Plain baked custard becomes party fare when it is served with a sauce of canned red cherries. Thicken the juice from a can of sour pitted red cherries with cornstarch and sweeten with sugar. Cool and add some of the cherries before passing with the custard.

Mix sauerkraut with some finely grated onion and a little tomato sauce. Season with salt, freshly ground pepper, and sugar and turn into a casserole. Top with dried bread crumbs that have been well coated with melted butter or margarine and heat in a moderate oven. This is a good vegetable casserole to serve with pork chops.

Truman Favors Training Of U.S. Reserve Forces

GRAND RAPIDS, Mich., July 28.—(AP)—President Truman, according to his military aide, favors a "small well-trained active military force, with the difference made up by reserve contingents."

Maj. Gen. Harry H. Vaughan quoted the president at a news conference here to bulwark his own stand. The military aide contended that during times of reduced expenditures emphasis should be put on the reserve program.

The president, said Gen. Vaughan, believes that "you can get more for your defense dollar by training the reserve."

Gen. Vaughan came here to attend the national convention of the reserve officers association. Other high ranking reserve officers at the news conference questioned Vaughan's use of the word "small" in describing the president's views on the active military force.

"Oh, yes, I've heard him say it several times," Gen. Vaughan said.

The nation now is tooling up for military production, Gen. Vaughan said.

WASHINGTON, July 28.—(AP)—President Truman's arms-for-Europe program was described officially as designed to bring up to combat strength a total of about 1,500,000 fighting men in five countries.

The strategic purpose behind this objective is to prepare the countries of western Europe to defend themselves against any attack by Russia until American forces could be thrown into the struggle.

The five key countries in the western Europe rearmament plan are Britain, France, Belgium, The Netherlands and Luxembourg. Together they form the western European union and have already planned the coordination of their own military power independent of any U. S. assistance.

In addition to these five the arms program is supposed also to strengthen the combat effectiveness of the relatively small forces of Norway, Denmark and Italy.

General Alexander Of Canadian Army Dies

VICTORIA, B. C., July 28.—(AP)—Major-General R. O. Alexander, 61, who commanded the Canadian army on the Pacific coast during the threatening days after Pearl Harbor, died in the hospital today.

General Alexander, a distinguished soldier in two world wars, was in charge of organizing defenses along the British Columbia coast from October, 1940 to June, 1942.

He later held high military posts in Western Canada, and retired because of ill health in 1945.

General Alexander, holder of many decorations, started army life in the ranks.

Thomas Ewing, first Secretary of the Interior, was appointed in 1849.

TO OPEN AT ROLLETTA—Bruce Gilley and his orchestra will play for the first Friday night dance to be offered at Rolletta, Roseburg skating rink located on the North Umpqua road. E. C. Erickson, rink owner, said Rolletta has recently been redecarated in line with the policy of Friday night dances. At least three dances have been scheduled for August. Rolletta opened as a skating rink in January and claims the largest floor space in the Roseburg area.

Railways Fight Move To Boost Coastal Rates

WASHINGTON, July 28.—(AP)—West coast railroads brought before the Interstate Commerce commission Wednesday a move to force them to raise their freight rates along the Coast line. They contended such an increase would "seriously harm" shippers.

The proposal for the increase was made by West Coast ship operators. The ICC heard final arguments on it.

The water carriers, joined by the maritime commission, charge that the rail rates are being kept at unreasonably low levels on north and south freight movements between California, Oregon and Washington. This situation, they say, has prevented the shipping companies from resuming operations on the pre-war scale.

Specifically, they ask that the rail lines be forced to quote North and South freight rates on the same mileage basis as the rates applying to East and West rail traffic.

John E. Hennessy of San Francisco and James E. Lyons of Los Angeles, representing railroads in the area, demanded that the ICC leave the present rail-water relationship undisturbed.

Among those who joined them was John H. Carkin, speaking for the Oregon and Washington Utilities Commissions.

Hennessy said that the steamship companies had indicated that they wanted to resume about 14 sailings a week up and down the West Coast and said they would require about 7,000,000 tons of freight a year to support such a schedule. He asserted that the rail lines are only carrying about 6,800,000 tons of such freight at this time.

The spokesman for the utility commissions, chambers of commerce and private industry contended that any raise in rail rates would seriously disturb markets along the coast.

Low Home Loans Urged By AFL President

WASHINGTON, July 28.—(AP)—AFL President William Green urged Congress Wednesday to act speedily on a bill calling for \$1,000,000,000 in federal loans to cooperatives for construction of moderately priced homes.

The American Federation of Labor chief told a Senate banking subcommittee the big need

now is to provide decent homes for those who are "too poor to afford the housing constructed by private builders and too rich to be eligible for public housing."

The bill Green endorsed is sponsored by senator Sparkman (D-ALA). One section of it would authorize \$1,000,000,000 in government loans to cooperatives and other non-profit organizations.

The United States produced 60 per cent of the world's oil in 1948.

THANKS!

May I take this opportunity to thank the many customer-friends who called and sent flowers and cards while I was in the hospital.

I'm tickled to death to tell you that I'm home now but still confined. Had a hard fall but they can't keep a "fishin' gal" down, you know, when the salmon trout are in the river. You'll find Frank and Lepha and all my good crew at the cafe ready to serve you.
