

**SIX GOOD TRAVELERS** — When Mrs. Ruth Curlee, operator of a Los Angeles nursery home, decided to vacation in Oregon this summer she brought along her six charges. Two of the children are her own, four of them she is taking care of. This is how the children lined up on a Roseburg sidewalk Wednesday, when they came to town on a visit. They are staying for two weeks at the home of Mrs. Minnie Dempsey at Elgarose. Mrs. Curlee says the children are good travelers and are thriving on the trip. They plan to visit Oregon Caves and Diamond lake before they return to Los Angeles. Mrs. Curlee is accompanied on the trip by her sister-in-law, Mrs. Clara Brandon. Left to right, the children are Joan Curlee, 7; Dewey Burroughs, 6; Billy Curlee, 4; David Burroughs, 4; Michael McClain, 3 and Charles (Tony) Cooper, 2.—(Staff photo.)

**TO BERLIN** — American Military Government sources said Maj. Gen. Maxwell D. Taylor, (above) chief of staff of American army forces in Europe, will succeed Brig. Gen. Frank L. Howley who has asked to be relieved as American commandant in Berlin—one of the hottest spots in the east-west cold war.—(AP wire photo.)

**IDENTIFIES ATTACKER**—Seaman Edmund M. Guger, 18, struggles with police as Mrs. Margaret Zutell, 22, identifies him as the man who sneaked into the yard of her home in Long Beach, Calif., and tried to rape her. Her injured mother lay inside the house, unable to help her. The sailor is a crew member of the hospital ship Repose.

**REEDSPORT**

**Man Arrested For Shooting Bull Frogs, Exceeding Limit**

By S. S. SMILEY  
(News-Review Correspondent)  
Griffith Kimble of Florence has been arraigned in justice court in Reedsport on a charge of shooting bull frogs. The arrest was made by state police, and the hearing was held Aug. 3.

Kimble is alleged to have had 26 bullfrogs in his possession when arrested, when the state law only allows 12. The law also lists the frog as a "game fish," to be taken only on a hook and line. The legal size is four inches or larger.

Justice of the Peace Fred Wright was also to preside at the trial Wednesday of Frank Devore and Roxie Miller of Cottage Grove, on a charge of killing and possession of deer out of season. The two were arrested by Sgt. Richard Miles of the State Police.

Devore is out on bail of \$500 each on the two counts, with Mrs. Miller's bail being \$500. This will be a jury trial, with the district attorney from Roseburg prosecuting the case.

**Pharmacy Owners Vacation**  
Mr. and Mrs. George Williams, owners of the Williams pharmacy in Reedsport, are planning on leaving about Aug. 10 on an extended vacation trip into Canada. The State Liquor Store for Reedsport is now located in the pharmacy, but will soon be moved to the Hogan building, now under construction on Fir avenue.

**County Repairs Road**  
The county road extending from the Coast highway, north of Gardiner, to the farming community in Five Mile, east of Tahkenitch lake, is being widened and straightened. The work is being done partly by a Douglas county road crew, using heavy grading equipment, and partly by loggers working in that vicinity.

It is planned to gravel the improved portions of the road before winter, to insure year-round travel to dairymen living in the Five Mile section. Rock bluffs have been blasted off where necessary to widen some sections. Similar work is being done on the road extending from Five Mile to Fiddle creek, in Lane county.

**Sports Fish Being Canned**  
The Reedsport Packing company has been kept extremely busy recently in the custom canning department, canning the salmon caught by sport fishermen. This concern puts out an attractive label, showing the kind of fish, by whom and where caught. There has been little call for canning striped bass this year, as it is generally considered that this type of fish is better used fresh or smoked, as it is quite dry when canned.

**Ferns Shipped East**  
A large truck and trailer load of ferns and huckleberry brush was in Reedsport Thursday en route to Rockport, Ill. for use by florists there.

To local people, this seems a long distance to send a special conveyance with anything as common as the ferns and brush here, but as they have to be shipped by refrigerated equipment, this has been found the most practical method of shipping.

When asked as to how long the trip would take, the driver replied that he was scheduled to arrive at his destination by 9 o'clock Saturday night.

**Repairing State Highway**  
A State Highway commission oiling crew, working out of Reedsport, has been making extensive improvements on highways in this vicinity during the past few weeks. The work is mostly in the nature of patching, and in many instances has eliminated the yellow line so important to night driving and driving during heavy fogs.

**Ranchers Curing Hay**  
John and Fred Murphey of Five Mile, who operate two dairy ranches there, are curing the hay on the Gardiner dairy, below Gardiner, for half of the crop. The Murphey brothers plan on taking part of their share of the large crop to their Five Mile ranches and will have the rest for sale.

**Seelye Move to Raymond**  
Mr. and Mrs. Frank Seelye of Reedsport moved last week to Raymond, Wash., where Mr. Seelye will be employed by a power and light concern.

He was resident manager for the Central Lincoln P.U.D. while here, until he was forced to give up that position by a prolonged illness which resulted in his being hospitalized for several months in the Keizer hospital in North Bend and the Veterans hospital in Portland.

The Seelyes, both ardent fishermen, disliked leaving this vicinity where they could indulge in their favorite pastime so often, and with such excellent results.

ten, and with such excellent results.

**Considering New Site**  
The hospital committee working on a new hospital for Reedsport is now considering the purchase of the Russell J. Hubbard property on Wade's Flat. This property, which includes the Hubbard residence, is similar to the property already acquired by the committee, in that it is on the edge of the hill overlooking the Scholfield river.

It is thought by some that the Hubbard residence could be altered for temporary use as a hospital until a larger, new building could be financed. Others feel that the cost of such alterations would be out of proportion for the results that could be obtained, as the result would still be a wooden building of considerable age.

