Amethyst To Get Rousing Welcome At Hong Kong

ABOARD H. M. S. JAMAICA AT SEA, Aug. 2.—(AP)—The battered little sloop Amethyst limped toward Hong Kong today where a rousing welcome awaits the doughty crew who brought her to freedom through Chinese communist gunfire. A squadron of Spitfires will dip in salute, bands will blare and a military honor guard will be waiting at the wharf when the shell-scarred royal navy craft arrived in Hong Kong harbor tomorrow. The medal of the distinguished service order will be awarded Lieut. Comdr. John S. Kerans skipper of Amethyst, which escaped Saturday night from moorings on the Yangtze river, 60 miles below Nanking. The award will be made with the personal approval of King George VI, who already has commended the crew for its gallantry in bringing the ship to safety. The Amethyst had been pinned down in the Yangtze since April 20 when she got caught in communist shore fire during a confused battle between British warships and communist armies. The British admiralty has asked the far eastern naval command to make any further recommendations for crewmen who showed exceptional valor in getting the Amethyst out of her trap. An Amethyst crew member who came aboard the Jamaica which is escorting the Amethyst to Hong Kong, said the first three months of entrapment in the Yangtze were spent mainly repairing damage inflicted by the reds April 20. Forty-four British sailors lost their lives in that engagement. When the Amethyst slipped her cable Saturday night, the crewmen said, she was lit partly by a passing steamer which was challenged by flare signals. The Amethyst kept going, engaging communist shore guns on both sides. She was under fire 30 minutes. The men aboard the Amethyst said they were fit and well.

Mining Industry May Get Small Federal Aid

WASHINGTON, Aug. 1.—(AP)—Senator O'Mahoney (D-Wyo) said Saturday the mining industry may have to be content with "thin gruel or nothing to eat" in the way of federal aid. The chairman of the Senate Interior committee made the observation as he recessed a hearing on how much federal aid the industry may expect Congress and President Truman to approve. O'Mahoney recalled President Truman's veto a year ago of the \$100,000,000 Murray-Engle mine subsidy bill. Three witnesses agreed with the senator that his bill to provide federal aid up to half of the cost of exploring for minerals and developing mines is the best they can hope to have written into law. Cost of the program has not been estimated, but O'Mahoney said it would be well below the cost of the plan vetoed by Mr. Truman.

Highbrows, Too, Patron Of Burlesque, Finding

NEW YORK, Aug. 2.—(AP)—After 14 years of research, a city college professor is convinced that "interest in burlesque is not confined to so-called lowbrows." Stuyvesant Van Veen, associate professor of art, said that in Washington he found "many senators' government officials and even Supreme Court justices to be regular burlesque-goers." Van Veen said he plans a book on his study of the "sociological values" of burlesque. He has interviewed burlesque queens, comedians, chorus girls, stage managers and musicians. His wife, Frances, a former radio script writer, has collaborated with him. Van Veen is a mural painter.
