistic about extension of the law. The bill is before the House veterans committee. The chairman, Rep. Rankin (D-Miss.), has said it is going to stay there. He has called the "52-20" benefits "sit down money and rocking chair money."

**KDNB DIAL-LOG**

Dreams of foreboding events and how realistically true they became provide some of the hair-raising stories John Nesbitt has planned for his "P-sing Parade" starting today through Friday, July 29, (4:30-4:45 p. m.). For his broadcast today, Mr. Nesbitt will relate the interesting dreams of Robert Louis Stevenson and poet Samuel Coleridge, and of a British submariner whose dreams saved the lives of his shipmates; Tuesday, Mr. Nesbitt tells about people who predicted things accurately—from their dream world; Wednesday's story is about how several superstitions were established, and the next two days are about persons who made long-range predictions.

At 7 tonight, the "Dick Haymes Show," followed by the "Sammy Kaye Showroom" playing such favorites as: "Riders in the Sky," "Sentimental Journey," "Cruisin' Down the River," and "On the Alamo." A story involving a supposedly haunted house, and a crippled woman who loves it, is the detective-drama for KJH-Don Lee's "Let George Do It" presentation tonight at 8. At 10:15 p. m., there will be a special program on "Farm Legislation" under the auspices of the Democratic committee; speakers will be Harold D. Coole of North Carolina and Joseph Fister. At 10:30, the Republican committee will give their view point on "Farm Legislation" with speaker William S. Hill from Washington and Lee B. Prichard.

If you are planning a heavenly vacation in your space ship, here is how you get a road map for a trip through the universe—just call at the Palomar Observatory on the mountain of the same name in southern California. For a fee—about \$2,000, they can provide you with a sky chart reaching back three-million light years. But wait a minute—you may have to stand in line, the sky mapping has only just started. And astronomers on the mountain near San Diego say it may take four years with Palomar's 200-inch telescope. However, when it's done, you'll have a complete roadmap of the northern heavens, with everything from planets to star dust carefully charted. But it will still be wise to take along a spare tank of rocket fuel—nothing's said about service stations.

**REEDSPORT Lumber Company Closes Part Of Log Operations**

One side of the Cape Arago Lumber company's logging camp on Schofield creek near Reedspport has been closed down, but the remainder of the camp is still in operation.

The Reedspport public library board Monday night decided to discontinue opening the library Wednesday evening during the month of August, as there seems to be no demand for this evening activity during vacation period.

Dr. Carol Meyers, M. D., Reedspport, and her nurse, Miss Ruth Hauser, are spending their annual vacation on a cattle ranch in eastern Oregon, near Baker.

Winchester Bay Grange No. 906 has taken steps to incorporate. Necessary papers have been filed with the state corporation commissioner and the clerk of Douglas county. This action is taken primarily to prevent officers of the grange being sued as individuals in case of accidents that might occur at the grange hall or at any fair or other public gathering sponsored by it.

The towboat Westport, owned by the Umpqua River Navigation company of Reedspport and operated by Capt. G. M. Leach, is laid up temporarily for replacement of a faulty piece of machinery. The Juno, which had been tied up while Capt. Howard Leach took his vacation, has been put back into service to replace the Westport.

**Rice Valley**
