

Truman Program For Arms Aid To Europe Appears Sure To Be Altered By Senators

WASHINGTON, Aug. 4.—(AP)—Some major alterations appeared in the Truman program for arms aid to Europe Wednesday for the arms-to-Europe bill.

The House foreign affairs committee called a closed-door huddle to hear from two men who are supposed to know all the details of the \$1,450,000,000 program to help Atlantic pact and other nations erect a wall of

weapons against Soviet aggression.

The witnesses were Maj. Gen. Lyman Lemnitzer of the army and Dr. Lloyd V. Berkner of the State department. Committee sources described them as "the men who helped draft this plan and know all the answers."

The committee already has received general endorsements of the plan from high administration officials and military men.

The testimony they gave dealt largely with generalities and stressed the need to strengthen friendly nations against Soviet advances.

"We have not yet received the answers to the questions bothering us," said Rep. Vorys (R-Ohio). "We hope to get down to brass tacks now."

Vorys and most of his Republican committee colleagues as well as some Democrats said they

aren't willing, on the basis of evidence to date, to approve the entire program.

Vorys wants it cut about in half and put on an interim basis while the Atlantic pact nations are working out military agreements. He also wants an ironclad guarantee that the arms sent abroad will be used in a coordinated program if war comes.

The Senate foreign relations committee has postponed until

next Monday its hearings on the arms program after Secretary of State Acheson and Secretary of Defense Johnson conferred behind closed doors with the foreign committee and the armed services committee. The two groups will handle the bill jointly in the Senate.

Senator Vandenberg, top GOP member of the foreign relations committee, reportedly told Acheson and Johnson that the Pres-

ident's program won't be approved in its present form. Vandenberg was represented as feeling that the bill goes too far in delegating powers to the President.

Business Loans Break Out-Of Long Decline

WASHINGTON, Aug. 4.—(AP)—Business loans broke out of a 27-week long decline by rising \$16,000,000 in the week ended July 27, the Federal Reserve board reported.

This checked a drop that had continued without interruption since Jan. 12 and which had carried business loans, as of July 20, to a point \$2,757,000,000 below the

all-time high reached last Dec. 22. The upturn was undoubtedly due in large part to business borrowing to build up inventory for the fall and Christmas season—and that could be written off, some officials said, as being "entirely seasonal" in nature.

The city of Troy, in Asia Minor, said to have been named for King Troas, was in existence before 1500 B. C. It was renamed Ilium about 1214 B. C.

Look at this diagram, folks! It shows why you get more good-eating meat for your money when you buy Safeway's trimmed - before - weighing meats. Note that you pay only for the portion that properly belongs on each cut — not for excess bone, waste, or fat. We prepare other cuts in similar fashion — each according to its special requirements. When checking meat value, it pays to compare trimming as well as price. Safeway's price is always on the trimmed cut. And don't forget — Safeway meats are U. S. Government Graded. The grade is stamped on every cut.
