

INSPECT COPCO TUNNEL—Pictured above are H. C. Wells, local Copco manager; Harold Schmeer, manager U. S. National bank, Roseburg; H. O. Pargeter, Umpqua Savings and Loan and Douglas Abstract Co.; Dr. B. R. Shoemaker, physician, all of Roseburg, and E. E. Stearns, dam superintendent at the Toketee falls power project. The group is pictured inside the 5,300-foot tunnel which will carry water to the power plant. White dots behind Pargeter are electric lights stretching into the tunnel. (Staff picture.)

U. S. Balks Plan To Smuggle Machinery To Israel

FRANKFURT, Germany, Aug. 6.—(AP)—U. S. army authorities at Bremerhaven yesterday seized an Israeli freighter which they said was being loaded with \$1,000,000 worth of illegally-consigned machinery.

An army announcement identified the ship as the Drommit, flying the Israeli flag. Her owners were not immediately identified. The fraudulently documented machinery was labeled as "household goods" of Jewish immigrants

to Palestine, the announcement said. Army officials called the smuggling attempt "the biggest ever discovered" at the American occupation port.

Dozens of American and German customs officials suddenly appeared on the pier while the ship was half-loaded. First cases that were opened, the announcement said, disclosed that boxes labeled as household goods contained concrete mixers, automobiles, tractors and other machinery. Officials said the goods came from a displaced persons camp for Jews at Bergen-Belsen, near Hanover. They said the goods had been certified by officials of the International Refugee organization as household goods.

By declaring the shipment as household goods owned by immigrants to Israel, army officials said, the owners could export the German made goods without payment of duty.

ST. CLOUD, Fla.—(AP)—Fay Charleston, radio engineer, doesn't worry about a lack of television sending stations in the south. He gets just about any kind of reception on his set here. He's logged the stations he connected with and they include just about every one up to 1,200 miles away—except Miami.

GETS VIDEO EASILY

Miami has a 78-foot elevation above sea level, with a 60-foot tower. Reason for the reception here, he says, is tropospheric propagation, a high-powered way of saying that the sky wave of television is freakishly reflected in this particular spot.

Divorce Suit Filed—LOW—Cleo Pearl vs. Charles Wesley Low. Married June 2, 1947, in Roseburg. Cruel and inhuman treatment charged. Plaintiff asks restoration of her maiden name, Cleo Pearl Noyer, and property settlement.

Divorce Decrees Granted—DURR—Virginia from Orpha Durr. OLLINGHOUSE—Willie Mae from Leonard H. Ollinghouse.

Accident Compensation Claims In Oregon Drop

SALEM, Aug. 6.—(AP)—Oregon industrial workers are getting more careful. The State Industrial Accident commission reports that it had 5.4 per cent fewer claims in the first half of this year than it did during the first half of last year. And this record was made in spite of the fact that there was one percent more man days worked.

James Roosevelt Eyes California Governor Job

LOS ANGELES, Aug. 6.—(AP)—Today's political tip from the insiders: look for another Roosevelt hat in the ring about Oct. 1, when he expects to announce his intentions toward the governorship of California.

Heat, Not Price, Caused Store Customer To Collapse

ONTARIO, Aug. 6.—(AP)—A customer came into Virgil Jackson's auto supply house and asked the price of a small gear. "Fifteen dollars," said Jackson. Said the customer, "I feel sick."

Eleven Countries Participate In Educational Exchange Program

WASHINGTON.—Some 2,600 grants or scholarships will be awarded this year under the Fulbright act, which provides for educational exchange programs abroad. Eleven countries are participating in the program.

These are the countries which have already signed agreements under the act, passed in 1946. The act was launched by Sen. J. W. Fulbright, (D-Ark.), a former Rhodes scholar, in the face of the need for broader educational understanding and the shortage of dollars.

Other nations wished to buy the millions of dollars worth of surplus property which the United States shipped abroad during the war, but they could not obtain enough dollars to do so. The Fulbright act authorizes the department of state to use foreign currencies and credits acquired through the sale of these properties for programs of educational exchange.

It is expected that an additional nine nations will sign agreements under the act and that about \$140,000,000 will be used over a 20-year period to carry out

the programs. The maximum that can be used in any country over the 20-year period is \$20,000,000, to be spent at the rate of not more than \$1,000,000 annually. Only China, Britain, France and Italy will have this amount to use. Other countries have varying amounts, from about \$200,000 to \$300,000 a year.

The program provides for sending Americans abroad, maintaining foreigners at American institutions abroad and financing travel for nationals of other countries to study in the United States.

In September about 100 American students, 22 professors, 125 teachers and 15 researchers will participate in the program in England coming here to study on travel grants.

The state department says about 2,500 applications have been made for some 250 available student grants in France.

Sen. Fulbright says the exchange program can play an important role in carrying out the President's point four program. This includes exchange of technical knowledge as well as investment of American capital in other countries.

Try New Recipe For Fried Chicken

By GAYNOR MADDOX

Frying chickens are on the August list of plentiful foods. So now is the time to look for new or different recipes for fried chicken.

