

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause aching backache, rheumatism, pain, leg pain, loss of sex and energy, itching up night, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with stinging and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

The answers to everyday insurance problems By KEN BAILEY

QUESTION: The brick wall of my neighbor's garage threatens to collapse at any moment and if it fell, might crush my frame garage which is very close to it. When I warned my neighbor of the possible damage unless the wall was repaired, he said he had a Home Owner's Liability policy which would take care of it. I, too have a liability policy but I seem to remember that it does not cover property damage. Can you tell me if I am right?

ANSWER: You are right. A straight Home Owner's Liability policy does not cover property damage. However, for a very small premium the property damage coverage can be added and it is always wise to have it included in your policy.

If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.

Waste On Federal Contracts Costly For Taxpayers

WASHINGTON, Aug. 5.—(AP)—Comptroller General Lindsay Warren informed Congress Thursday that "fraud" and "waste" on government contracts have cost taxpayers millions of dollars.

In a blistering report on his audits of some \$1,165,000,000 worth of contracts, Warren said there were "improper payments in excess of \$6,280,000" that "were induced by fraud."

Of this, he added only about \$107,882 "has been recovered" and the outlook for additional recovery is slim.

He said the general accounting office had recovered \$474,717, but that government agencies which made the overpayments generally refused to attempt recoveries but insist upon defending their actions.

Warren blamed most of the "waste and fraud" upon a "contract resettlement act of 1944" passed by Congress which he said allowed government agencies to settle contracts in full before they had been properly audited by the general accounting office or any outside agency.

The 1944 act, he said, "paved the way for the improper payment of many millions of dollars of public funds through fraud, collusion, ignorance, inadvancement, or overliberality in effecting termination settlements."

Warren said the act limits his office to actions where there is evidence of fraud adding this "places the government in the unenviable position of locking the barn after the horse is stolen."

The Bronx Zoo has had more than a hundred million visitors since it opened nearly 50 years ago.

KDND DIAL-LOG

The "Clisco Kid" and Pancho are at their best when called upon to aid a pretty senorita in distress. Their latest adventure involves them in just such a situation, along with a "Bank Robbery in Cactus" tonight at 7:30. And when some crooks try to keep the railroads from being completed in the west, it's time for "Straight Arrow" to take a hand. He does so, during the dramatization of "Meeting of the Rails," tonight at 8. Howard Culver stars in the title role. Tune in "The Affairs of Peter Salem" tonight at 10.

Representative Hugh D. Scott Jr., of Philadelphia, retiring chairman of the Republican National committee, will be the guest for tomorrow's "Meet the Press" session at six. He will be interviewed by John O'Brien of the Philadelphia Inquirer; Mae Craig of the Portland, Maine, Press-Herald; Tom Schaefer of Newsweek magazine and Lawrence Spivak, editor of American Mercury. Albert L. Warner, Mutual's chief correspondent in Washington, will be moderator.

William Gargan will be heard as "Martin Kane, Private Eye," when he debuts his new series on Mutual Don Lee beginning Sunday, August 7, 1:30 to 2 p. m. He will be cast in the roll of a crime-busting private investigator, a part that has made the name William Gargan well-known to adventure fans throughout the nation. In this new series, he will play his hazardous trade in and around metropolitan New York. Gargan's background will enable him to portray the investigator's role in a most convincing manner. Following his graduation from a Brooklyn, N. Y., high school, he followed his father's footsteps for a while and became a private detective. But even on sleuthing assignments he concentrated on the theatrical activities and finally met an actor, Arthur Deegan, who launched him on his present career. The series will be presented over the coast-to-coast Mutual-Don Lee network in behalf of the products of the United States Tobacco company.

Brannan Opposes Consolidation In Projected CVA

WASHINGTON, Aug. 5.—(AP)—Secretary of Agriculture Brannan Thursday opposed any possible subordination of Pacific Northwest agriculture agencies to the proposed Columbia Valley administration.

He told the Senate public works committee the bill to set up the administration to develop the Columbia basin provides ways to coordinate differences of opinion between the agricultural agencies and a CVA.

