

By LEROY INMAN
City Editor, News-Review

A state patrolman making a routine traffic check near Coos Bay stopped a car with three occupants. He saw one man in front fidgeting nervously in his pocket with one hand. The man in the rear had his hand under a blanket, from which the butt of a pistol was barely visible.

Not wishing to shoot it out under such conditions, the officer calmly cited the driver to appear in court on a traffic violation four or five days later. The occupants relaxed and brought their hands into the open. Seeing his chance the officer quickly drew his own gun. He arrested what proved to be three well-known state robbers, with \$42,000 loot.

This is an experience state police may run up against at any time, State Police Sgt. Lyle Harrell said in a brief talk before the Roseburg Kiwanis club Tuesday noon in the Hotel Umpqua.

On another occasion four drunken loggers, who looted a woman's car, were traced to Prospect by officers. Not only did they arrest the men and recover \$2,500 loot, but also met two men in a jeep with six deer. They returned to headquarters with the six men and six deer, related the officer.

Eight Officers Killed
The casualty rate among state patrolmen has run rather high. Eight men have met their death and others have been injured on duty, said Sgt. Harrell.

But that cannot be because they are not well trained, he said. The men upon acceptance are given the finest of training in self protection—disarming, judo and other schooling.

But most of the men on the force like it and stay on the job, because the work is interesting, he said.

Sgt. Harrell traced briefly the history of the state police, organized in 1931. Prior to that time state officers did limited traffic patrol work. The organization was set up to enforce the law without discrimination, and to extend courtesy wherever possible.

The original 75 men has grown to many times that number. The Roseburg office has 16 men—including three game division men—assigned to Douglas County, exclusive of Reedsport. The main highways are patrolled at all times, and the game men are also qualified to make arrests for other violations. All cars are equipped with two-way radios, using FM for sending. There are 25 fixed radio stations in the state, Harrell explained. There are four state police districts, with headquarters at Baker, Milwaukie, Salem and Medford. Roseburg is in the Medford district.

He discussed other phases of the organization, which includes a fingerprint file of 350,000 names at Salem, and the crime detection bureau in connection with the University of Oregon medical school in Portland.

Cooperation, especially with other law enforcement agencies, such as city, county and FBI, are keynotes of the patrol's success, he emphasized. This cooperation, said the officer, has been most gratifying on all occasions.

NON-SUPPORT CHARGED
Sheriff O. T. "Bud" Carter reported that George W. Rathe 24, of Roseburg, was arrested July 23 by sheriff's deputies and committed to the county jail, charged with failure to provide for minor children.

Sheriff Carter said John Russell Nolan, 30, Tenmile, was also admitted to the county jail, charged with vagrancy. Justice A. J. Geddes set bail at \$50.

Air Force Discusses Arctic Bases From Which To Strike Over North Pole

WASHINGTON, July 27—(AP)—The air force is talking about forward air bases deep in the Arctic at which bombers could refuel on strikes across the Polar cap.

A cautious official reference to this hitherto secret plan for stretching the reach of bombers operating from airfields within the United States came to light today. In a report on plans and money needs for the new heavy bomber base at Limestone, Me., the air force says:

"A typical polar operation might involve aircraft taking off from United States air bases, the staging or topping off of these aircraft at forward bases in Northern Canada, Greenland, or even the Polar ice cap."

This project may explain how the USA can make good its claim that the huge B-36 bomber can strike virtually all "significant military targets on the earth from bases in the western hemisphere."

The distance from bases within the United States itself to potential targets in the heartland of the Eurasian continent would be beyond the range of even the B-36. However, the new strategy suggested in the report indicates that the missions would operate like this:

A B-36, whose home field was Limestone or some other airbase in the United States, would load up with bombs—and a comparatively light load of fuel. It would fly two or three thousand miles to a staging base on the rim of the North American continent, in Greenland or elsewhere in the far North.