Here is one that uses curry, an aromatic blend of 16 or more spices, to give unusual and pleasant flavor.

Fried Chicken Curry

(Serves 3 to 4) One and one-half to 2 1/2-pound cut-up fryer chicken, 1/2 cup flour, 2 teaspoons salt, 1 teaspoon curry powder, 1/2 teaspoon paprika, 1/4 teaspoon pepper, 1/4 teaspoon ginger, 1/4 cut fat, 2 cups finely chopped peeled apple, 1/3 cup chopped onion, 1/2 cup finely chopped or grated fresh coconut, 2 cups chicken broth or water, 1/2 cup top milk.

Roll chicken in flour and seasonings mixed together. Set aside leftover flour for gravy. Brown chicken in the fat in a skillet. (Remember to turn chicken occasionally so that it will brown evenly.) Cover skillet. Continue cooking until chicken is tender (about 20 to 30 minutes). Remove chicken from skillet. Keep hot while preparing gravy. Add apples, onions and coconut to drippings. Cook, stirring occasionally until onion is transparent. Add 1/4 cup flour (the left-over seasoned flour and additional flour). Cook until bubbly. Add broth and top milk all at once. Cook stirring constantly until thickened. Season with additional curry and salt if desired. If apples are very sweet and mild flavored add a teaspoon of lemon juice just before serving. Serve with hot rice.

While we are on the subject of spices, let's try this Cinnamon Mousse.

Cinnamon Mousse

(Serves 8) One-quarter cup molasses, 3 tablespoons sugar, 1/4 cup water, few grains salt, 2 egg whites, beaten stiff, 1 teaspoon cinnamon, 1 cup heavy cream or evaporated milk, whipped.

Set refrigerator control at cold-est point 30 minutes before preparing mousse. Cook together first three ingredients to the soft-foam stage (234 degrees F.). Add salt to egg whites and beat until stiff, but not dry. Beat hot syrup and cinnamon into egg whites; continue beating until mixture is cold, old in whipped cream or whipped evaporated milk. Pour mixture into freezing tray and place in freezing unit of refrigerator until frozen (4 to 5 hours). This mousse has a soft, smooth, velvety texture and does not freeze as hard as ice cream.

Melrose

By NETTIE WOODRUFF

The Cleveland district 4-H club, accompanied by their leader, Arnold Patterson, enjoyed a picnic and swimming party at Cleveland rapids last Sunday. Members present were Shirley and Curtis Kocken, Ray Smith, Leon Nelson, and the four Makinson boys. Accompanying them was Don Patterson, life guard. On Thursday evening of this week, the club and their leader enjoyed a wiener roast at the forks of the river.

Miss Faye Wheeler of North Bend is visiting her grandparents, Mr. and Mrs. Royce Busenbark, this week.

Mr. and Mrs. Otto Conn of Yakima, Wash., are spending the week here and in Roseburg, visiting relatives and will take their daughter, Barbara, who has been here for a month, home with them.

Mr. and Mrs. Paul Young of Pasadena, Calif., are visiting a few days with the former's brother and family, Mr. and Mrs. Jay Young, of Cleveland community.

James Conn spent last Monday in Medford attending to business. Mr. and Mrs. Chris Wulf and daughters attended the Lutheran picnic at the Veterans hospital park last Sunday.

Mrs. Geo. Reed and baby son of Coos Bay, Ore., arrived Wednesday to visit her parents, Mr. and Mrs. John Parry Sr.

Mr. and Mrs. Hagenloch and daughters, Ruth and Patty, from China Lake, Calif., are visiting their cousins, Mr. and Mrs. Arthur Herman, and family.

Capt. Jerry Stidham, who is home on 45-day leave from the air force, is spending this week at scout camp at Wolf creek, as camp assistant.

Melrose Grange Meets—Melrose grange met Tuesday evening with the master, C. E. Reece, in charge of the business meeting. R. A. Busenbark was appointed chairman of the committee to prepare a booth for the county fair. A letter from Leon Nelson was read, in which he told the grange about the 4-H summer school and thanked them for giving him the scholarship.

Forty members were in attendance and visitors were Mr. and Mrs. McDonald of Steel Lake, Wash., and Mrs. Floyd Finn of Roseburg.

The program, in charge of Alice Goff, consisted of: Group singing led by Patricia Doerner; talk by Dr. Campbell on "Health Insurance"; readings by Mamie Dimmick, Mamie Nichols and Allie Busenbark; rolling pin brigade drill by 12 ladies; pencil and paper game, and violin and piano duet by the Doerners.

The cottontail rabbit is hunted not only by man, but by hawks, owls, foxes, weasels, cats, dogs and any carnivorous animal.

French Reds Fail In Plan To Reach U. S. Embassy

PARIS, Aug. 6.—(AP)—Communists massed 1,500 singing marchers Friday in protest against Atlantic pact talks here, but the presence of 6,000 troops and police in the Place de la Concorde cooled the demonstrators' ardor.

