

TRAGEDY BEFALLS FAMILY—The Entriken family lines up in Portland, Ore., to have its picture taken after the group hadn't eaten for two days because they were without funds after Mr. Entriken left for California in search of a job and was stranded in Eugene, Ore., after his car broke down. Further tragedy came to the already hapless family when Nancy, 13 (right, rear row), went swimming in the Columbia River and drowned the day after this picture was taken.

Doctor Resumes Practice
 Dr. A. J. Fawcett, an old-time general practitioner, has returned to Glendale after wearing of retirement. Dr. Fawcett retired three years ago in June, after having practiced medicine and surgery in Glendale for 23 years. Retirement, however, did not set well with one who spent so many years in active work, and last week the Fawcetts returned to Glendale. They have purchased the Harvey house on Montgomery avenue and Dr. Fawcett intends to open an office here and resume the practice of medicine locally.

Interviewed by telephone, Dr. Fawcett stated that while he has not yet found an office, he has been busy since returning to town. "And," he states, "I have surely been happy with the reception I have already had from old friends in Glendale."

W. W. Nail Injured
 W. W. Nail was injured recently when his car was struck by an automobile operated by his nephew, W. R. Nail, on a blind turn opposite the entrance to the Beard farm, north of Glendale.

The road from the Beard farm comes up a steep grade to enter the Windy creek road. Brush and trees obscure the view and make the approach a dangerous one. W. W. Nail was going up the Windy creek road and neither driver could see the other.

The car of W. W. Nail was damaged to the extent of about \$100. Damage to W. R. Nail's car was negligible. W. W. Nail received emergency treatment at the hospital in Grants Pass, having received a bad cut underneath the chin.

House-Approved Military Pay Boost To Get Senate Action This Session

WASHINGTON, Aug. 3.—(AP)—Majority Leader Lucas (D-Ill.) said Wednesday the Senate will consider a House-approved pay boost for the military services before the present session ends. "I am certain the military pay bill will come up for action but I can't say when that will be," Lucas told a reporter. Chairman Tydings (D. Md.) of the Senate Armed Services committee also has pledged action on the measure, which would raise the pay of most of the 1,600,000 officers and men and women in the uniformed services. Previously Tydings had questioned Senate action until both the House and Senate agreed upon a ratification measure that now lacks only President Truman's signature. Senator Knowland (R-Calif.), a member of the Armed Services committee, told a reporter he expects the Senate to "pass the bill unless they start loading it down with amendments." Some senators have threatened to attach pay boosts for civilian government employees to the military bill. As passed by the House the measure would add an estimated \$302,000,000 to annual pay for the services, although the first year costs would be about \$273,000,000. The pay boosts would go to the uniformed personnel of the army, navy, air forces, marines, coast guard, coast and geodetic survey and public health service.

Henry Tanner is the chairman of the fair committee, and persons wishing to make contributions to the prize list or to receive extra information are asked to contact him.

A lunch will be served at noon on Aug. 12, the profits to help meet expenses of the fair.

Bridge Being Repaired
 The footbridge, which is attached to the steel bridge over Cow Creek at the northeast edge of town, is being rebuilt by a county road crew. The foot bridge has been closed since it and the main bridge were damaged some months ago. It was necessary to repair the main bridge immediately, however, because most of the traffic into the city crosses it.

 Use level measurements for all ingredients.
 Measure into a large mixing bowl—
 1 1/2 cups high grade vegetable shortening
 2 teaspoons salt
 1/2 cup cold water
- Blend ingredients together with a large fork until shortening is creamy and absorbs part of water. Then add, all at once—
 4 cups sifted Sperry Drifted Snow
 "Home-Perfected" Enriched Flour
- Stir, with a circular motion, until pastry holds its shape and forms a ball. Store pastry or use as directed in any desired recipe.
- Store Pastry in the coldest part of the refrigerator. For easy future use, mark dough into 4 even-size pieces—each piece enough for a single 9-inch pie shell or 6 large tart shells.
- Dough may be stored in a tightly covered container, or sealed in aluminum foil, or wrapped in a clean cloth and then in heavy wax paper. For mechanical refrigerator storage dampen the cloth; for ice refrigerator use a dry cloth.