Most agree that the location is a good one. It is south of Highway 101, where it passes through this section of Reedsport, while the original chosen location is north of the highway. A public hearing will be held Wednesday night to hear arguments on the matter.

**Heavy Crops Of Food, Fiber Again Due From Farms**

Led by a record rice crop and a near record corn crop, the nation's farms promises to reach tremendous proportions again this year.

The U. S. Department of Agriculture's July 1 crop report points out that the total acreage in crops is the largest since 1933 and yields are promising. Although wheat production fell 148 million bushels below earlier expectations, the crop of 1,189 million bushels still is third largest of record.

Aggregate production, based upon current forecasts, may be 31 percent above the 1923-32 average, exceeded only by the record set last year. The report explains that favorable conditions at planting time resulted in increased plantings over previous intentions for a number of major crops. The acreage upon which the 52 principal crops were planted or growing in 1949 totals over 36 million acres.

Feed grains as a group are the heaviest contributors to the prospective aggregate crop. Included are the second largest corn crop in history, a large crop of oats, a relatively small barley crop and a sorghum grain crop probably less than last year, but above average.

With the heavy carry-over, supplies of feed grains will be among the most liberal ever available per animal unit. Hay supplies per animal unit also will be adequate, though somewhat under last year. With the exception of the record 86 million bushel rice crop, food grains are below last year's level. Rye production is estimated 20 million bushels below last year. The trend for both dry beans and dry peas is downward, but dry bean production will still exceed the average by a wide margin.

**Korean Commies Open Fresh War**

SEOUL, Aug. 4.—(AP)—Defense Minister Shin Sung Mo said tonight a new drive by northern communist troops onto the Ongjin peninsula of South Korea had cost the Republic two infantry companies.

Some 4,000 to 6,000 northern border guards were reported attacking, Shin said he believed the drive would be checked by Republic troops by tomorrow. A courier sent by plane to the area reported the communist forces had crossed into South Korea at three points.

Last May communist troops from the north threatened to overrun the rich rice growing peninsula. They were pushed back to the 38th parallel, which divides north and south Korea, by reinforcements rushed northward by ship.

American troops have been withdrawn from South Korea. Today's battle burst as Generalissimo Chiang Kai-shek of Nationalist China was reported enroute to South Korea to discuss a Pacific pact against communism with President Syngman Rhee of South Korea.

**IT'S A CRIME (ON THE BEACH)** — Roy Miffleton kisses his pretty wife, Eleanor, at their Washington, D. C., home and contends it is his privilege at home or on the beach. It was on Sunday (July 31) that Miffleton kissed his wife during an outing at Mayo beach on Chesapeake bay and was arrested for disorderly conduct. No kissing on the beach, he was told. The Miffleton children, Eddie, 12 (left) and Arlene, 6, look at the home kiss and agreed it wasn't

**AFL Plans War On 4 Members Of U. S. Senate**

BOSTON, Aug. 4.—(AP)—The American Federation of Labor is planning to cross party lines in a history-making, million-dollar-plus campaign to defeat four senators and reelect eight others in 1950, Joseph D. Keenan of Chicago said today.

Keenan, AFL director of political education, told a press conference held in connection with the Massachusetts federation of Labor convention that this is the AFL's 1950 aim.

"To elect a Congress which will vote for the issues the people want," will "try to defeat" these senators: Taft (R-Ohio), Capehart (R-Ind), Donnell (R-Mo) and Millikin (R-Col).

The AFL he said, will support these senators: McMahon (D-Conn), Myers (D-Penn), Hill (D-Ala), Pepper (D-Fla), Morse (R-Ore), Thomas (D-Utah), Lucas

**New Band Leader Named At O. S. C.**

OREGON STATE COLLEGE—Ted Mesang, well known composer of band music and director of some crack midwestern bands, has been appointed director of the O.S.C. band starting this fall, and assistant professor of music.

John A. O'Connor, director of music at Klamath Union high school, has been named conductor of the college symphony orchestra and instructor in music. Appointment of the two men fills positions left vacant with the recent resignation of Delbert Moore, orchestra conductor since 1935, and the retirement of the late H. L. Beard, for 40 years band director. Since Beard's retirement Professor Moore had temporarily filled both positions.

Moore resigned to enter private business. Mesang, a graduate of Wisconsin university where he was assistant director of the band, has just obtained his master's degree at University of Minnesota. He has developed bands at Ashland, Wis., high school which won championship honors.

O'Connor is a graduate of University of Idaho with both bachelor and master's degrees. He is chairman of the orchestra committee, Oregon Music Educators association.

To cook apples the French way slice them and simmer with sugar, a very little water, and a few tablespoons of butter or margarine. A little grated lemon rind or vanilla may be added for good flavor. Apples cooked this way are delectable served over squares of sponge cake and topped with sweetened vanilla-flavored whipped cream.

For a crisp-tasting salad serve thin slices of onion rings and orange on shredded salad greens with a tangy French dressing, add a ring of green pepper as a temporarily filled both positions.

When you make a supper salad using leftover cold meat mound it on a serving plate and frost with a thin layer of mayonnaise; sprinkle the topping with finely minced parsley, and decorate with strips of pimiento if you like.

When you want to combine salad and dessert fill pear halves (fresh or canned) with a mixture of finely cut celery, walnuts and mayonnaise, serve on romaine or escarole. Finely cut dates may also be added to the pear filling if desired.

In making cookies, be sure that the cookie pan is not so large that it touches the oven edges, or the cookies placed in the center of the pan will not bake as successfully as they should. Those at the sides of the pan will probably burn.