There the bomber would "top off" its fuel tanks (fill them to capacity.) That would carry the intercontinental bomber to the target and back to the staging base or to friendly territory beyond enemy territory.

FURNISHES BAIL
Darrell Knight, 46, Canyonville, has been released from the Douglas county jail upon posting of \$1,000 bail, set upon arraignment in justice court on a charge of threatening the commission of a felony, reported Justice A. J. Geddes. Knight was arrested Friday by sheriff's deputies.

A chigger or red bug feeds on and digests skin, and not blood.

VITAL STATISTICS

MARRIAGE LICENSES
SCHULZE-HOGAN — Paul Randell Schulze and Fontelle Logan, both of Oakland.

T. LMAN - HICKETHEIER — Walter Tolman Jr. and Leona Bernice Hickethier, both of Drain.

HOFF-PRICE — Milton C. Hoff Jr. and Leola Mae Price, both of Sutherlin.

BRUNER-WROE — Leslie Gilbert Bruner Jr. and Opal Grace Wroe, both of Reedsport.

MCNEIL - KIRTLEY — Arnold William McNeil and Lillian Kirtley, both of Sutherlin.

SMITH-CRAFT — James Cline Smith (navy) and Shirley Eunice Craft, both of Roseburg.

DIVORCE SUITS FILED
KELLY—Vernadean vs. Charles N. Kelly. Married in Roseburg Oct. 7, 1944. Plaintiff charges cruel and inhuman treatment and asks that her former name, Vernadean Coy, be restored.

SMITH — Gladys vs. Hiram Smith. Married at Sandpoint, Idaho, on Sept. 29, 1941. Plaintiff charges cruel and inhuman treatment.

Chiggers usually are not found in hardwood groves, and thus oaks or elms are better spots for picnic grounds to avoid these insects.

For BIGGER and BETTER EGGS

TRIANGLE X-TRA EGG PRODUCER

Maximum egg production... at lower cost. That's the story of Triangle X-tra egg producer. A carefully balanced feed supplying the requirements for more extra grade eggs. Mash or pellets.

SUTHERLIN FRUIT GROWERS ASSN.
Sutherlin, Oregon

This is another big reason why we're sure
LUCKY STRIKE
MEANS FINE TOBACCO!

Tests made by America's largest cigarette research laboratory scientifically help Lucky Strike buyers select the fine tobacco that goes into Luckies!

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye.

As you read this, a constant stream of tobacco... samples from every tobacco-growing area... is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer, lighter, milder tobacco. This fine tobacco—together with scientifically controlled manufacturing methods—is your assurance that there is no finer cigarette in the world today than Lucky Strike!

This man knows where fine tobacco grows. Here is one of Lucky Strike's tobacco-buying supervisors gathering sample leaves from a curing barn. Such samples are obtained from every tobacco-growing area and sent to the laboratory for pre-market analysis. No wonder—L. S./M. F. T.—Lucky Strike means fine tobacco!

This scientist knows how to test tobacco. In our Tobacco Control Division, samples sent to the laboratory are subjected to scores of analyses to determine smoking quality. This vital testing, both before and after tobacco is purchased, has been conducted for years... still another guarantee that Lucky Strike means fine tobacco.

Reports received. The laboratory sends results of the analyses to the buying supervisors. This information helps the buyer go after finer, lighter, milder tobacco for Lucky Strike. Thus the judgment of the buyer at tobacco auctions is combined with modern science at the laboratory to assure you that Luckies are a finer, milder cigarette.

We know:
LUCKIES PAY MORE
for fine tobacco
(millions of dollars more than official parity prices)

We are convinced:
LUCKIES PAY MORE
for cigarette research

So, for your own real deep-down smoking enjoyment
Smoke a Lucky!

Lucky Strike's fine tobacco and constant research combine to give you a finer cigarette. Prove this to yourself. Buy a carton of Luckies today.