Brannan said he opposed consolidating the forest service, soil conservation service and other agricultural agencies with the army engineers, the Reclamation bureau and the Bonneville power administration in a CVA.

He admitted under questioning by Senator Cain (R-Wash.) that the Agriculture department and the Tennessee Valley authority have not been able to compose their differences over the question of soil conservation. Brannan added, however, that he is hopeful they will be.

He said he believes a similar situation could not arise in the Columbia river basin because the administration bill provides the president should settle any differences of opinion.

Brannan reiterated testimony he gave the House public works committee that including the agriculture agencies in a CVA is unnecessary because the bill provides for integrating their programs with CVA operations.

He said his department is preparing a report on this integration.

Brannan told the committee that while the Columbia basin contains 15 per cent of the nation's commercial forest land it has 45 per cent of the nation's total saw timber.

If the cutting rate continues at the 1948 rate, he said, the timber volume in 20 years would be reduced by roughly one-third.

"However, with proper management practices on all commercial forest lands," he added, "it should be possible for the region to continue permanently to supply at least as much lumber as it now produces."

Yugoslavia And Italy Sign Trade Agreement

ROME, Aug. 5.—(AP)—Yugoslavia and Italy signed a major trade treaty here Thursday. Italy will pour \$46,500,000 worth of machinery transport equipment and other goods into Yugoslavia in the next year in exchange for Yugoslav products.

U. Of O. Professor Quits For Post At Illinois U.

EUGENE, Aug. 5.—(AP)—Dr. Howard S. Hoyman has resigned as professor of health education at the University of Oregon to accept a similar post at the University of Illinois.

He will set up a program similar to the one developed in Oregon, which has achieved national note. Hoyman has been with the university since 1922.

At the same time the university announced that Ray V. Johnson has been added to the staff of the school of journalism as an instructor. He has been on the staff of the Beverly, Mass., Times for six years.

\$500 Ring In Relief Shoe Gift Is Recovered

PORTLAND, Aug. 5.—(AP)—This will teach Harold Wurtz not to use his shoes for a safe. His old ones, especially.

Mrs. Wurtz asked police to help her hunt for a pair of Wurtz' worn-out shoes which she gave to a relief agency three weeks ago.

She had just found out, she explained, that her husband had hidden his \$500 diamond ring in one of the Salvation Army's bins.

To the Wurtz' delight, detectives and Salvation Army employees began checking — and found the ring, intact, in one of the Salvation Army's bins.

Peacetime Draft Act May Expire In June, 1950

WASHINGTON, Aug. 5.—(AP)—Senators told army Secretary Gordon Gray Thursday that the peacetime draft act probably will be allowed to die next June 25 unless defense officials anticipate an emergency.

Chairman Tydings (D-M.D.) of the armed services committee said this was a subject of a secret session with Secretary Gray and J. Lawton Collins, vice chief of staff for the army.

After the conference, from which even committee staff members were excluded, Tydings said no action on selective service appears necessary at this session. He said Congress would meet again next January—in time to consider an extension or revision.

Last year, after much dispute, Congress enacted a peacetime selective service act. Under it men from 19 through 25 years were subject to draft for 21 months.

No draft calls have been made since January of this year because volunteers have more than filled quotas for the armed services.

Gunman Slain After Wounding 3 Officers
CHICAGO, Aug. 5.—(AP)—A gunman was shot to death Thursday in a railway express office where he was trapped by policemen after shooting and wounding three officers.

Some 50 heavily armed policemen engaged the desperado in a pitched gun battle after trailing him to the railway express office washroom. Earlier in the day he had shot a policeman at the lower level of Wacker Drive at State street.

In the succeeding exchange of shots, two other policemen were shot and wounded before the gunman was killed.

The officers poured machine gun bullets and tear gas into the washroom.

Police said papers found in the gunman's clothing indicated he was Edward S. Chumack, 23, of Chicago.

Although the people of the United States used natural gas for lighting as far back as the early 1800's, it is only in the last 15 years that it has been extensively used in homes and industries.