The marchers sang the communist anthem, the Internationale. They made no attempt to break through lines of police, bolstered by soldiers in battle equipment. They had intended to march on the U. S. embassy in the square and protest against the presence

in France of the American joint chiefs of staff, who are discussing Atlantic alliance strategy.

The staff chiefs already had gone 40 miles outside Paris, for talks with western European chiefs.

Brig. Gen. Joseph O'Hare of the embassy received a delegation of four communists twice in the afternoon. They waited a third time, but O'Hare put them off until today.

In Bordeaux, U. S. Consul Walter Dichicun received a delegation of the communist-controlled general labor confederation.

Surgeon Corrects Malformation Of New-Born Baby

PORTLAND, Aug. 6.—(AP)—A baby boy, born with his esophagus closed so that he could not swallow, was on the way to recovery today after a rare operation that enabled him to eat normally.

The child, Lee Zaloznik of Lakeview, was born 26 days ago, and flown to Doernbecher hospital here where his condition was discovered.

With the infant just three days old, a surgeon, who asked that his name not be used, performed a

rare operation first tested in Boston ten years ago.

The upper part of the baby's esophagus ended in a closed sac. The lower part was fastened to a part of the child's fourth rib and joined the two ends of the esophagus together.

The child is the son of Mr. and Mrs. Ray Zaloznik, Lakeview. A similar operation was performed successfully in 1947 on Duane Thompson, Lebanon, by the same surgeon.

Heat, Not Price, Caused Store Customer To Collapse

ONTARIO, Aug. 6.—(AP)—A customer came into Virgil Jackson's auto supply house and asked the price of a small gear. "Fifteen dollars," said Jackson. Said the customer, "I feel sick."

"I'd feel sick, too," admitted Jackson. "Seems like prices of parts are terribly high since the war. I'll look again."

He referred to the catalog, and then turned toward the customer, who was now looking very pale.

The customer said, "Oh, my God," clutched his stomach, and collapsed on the floor.

Jackson, who's seen many reactions to high prices but never fainting before, rushed for water and doused it on the client.

Presently the customer opened his eyes and explained that the high "thing" bothering him wasn't prices. It was temperatures.

He was a newcomer to Ontario's 100-degree weather, and suffering from heat exhaustion.

POWER PLANT PROGRESSES—The three photos above indicate the progress being made at Copco's Toketee falls project on the North Umpqua river, 65 miles east of Roseburg. Top view shows the three penstocks which will bring water to the powerhouse from the mouth of the 5,300-foot tunnel, approximately 400 feet above the powerhouse site. Center picture is a downstream view of the powerhouse site. Equipment predominating in the photo are the bypass conduits, which will permit a flow of water to be maintained around idle turbines. Force of the fall is broken before water is released into the spillway. At left center of the middle photo may be seen the circular base upon which will rest one of the three turbines. Water to the turbine will come from the flanged pipe seen at extreme right center. Lower photo presents an overall view of the powerhouse site, looking upstream, showing the level of the concrete floor to be built over the equipment now being installed and on which will rest generating equipment. (Staff pictures.)

"White Paper" On China Draws Varied Comment

WASHINGTON, Aug. 6.—(AP)—Here is how some Congress members reacted to the government's "white paper" reporting on China policy and American-Chinese relations over the past century:

Senator Wherry (Neb.), Republican floor leader: "I can't agree to writing off Nationalist China. I can't see why we lock the front door against communism in Europe and leave the back door open in Asia."

Senator Johnson (D-Colo.): "To intervene in the civil war in China would be reckless and beyond description. * * * The State department in this instance is being realistic and sensible."

Rep. Cox (D-Ga.): "The China white paper is only a face-saving device. It is an alibi and does not state the truth. * * * we took Russia, a second-class power, and made her into the terror of the world. The blame for this bad situation must be credited, in large part, to * * * our own State department."

Senator McCarran (D-Nev.): "We still could stop communism in China, but if we continue the policy set out in the white paper it will be only a short time until all Asia is under communist control. * * * we should do something affirmative."

Heads Chest Pro-Tem—SALEM, Aug. 6.—(AP)—H. C. Johnson, Eugene, is the temporary executive director of the Oregon Chest, succeeding the late Irl S. McSherry.

Johnson said he did not want permanent appointment. He is a field representative now of the statewide fund-raising organization.

More Information In Damage Action Asked

An order has been issued by Circuit Court Judge Carl E. Wimberly requesting more information on a case involving alleged damage to a mining claim.

Plaintiffs A. V. Ingman and Leo A. Craget have been ordered to set forth more definite description of the mining claim they say was damaged by the defendant, Umpqua Plywood Corp.

The plaintiffs had asked judgment for damages amounting to \$7,500 when they alleged the defendant destroyed mine workings and a mine tunnel and removed gold-bearing ore in the form of rock and gravel for use as road building material.

Enough iron ore has been taken from the Lake Superior district to fill an ore train long enough to encircle the earth nine times.
